

MILENA KRZOS

ABOUT ME

I'm a compassionate and responsible person with a strong interest in animal care and welfare. I have experience gained through school internships, where I assisted in basic veterinary tasks and learned how to handle animals safely and calmly. I enjoy spending time with animals, observing their behavior, and making sure they feel comfortable and well cared for. I'm especially interested in improving my skills in working with both domestic and farm animals, and I'm motivated to continue learning and developing in the veterinary field.
