

AZOR – LIFE Partner Profile

Short description

AZOR Consulting – Agency for Sustainable Development (LLC) is a consulting organisation based in Podgorica, Montenegro. AZOR provides professional support in the preparation and implementation of development projects, with a focus on sustainable development, EU and international funding opportunities, strategic planning, partnership building, business development, capacity building and project implementation support. AZOR's services include project preparation and implementation, strategic planning, business planning, education, business consulting, marketing strategies and related development support services.

Core expertise

AZOR Consulting can contribute to LIFE project consortia through expertise in:

- strategic planning and local development planning;
- EU and international project development;
- partnership building and stakeholder coordination;
- capacity-building activities and trainings;
- implementation support and administrative coordination;
- financial monitoring and reporting support;
- risk identification and management support;
- communication, visibility and dissemination activities.

Relevance for LIFE Programme

AZOR is particularly interested in LIFE cooperation related to:

- nature protection and biodiversity;
- climate change adaptation and resilience;
- circular economy, waste prevention and zero pollution;
- sustainable water, land and natural resource management;
- energy efficiency and clean energy transition;
- environmental governance and awareness-raising;
- transfer of EU good practices to Montenegro and Western Balkan communities.

Added value for LIFE consortia

AZOR can provide added value to LIFE project consortia by connecting EU partners with local authorities, civil society, businesses and rural communities in Montenegro. The organisation can support the preparation of project documentation, coordination of local partners, implementation of capacity-building actions, communication with stakeholders and transfer of good practices to the local context. AZOR can also support LIFE proposals that require a Western Balkan partner with knowledge of local development needs, municipal challenges, rural areas, sustainability priorities and EU funding procedures.
