Sydney, 23 April 2020

To Whom It May Concern

The Consulate-General of the Federal Republic of Germany in Sydney confirms that transit through the Federal Republic of Germany to the traveler's home country is possible, provided that no alternative travel connection exists and provided that entry into this country and transit through transit countries is possible.

The purpose of the journey and the entry requirements for the destination and transit countries must be proven (passport, registration certificate, residence permit, tickets or air tickets). A train ticket to the German-Polish border, e.g. to Frankfurt/Oder is sufficient, since that border can be crossed on foot via bridge. This has been fully agreed upon with the responsible police departments in Germany.

The German Consulate-General in Sydney requests that, in accordance with the applicable German regulations, Polish citizens are to be granted transportation upon presentation of proof of their onward journey (train ticket).

Peter Silberberg
Consul-General
