

REGISTRATION REPORT

Part B

Section 10

Assessment of the relevance of metabolites in groundwater

Detailed summary of the risk assessment

Product code: GLOB182F

Product name(s): SURRENDER

Chemical active substance(s):

Fludioxonil, 100 g/L

Interzonal

Zonal Rapporteur Member State: PL

CORE ASSESSMENT

Applicant: Globachem NV

Submission date: January 2021

MS Finalisation date: August 2021 (initial Core Assessment)

March 2022 (final Core Assessment)

Version history

When	What
January 2021	Initial dRR – Globachem NV
August 2021	Initial iZ RMS assessment The report in the dRR format has been prepared by the Applicant, therefore all comments, additional evaluations and conclusions of the iZ RMS are presented in grey commenting boxes. Minor changes are introduced directly in the text and highlighted in grey. Not agreed or not relevant information are struck through and shaded for transparency.
March 2022	Final report (Core Assessment updated following the commenting period) No additional information or assessments after the commenting period.

Table of Contents

10	Relevance of metabolites in groundwater.....	4
10.1	General information.....	4
Appendix 1	Lists of data considered in support of the evaluation.....	5

Reviewer comments:

This part of dossier has been submitted to support registration of the plant protection product GLOB182F (Glo-bachem NV) according art. 33 of 1107/2009.

Document refers data related to the forming of metabolites in the environment (see dRR B8). dRR Part B10 has been reviewed for the purposes of ongoing registration and also checked its compliance with the current guidelines. Information has been considered as sufficient and appropriate for concluding.

10 Relevance of metabolites in groundwater

10.1 General information

Following the use of Fludioxonil as a seed treatment product, only the degradation in the dark has to be considered as the treated seeds are incorporated into the soil. As the metabolites of Fludioxonil are only formed in the light by photolysis, they are not relevant for the use of Fludioxonil as seed treatment product (see dRR Part B Section 8).

Assessment of the relevance of these metabolites according to the stepwise procedure of the EC guidance document SANCO/221/2000 –rev.10 is therefore **not** required.

Appendix 1 Lists of data considered in support of the evaluation

List of data submitted by the applicant and relied on

Data point	Author(s)	Year	Title Company Report No. Source (where different from company) GLP or GEP status Published or not	Vertebrate study Y/N	Owner
-	-	-	None submitted.	-	-

List of data submitted by the applicant and not relied on

Data point	Author(s)	Year	Title Company Report No. Source (where different from company) GLP or GEP status Published or not	Vertebrate study Y/N	Owner
-	-	-	None submitted.	-	-

List of data relied on not submitted by the applicant but necessary for evaluation

Data point	Author(s)	Year	Title Company Report No. Source (where different from company) GLP or GEP status Published or not	Vertebrate study Y/N	Owner
-	-	-	None submitted.	-	-
