Contact : Shadreck Munetsi

### Tender Details

Document type : Tender Notice

Bidding type : Not Specified

Project location : Somalia

Tender notice No : LRPS-2019-9152803

Description : Request for proposal: Long Term Agreement LTA for Borehole drilling and Water system in Central and Southern Region 2 Assignment Objective The main objective of assignment is to improve the access to safe and adequate water supply services in CSR. UNICEF together with the Federal and State Counterparts in CSR identified 50 priority locations which have frequently been hit by drought and water scarcity. Hydrogeological and geophysical surveys was conducted in 32 of those location to assess the ground water potential and identify feasible sites for drilling. As part of the transition from periodic water trucking to sustainable water supply services, UNICEF is coordinating with government and various donor agencies to support the establishment of new borehole-based water supply systems. Approximately 300,000 people in the target locations will benefit from this project. The project is divided in to 5 lots considering the geographical distribution of the work. Each lot has two components interconnected and the works to be carried out in each location to achieve the desired objectives of the intervention are as follow. Component 1: Drilling of borehole Drilling of new boreholes, equipped and pump tested Component 2: Water network and related civil work 1. Provision and installation of generators, pumps and pipes. 2. Construction of elevated water storage tanks. 3. Construction of generator and caretaker rooms. 4. Construction of water kiosks for people. 5. Construction of twin pit latrines for water system attendants. (Note: Each bidder has to fill up the provided excel sheet per locations, five lots) Scope of WorkS UNICEF requests prospective contractors from CSR to submit quotations for the drilling and equipping of borehole and construction of water supply systems. The contractors will be required to provide all services, materials, consumables, tools and labour to successfully complete the intervention. UNICEF will provide only the generators, pumps, and (optionally) pipes. All the works must be carried out as per the attached designs and technical specifications. In light of the above, UNICEF is requesting the services of qualified local contractors to undertake the below activities 1. Mobilization of all equipment, materials, workers and other required components to undertake the works. 2. General co-ordination of trade (sub)contractors and service providers as well as site management 3. Undertake the drilling, equipping and construction works as prescribed in the attached bills of quantities

(BoQs) and designs and technical specifications. The scope of works is detailed in the attached BoQs and designs and technical specifications. The proposing contractors must quote for all the line items included in the BoQs.

Deadline : 2019-11-05
