Pytania egzaminacyjne z przedmiotu „język angielski”

Dyplom mechanika w żegludze krajowej (M_ŻK)		
M_ŻK_10	**Przedmiot: język angielski**	
Lp.	**Pytanie**	**Poprawna odpowiedź**
1.	Mamy udać się na miejsce zbiórki. a) We are to abandon the assembly station. b) We are to go to the muster station. c) We are going to the meeting station. d) Let’s have a roll call.	B
2.	Z mojego statku człowiek wypadł za burtę. a)I have lost a person overboard. b)One person missing overboard. c)There is a man overboard. d)My ship is searching for a person overboard.	A
3.	The piston pin and a crank pin are directly connected to each other by the connecting rod in … . a) V-engines. b) crosshead engines. c) supercharged engines. d) trunk engines.	D
4.	Pompa tłokowa to: a) gearwheel pump. b) centrifugal pump. c) reciprocating pump. d) pistonless pump.	C

5.	The 2-stroke cycle begins when the piston is … . a) in a shut down mode. b) in its Top Dead Centre. c) in its Bottom Dead Centre. d) stuck.	C
6.	Jak długo trwa uruchomienie silnika ze stanu zatrzymania? a) How long does it take to start the engine from stopped? b) How much time do you need to shut down the engine?. c) Do you have time to start the engine after its stopping? D What time do you start engine from the shutdown mode?	A
7.	… are examples of auxiliary machinery. a)Windlass, mooring lines, anchor, capstan. b) Extinguishers, hydrants, hoses, sprinklers. c) Railings, propeller, rudder, aerial. d) Fresh water plant, starting air system, fresh water generation plant, sewage treatment plant.	D
8.	A seal or packing is also known as … . a) a gasket. b) a collar. c) a flange. d) a tool.	A
9.	Załóż kombinezon z długimi rękawami, mocne buty i kask. a)Wear protective clothes, boots and a hat. b)Don thick cloths with long sleeves, wellingtons and a cap. c)Put your clothes on, safety shoes and a helmet d)Put on a coverall, strong boots and a hard hat.	D
10.	To tighten up a nut you need … . a) a mallet. b)a screwdriver. c) a grinder. d) a spanner.	D

11.	To drive in a nail you need … . a) a drilling machine b) a hammer c) a screwdriver d) combination pliers	B
12.	Przeszlifuj jeśli to konieczne. a) Scrape it if needed. b) Grind it if necessary. c) Weld it if required. d) Chip it if it is necessary.	B
13.	Zregenerowane części są tam. a) The reconditioned parts are there. b) The spare parts are there. c) The ordered parts are there. d) The broken parts are there.	A
14.	An operation to supply the vessel with fuel is called … . a) reconditioning b) bunkering c) ullage d) sounding	B
15.	A metal body where a crankshaft and connecting rods are housed is known as …. . a)a stuffing box b)a manifold c)a crankcase d) crankchamber	C
16.	The pressure and temperature (w normie). a) steady b) under control c) up and down d) within the limits	D
17.	Skraplacze zostały już zamówione. a) The condensers have already been ordered. b) The evaporators have already been requested. c) The incinerators have just been ordered. d) The steamers have been requested yet.	A

18.	Spalarka odpadów wymaga przeglądu. a) A combustion chamber needs a check-up. b) The incinerator requires an overhaul. c) The furnace should be looked through.. d) The sewage treatment plant must be inspected.	B
19.	Zmieniliśmy kursy aby ustąpić drogi. a)We will change course to give way. b)We will alter course to be given way. c)We have altered course to give way. d)Way has been given to alter course.	C
20.	Przetestowaliśmy to w warunkach pracy. a) We have tested it under working conditions. b) We were examining that at work. c) We had a test under work. d) We tested during an overhaul.	A
21.	A valve that lets air or liquid in is known as … . a) an outlet valve b) an inlet valve c) an income valve d)an exhaust valve	B
22.	Wezwij kapitana jeśli jakiś statek przejdzie z najbliższym punktem podejścia mniejszym niż … mil. a)Call the Master if a vessel crosses ahead of you at … UTC less than … miles. b)Call the Captain if any vessel is proceeds with a CPP less than … miles. c)Call the Captain if a ship's ETA is … and less than … . d)Call the Master if any vessel passes with a CPA of less than … miles.	D
23.	An automatic device to adjust and control the speed or pressure in an engine is called … . a) a governor b) a turning gear c) a gauge d) a push rod	A
24.	Nie udało mi się znaleźć usterki. a) No more breakdowns. b) I could not look for the damage. c) I not found the malfunction. d) I have failed to find the failure.	D

25.	Temperatura się podnosi. a) The temperature is decreasing. b) The temperature is increasing. c) The temperature is dropping. d) The temperature is steady.	B
26.	Utrzymuj stałe ciśnienie. a) Release the same pressure. b) Increase the pressure. c) Maintain steady pressure. d) Hold on pressure.	C
26.	Distress situations: … . a)capsizing, anchoring, mooring b)flooding ,maintenance, medical emergency c)hull damage, heavy list, towing, heavy traffic d) piracy, explosion, sinking	D
27.	Nastawiam luzy zaworowe a) I am adjusting valve clearances. b) I am setting the valve gaps. c) I am to remove the valve clearances. d) I am correcting the valve looses.	A
28.	Chcę pomóc przy naprawie. a) I want to fix it. b) I want to help with the repair. c) I know how to repair it. d) I want you to fix it.	B
29.	Choose the synonym of **propeller**. a)rudder b)propulsion c)pitch d)screw	D
30.	Te filtry mają być założone z nowym uszczelnieniem. a) The filters are to be assembled with a new packing. b) The filters will have a new seal. c) The filter cartridges do not require a new packing. d) The filters have been inserted with a new packing.	A

31.	Spuść brudny olej. a) Empty the dirty tank. b) Drop the dirty oil. c) Change the dirty oil. d) Drain the dirty oil.	D
32.	Rozbierz tę pompę na części. a) Dismantle the pump. b) Assemble the pump. c) Regrind the pump. d) Remove the pump.	A
33.	Use … in noisy environment. a) a hard hat b) overalls c) ear defenders d) safety gloves	C
34.	Jakie narzędzia potrzebujesz? a) Which toolbox do you want? b) What tools do you need? c) Why do you require the tools? d) How many tools do you need?	B
35.	Mamy poważną awarię. a) We are in big trouble. b) We have a serious breakdown. c) We have something to repair. d) We have to remove the failure.	B
36.	The heater … regularly. a) is cleaning b) clean c) should be cleaned d) be clean	C
37.	Czy wiesz jak to naprawić? a) Is it repairable? b) Can you fix it for me, please? c) Are you repairing it? d) Do you know how to repair it?	D

38.	Usunąłem rdzę, wyczyściłem i odmalowałem. a) I have stopped the rust, washed and painted. b) I have removed the rust, cleaned and painted. c) I have chipped, swept and painted. d) The rust is under control, clean and painted.	B
39.	Zmierz luzy na tamtych zaworach. a) Measure clearances of those valves. b) Measure the valve deflection. c) Remove these valves and measure clearances. d) Take measurements of loosened valves.	A
40.	Brak zasilania. a) The plug is broken. b) The power is stopped. c) No power supply. d) The power is closed.	C
41.	Life-saving appliances: a) life rafts, extinguishers, first-aid kit, TPA b)EEBD, MES, life jacket, life buoy c)life boats, hoses and water jets, pyrotechnics d)MOB drill, fireman's outfit, B.A. set, FRC	B
42.	A … is used for measuring very small objects. a) spirit level b) dimension c) magnifying glass d) micrometer	D
43.	The process of joining separate metal pieces by causing fusion is known as ... . a) drilling b) welding c) tightening d) cutting	B
44.	Take a … to wipe a surface or an object. a) water b) bucket c) broom d) cloth	D

45.	To cut metal you need a … . a) a hacksaw b) a knife c) a file d) a grinder	A
46.	The 4-stroke cycles are known as …. a) bunkering, settling, pumping and fuel consumption b) suction, compression, power and exhaust c) intake, combustion, cooling and outlet d) a piston, a cylinder wall, a crankshaft and valves	B
47.	… are used to produce heat. a) Pumps b) Separators c) Boilers d) Blankets	C
48.	The position of the drain tank is often in …. a) the superstructure b) the double bottom c) the hold d) the workshop	B
49.	The lubricating oil can be purified by …. a) a pump b) a heater c) a strainer d) a sounding pipe	C
50.	Pistons and cylinders in a marine diesel engine must be cooled by …. a) heaters b) freezers c) refrigerators d) coolants	D
51.	HFO stands for …. a) hot fuel operation b) heavy fuel oil c) heavily filtered oil d) Hotel, Fox, Oscar	B

52.	Poor … increases friction. a) grinding b) cutting c) lubrication d) brushing	C
53.	Water and impurities are separated from the fuel in …. a) a bilge b) a drain tank c) a settling tank d) a bunker tank	C
54.	You cannot ignore the … of oil. Which is <u>the odd</u> one? a) viscosity b) consumption c) level d) humidity	D
55.	…are the main parts of a marine diesel engine. a) A pump, a centrifuge, a windlass, scavenging ports, guides b) A power generator, a heat exchanger, coolant, lubrication oil c) A propeller shaft, a push rod, a mooring winch, a fuel tank d) A piston, a crankshaft, a bedplate, a cylinder liner, a camshaft	D
56.	Which question is correct? a) How much is the temperature of oil? b) How many temperatures is the oil? c) What is the oil temperature? d) How much have oil temperature?	C
57.	… work in the engine room. a) A chief engineer, a motorman, a wiper and a watch engineer b) A chef, engineers, a purser and a pump man c) A 2nd engineer, a duty engineer, a cook and a bosun d) A donkey man, an electrician, a carpenter and an oiler	A

58.	Silnik jest uszkodzony. a) The engine is a failure. b) The engine is shut down. c) The engine is broken. d) The engine is damage.	C
59.	The pump is (sprawna). a) out of order b) operational c) maintained d) assembled	B
60.	Zeszłej nocy doszło do poważnej awarii w CMK. a) Yesterday night was a huge damage in the UMS. b) Last night a big average happened in the ER. c) At midnight last night the E/R caused a lot of trouble. d) There was a serious breakdown in the ECR last night.	D
61.	Apply packing to stop … . a) the leakage b) the vessel c) the separation d) the insulation	A
62.	Valves are opened by … . a) cams b) rocking levers c) valve seats d) valve discs	B
63.	Our ship … in the harbour yesterday. a) is b) are c) were d) was	D
65.	The wiper … the floor at the moment. a) sweeps b) is sweeping c) has swept d) are to sweep	B

64.	Marine engineers … . (Which is the odd one?) a) run and maintain ship's machinery b) are responsible for ship's machinery c) prevent failure-free operation and avoid ship's machinery d) take a good care of ship's machinery	C
65.	Musimy wymienić wtryskiwacze. a) We must recondition the injection nozzles. b) We have to exchange the burner. c) We need to remove the atomizers. d) We have to replace the injectors.	D
66.	Idź i przynieś nowe uszczelki. a) Go and bring me some new washers. b) Go and fetch some new nuts. c) Go and get some new gaskets. d) Go and deliver some new sealant.	C
67.	Lubricating oil … . (Which is the odd one?) a) reduces noise b) increases friction c) forms a seal d) purifies	B
68.	An overhaul is … . a) a process of draining b) a major repair c) a safety drill d) a heat treatment	B
70.	All faulty valves have just been … . a) ordered b) replaced c) broken d) resumed	B
