<b>Eligible Institutions</b>	All Austrian research institutions are eligible to apply. Research institutions must be registered in the FWF's research institution portal. The proposed research must be carried out in Austria under the auspices of the Austrian lead research institution. Applications are submitted by the research institution where the project is to be carried out. Please refer to section 1.3 of the "Application guidelines Principal Investigator Project" for more details.	
<b>Eligible Applicants</b>	The principal investigator must be employed at the Austrian research institution applying for funding at the time the project is scheduled to begin. The principal investigator must have appropriate scientific qualifications as described in section 1.4 of the "Application guidelines Principal Investigator Project". Please also consider the application and project number limit.	
<b>Eligible Costs</b>	Project-specific costs are eligible for funding. These include personnel and non-personnel costs that are needed to carry out the project and that are not included in the infrastructure provided by the research institution (for more information please see section 2.3 of the "Application guidelines Principal Investigator Project"). The FWF does not finance the infrastructure or basic equipment of research institutions.  In addition, funding may be requested for project-specific work at the associated research institution(s) where associated research partner(s) work. Associated research partners are

The <i>Associated Research Partner</i> form must be completed for these researchers, if applicable. Please refer to section 1.5 of the “Application guidelines Principal Investigator Project” for more details.</p> <p>Please note that exaggerated cost projections may be grounds for rejection, even if a proposal is otherwise excellent.</p>	
Funding Commitment	Total Amount for the Call	Maximum Amount Per Proposal
	800.000 EUR	400.000 EUR
Other Funding Criteria	<p>Funding may only be requested for projects in <u>basic research</u>.</p> <p>In addition to the application submitted to the Call Secretariat, pre-proposals including FWF-specific administrative information must also be registered online with the FWF submission portal at <a href="https://elane.fwf.ac.at">https://elane.fwf.ac.at</a> by <b>November 14, 2025 2:00 pm (CET)</b>. Please note that submissions must be completed by the host institution by the end of the deadline. Pre-proposals can be registered starting September 12, 2025, under the program category “PIK – International Programs draft proposal.”</p> <p>For the full proposal stage, applicants must choose the program category “KIN – International – Multilateral Initiatives”. <u>Both steps are mandatory</u>.</p> <p>Please note that applications are only valid once they have been approved for submission by the research institution on the submission portal in due time before the specified deadline.</p>

<p>Eligible Institutions</p>	<p>The FWO integrates two of its national/regional funding channels within this multilateral framework. The choice of FWO funding channel depends on the <u>type of project</u> the researchers from Flanders wish to undertake (i.e. more fundamental in nature vs. strong emphasis on valorization potential).</p> <p>The scope and the eligibility of institutions and its researchers can be verified in the relevant chosen funding channel regulations, which can be consulted on the FWO website:</p> <ul style="list-style-type: none"> <li>- <a href="#">FWO Research Projects (FO)</a></li> <li>- <a href="#">Strategic Basic Research (SBO)</a></li> </ul> <p>Or by contacting the FWO contact points mentioned above.</p>	
<p>Eligible Applicants</p>	<p>See 'Eligible Institutions' section above for the general eligibility criteria linked to participation in the 'Joint Transnational Call' (JTC) and 'Early Career Researcher call' (ECR).</p>	

## National/Regional regulations & contact points

<p><b>Eligible Costs</b></p>	<ul style="list-style-type: none"> <li>○ The FWO foresees a budget of 700.000 EUR, which guarantees at least two projects.</li> <li>○ The respective funding channel regulations apply (see links to national rules above: 'Eligible Institutions' section), and both are <b>capped at max. 350.000 EUR per project/consortium</b> (incl. overhead, for which the calculation method diverges per funding channel - see explanation below).</li> <li>○ For the <b>overhead calculation</b>, the fundamental (FO) and strategic research projects (SBO) use the same approach. A structural overhead rate should be applied on the project costs, with an overhead rate of <b>6% for 'FO projects'</b>, and a <b>17% overhead rate for 'SBO projects'</b>. Some practical examples: <ul style="list-style-type: none"> <li>➤ <u>FO</u>: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 12.000 EUR (6% of 200.000 EUR) and the total requested cost is 212.000 EUR. This <b>total requested cost may never exceed the max. available amount of 350.000 EUR</b>.</li> <li>➤ <u>SBO</u>: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 34.000 EUR (17% of 200.000 EUR) and the total requested cost is 234.000 EUR. This <b>total requested cost may never exceed the max. available amount of 350.000 EUR</b>.</li> </ul> </li> </ul> <p>Overhead should be mentioned in the Water4All budget tables, but it should <b>not</b> be inserted in the national/regional FWO pre-registration form on the <a href="#">FWO E-loket</a> (see below under 'Other Funding Criteria').</p>	
<p><b>Funding Commitment</b></p>	<p><b>Total Amount for the Call</b></p> <p><b>700.000 EUR</b></p>	<p><b>Maximum Amount Per Proposal</b></p> <p><b>350.000 EUR (incl. overhead)</b></p>
<p><b>Other Funding Criteria</b></p>	<p><b>!! IMPORTANT !!</b></p> <ul style="list-style-type: none"> <li>○ Applicants for FWO funding must submit a <b>mandatory administrative application via the <a href="#">FWO E-loket</a></b>. <ul style="list-style-type: none"> <li>➤ For fundamental research projects (FO) select the application type: 'Research projects – European programme fundamental research'.</li> <li>➤ For strategic basis research projects (SBO) select the application type: 'Research projects – European programme strategic basic research'.</li> </ul> </li> </ul> <p>In case the consortium includes more than one partner requesting funding from FWO, a <u>single online form</u> should be submitted by the main PI (promotor(-spokesperson)) itself, containing all relevant information for the different Flemish partners.</p> <p><b>The deadline to submit this administrative application to the FWO is identical to the deadline of the joint transnational call (pre-proposal stage).</b> To ensure the eligibility of the proposal, it is recommended to consult the FWO administration at least one week in advance. <u>Failure to comply with these requirements can lead to ineligibility.</u></p>	

## National/Regional regulations & contact points

	<ul style="list-style-type: none"> <li>○ Participation in this call does not interfere with the ‘regular/national’ project submission framework, and is consequently not taken into account for calculating the max. available number of new applications and running projects combined. <b>However, researchers can only participate within 2 different international consortia in this call as partner, or only in one project if they take up the role as coordinator.</b></li> <li>○ Projects aiming at the development of a spin-off company are <b>not eligible</b> in this context. A potential ‘spin-off route’ should not be mentioned in the FWO pre-registration form, as such.</li> <li>○ The project duration is limited to 36 months, which implies the funding has to be budgeted and spent accordingly. An automatic prolongation and using positive (financial) balances after the end date is not applicable in this framework. As such article 28 of the <a href="#">FWO Research Projects</a> and article 14 of the <a href="#">Strategic Basic Research (SBO)</a> regulations do not apply here.</li> <li>○ The PI, for each of the participating institutions applying for FWO funds, must hold an <b>appointment that fully covers the duration of the research project.</b></li> </ul> <p>Linked to the above, when it comes to the <a href="#">FWO research project regulations (FO)</a>: article 10, §7 is not applicable in this call. I.e. supervisors (-spokespersons), or coordinators/consortium partners in this context, who are granted <b>emeritus status</b> during the calendar year of submission of the project application or during the duration of the project execution, are <b>not eligible</b>.</p>
Relevant documents	A <b>mandatory administrative application via the FWO e-portal</b> is an essential part of the <b>application process</b> (see ‘Other Funding Criteria’).
Additional Info	It is <b>strongly advised</b> to approach the FWO contact points (‘NCP’) mentioned above, in order not to jeopardize any research projects/consortia.

Projects that achieve at least one of the following types of results can be supported in this Call. The type of the result has to be clearly described in the project proposal:

P - patent

G - technically realized results - prototype, functional sample

Z - pilot plant, proven technology

R - software

F - results with legal protection - utility model, industrial design

N - Certified methodologies and practices, treatment, conservation methods, procedures and specialized maps with professional expert content

O - other results

J - peer-reviewed article

### Mandatory forms to be submitted

- A Sworn Statement of the Applicant
- Completed "TACR Application Form" Excel file (main applicant)\*
- if the applicant plans to achieve the "Patent" type of result, patent search must be substantiated\*
- if the applicant plans to achieve the "NmetS" type of result, the "Confirmation of the Certification authority for NmetS results" needs to be attached\*
- Sworn statement of the composition of the consortium (if relevant)

All documents proving the eligibility of the Czech applicant (mentioned above) shall be submitted via the TACR data box (TACR data box ID: afth9xp) within the same deadline as the project pre-proposals.

**National/Regional regulations & contact points**

	<p>*Applicants who will not submit this mandatory form (if relevant) via databox before the deadline will be considered as not eligible for TA CR funding.</p> <p>Please fill in the subject line as: „Horizont Evropa - Water4All Call 2025 - prokázání způsobilosti - akronym projektu“.</p>
<b>Relevant documents</b>	<p>“Guide for Czech applicants” and all mandatory forms will be available on <a href="#">TA CR website</a> (in Czech).</p>
<b>Additional Info</b>	<p><u>Project start</u> Please note that following national legislation, Czech applicants shall start within 120 days from the funding decision being communicated by the Call Management (60-day period to enter into a contract + 60-day period to start the project).</p> <p><u>Intellectual Property Rights</u> The applicants are required to enter into a contract with their foreign partners (sign the so-called Consortium Agreement) which will define the conditions of cooperation on the project where, among other things, they specify the method of allocating rights to the research results, as well as adjustment and management of the rights imported or created during the project's implementation, which are necessary to address the project.</p> <p><u>Publicity obligations</u> While promoting the project and its results Czech beneficiaries must follow the publicity rules of TA CR.</p>

Eligible Institutions	<p>The following eligibility criteria address Estonian applicants in European partnership calls for transnational research projects. Each project is carried out by a consortium that consists of research institutions (partners) from different countries. Each partner in a funded project will be funded by their national Funding Organisation. It is mandatory for all Estonian applicants to follow both the general and the national eligibility criteria of the call. Please note that if one of the partners is not eligible, the entire proposal might be considered ineligible.</p> <p>In case of a positive funding decision the Host Institution, the Principal Investigator and the Funding Organisation will enter into a trilateral agreement.</p> <p><b>The Host Institution</b> may be any legal entity that is registered and located in Estonia and has an Estonian bank account. Restrictions to eligible institutions and applicants may however be stated in the general call conditions which also apply to Estonian participants. The Host Institution (the final recipient) is the institution to which the grant will be allocated.</p> <p>After the submission deadline (in case of two-stage application, after the preproposal deadline) and upon the notice from the Funding Organisation, the Host Institution must confirm to the Funding Organisation in writing that the Estonian sub-project can be carried out on their premises in Estonia and that they will employ the Principal Investigator during the duration of the sub-project, should the project receive funding.</p> <p>If the Host Institution is an undertaking, the State aid and de minimis aid regulations must be taken into account.</p>	

## National/Regional regulations & contact points

<p><b>Eligible Applicants</b></p>	<p><b>The Principal Investigator (PI)</b> is a researcher who acts as the Estonian team leader in the project proposal. He/she will be responsible for how the grant is used and how the Estonian part in the project is executed. The PI must be clearly identified in the proposal.</p> <p><b>If several Estonian institutions participate in one proposal, all institutions must have a Principal Investigator who meets the national eligibility requirements.</b></p> <p>The Principal Investigator:</p> <ul style="list-style-type: none"> <li>- must have an updated public profile in the Estonian Research Information System (ETIS) by the submission deadline (in case of two-stage application, by the preproposal deadline);</li> <li>- must hold a doctoral degree or an equivalent qualification. The degree must be awarded by the submission deadline (in case of two-stage application, by the preproposal deadline) at the latest;</li> <li>- must have published at least three articles that comply with the requirements of Clause 1.1 of the ETIS classification of publications, or at least five articles that comply with the requirements of Clauses 1.1, 1.2, 2.1 or 3.1, within the last five calendar years prior to the proposal submission deadline (in case of two-stage application, prior to the preproposal deadline).<sup>1</sup> Patents are equaled with publications specified under Clause 1.1. A monograph (ETIS Clause 2.1) is equaled with three publications specified in Clause 1.1 if the number of authors is three or fewer. If the applicant has been on maternity, paternity, or parental leave, in compulsory military service, or if there have been other exceptional circumstances (e.g., serious illness), they can request the publication period requirement to be extended by the relevant period of time.</li> </ul> <p>If the Principal Investigator has received the PhD degree outside Estonia, its correspondence to an Estonian doctoral degree must be recognised by either the Estonian ENIC-NARIC Centre or the Host Institution in accordance with the Regulation of the Government of the Republic of April 6, 2006, No. 89 "Evaluation and academic recognition of documents proving foreign education and the name of the qualification awarded in the foreign education system terms and conditions of use". The Funding Organisation may ask for a relevant Evaluation Report.</p>
<p><b>Eligible Costs</b></p>	<p><b>If several Estonian institutions are applying in one proposal, the total requested budget can be still max 150.000 € per proposal or 300 000 € per proposal in case one Estonian institution is the coordinator.</b></p> <p><b>The budget</b> contains costs directly related to the implementation of the project (<b>direct costs</b>) and <b>indirect (overhead) costs</b>. The direct costs must be used to carry out the project and be separately identifiable.</p> <p><b>Direct costs:</b></p> <p><b>Personnel costs</b> are monthly salaries (along with all state taxes, contributions, and compensations arising from law) of the project participants, calculated according to their commitment and in proportion to their total workload at their Host Institution.</p> <p><b>Other direct costs</b> are:</p> <ul style="list-style-type: none"> <li>- travel costs that may cover expenses for transport, accommodation, daily allowances and travel Insurance. If the project is funded from the European Regional Development Fund (<b>Mobilitas 3.0</b>) resources, travel costs are eligible only for <b>travels abroad; national travel costs are not eligible!</b></li> <li>- consumables and minor equipment directly and fully related to the project;</li> <li>- publication and dissemination of project results;</li> </ul>

	<ul style="list-style-type: none"> <li>- organising meetings, seminars or conferences (e.g. room rent, catering, equipment rental and related costs);</li> <li>- fees for participating in scientific forums, conferences and other events directly and fully related to the project;</li> <li>- patent costs;</li> <li>- all other costs that are identifiable as clearly required for carrying out the project (e.g. translation, copy editing, webpage hosting, postage costs etc.) and are directly and fully related to the project.</li> </ul> <p><b>Indirect costs (overhead)</b> are costs that cannot be identified as specific costs directly linked to the performance of the action and/or should cover the general expenses of the Host Institution related to the management of the grant. Office consumables and costs for equipment and services intended for general use (e.g., phone bills, copy service, printer) should be covered from the indirect costs. Indirect costs are <b>15% of the personnel costs</b> of the Estonian sub-project.</p> <p><b>Subcontracting costs</b> are direct costs. Subcontracting costs should cover only additional or complementary research related tasks (e.g. analyses, conducting surveys, building a prototype, etc.) performed by third parties. Subcontracting costs should not be included in the overhead calculation. The activities and budget should be described in the proposal. Core project tasks should not be subcontracted. Subcontracting costs may not exceed <b>15% of the total costs</b> of the Estonian sub-project.</p> <p><b>Double funding</b> of activities is not acceptable (i.e. the same cost item may not be reimbursed twice).</p> <p><b>Exclusion from the scope of the ERDF (Mobilitas 3.0) funding</b> Following the restrictions laid down in Article 7 of the Regulation of the European Parliament and of the Council No 2021/1058 of 24 June 2021 on the European Regional Development Fund and on the Cohesion Fund research and other activities related to fossil fuels and their use, as well as other activities not eligible as per Article 7 of the Regulation, cannot be funded from the European Regional Development Fund (Mobilitas 3.0) resources.</p>

- \*Professors employed at a university of applied sciences and researchers employed at a TO2 institute may also submit as a main national applicant provided that they have at least a salaried position for a limited period of time.
- Persons with a zero-hour employment agreement or with a contract for a limited period of time (other than a tenure track appointment) may not submit a proposal.
- It could be the case that the applicant's tenure track agreement ends before the intended completion date of the project for which funding is applied for, or that before that date, the applicant's tenured contract ends due to the applicant reaching retirement age. In that case, the applicant needs to include a statement from their employer in which the organisation concerned guarantees that the project and all project members for whom funding has been requested will receive adequate supervision for the full duration of the project. Such a statement should be submitted in the full proposal stage.
- The main national applicant employed by a university of applied sciences or TO2 institute whose employment ends before the intended completion date of the project for which the grant is being applied for must also attach such a statement.
- Applicants with a part-time contract should guarantee adequate supervision of the project and all project members for whom funding is requested.
- National Co-applicants
- Researchers interested to apply as a national co-applicant, i.e. together with a national main applicant, may submit as a national co-applicant if they have a tenured position (and therefore a paid position for an indefinite period\*) or a tenure track agreement at one of the research organisations listed under 'National main applicants' or at other research organisations as referred to in Article 1.1, paragraph 4 of the NWO Grant Rules 2024 that meet the following cumulative conditions:

Funding Commitment	Total Amount for the Call	Maximum Amount Per Proposal
	€2,000,000	€325,000
Other Funding Criteria	<p>Once proposals are selected for funding, the consortia will be notified by Call Management and subsequently, the national granting process will be initiated by NWO.</p> <p>An application for NWO funding has one national main applicant, responsible for scientific and financial management. National co-applicants within an application for NWO funding are allowed.</p> <ul style="list-style-type: none"> <li>A researcher may only request NWO funding for one project (part of a European consortium) in this Call for proposals, either as main applicant or co-applicant within an application for NWO funding.</li> <li>Researchers employed at a university in the Kingdom of the Netherlands, umc or a research organisation, as referred to in Article 1.1, first paragraph, subparagraphs c to h of the NWO Grant Rules 2024 may not apply for a scientific or post-doc position for themselves.</li> </ul>	
Relevant documents	<p>Relevant forms and documents to apply for funding in the Netherlands are available on the NWO website: <a href="http://www.nwo.nl/water4all">www.nwo.nl/water4all</a></p>	
Additional Info	<p>Impact of the research is at the heart of this Call for proposals of the European Water4All Partnership. Please refer to the detailed description of requirements and evaluation criteria, including impact, in the full call announcement of the Water4All Partnership.</p> <p>Stakeholder engagement is essential to maximize the chances of reaching impact and NWO considers engagement of stakeholders an important asset, starting with the design of your project, as well as the definition of active roles for each of them during the course of the project. Valorisation of stakeholder engagement in the project (as self financed industrial and/or societal partner) in the form of in kind or in cash contributions from stakeholders is therefore strongly recommended by NWO.</p>	
Useful Links	<p>The <a href="#">NWO Grant Rules 2024</a> and the <a href="#">Agreement on the Payment of Costs for Scientific Research</a> are applicable to all applications for NWO funding. Any arrangements made regarding the grant from NWO, for instance in a Consortium Agreement must comply with the NWO Grant Rules 2024 and the European legislation on state aid.</p>	

## National/Regional regulations & contact points

	<p>As stipulated in the NWO Grant Rules, Article 3.2, paragraph 2, the project cannot start until the conditions set out in the grant award decision regarding the start of the project are met. Please note, these conditions will include a signed Consortium agreement by all partners in the transnational project.</p> <p>Under the Dutch General Administrative Law Act, any interested party has the right to lodge an objection to the decision taken by NWO within six weeks of the date of the decision letter. Further information about the objections procedure can be found on the NWO website: <a href="https://www.nwo.nl/en/lodging-an-objection">https://www.nwo.nl/en/lodging-an-objection</a>.</p> <p>NWO will, if necessary, apply a one-off indexation of personnel costs when awarding the grant. The UNL/NFU/HOT rate at the time of the decision date applies and the date on which the rates take effect is used for this purpose.</p> <p>Submission of financial and scientific reports at national level is required in accordance with the rules of NWO. Granted consortia will be informed in due time.</p> <p>The budget for The Netherlands in this Call for proposals is brought together by NWO, the Ministry of Infrastructure and Water Management, and the Ministry of Agriculture, Fisheries, Food Security and Nature</p>

	<p>The state aid rules allow the Research Council to provide funding to partners that are registered in the Norwegian Register of Business Enterprises and have economic activity in Norway. How much can be awarded depends on the size of the enterprise and the type of research that is carried out. The following applies to this call:</p> <ul style="list-style-type: none"> <li>• Small and medium-sized enterprises (SMEs according to the EU definition) that are considered enterprises within the meaning of state aid law can receive support of up to 50 per cent of their costs in the project. The support may be used to cover costs authorised by Article 25 of the GBER. Please note that under this call, funding is only awarded that corresponds to the level of support for industrial research (IF), even if the company(s) are involved in basic research in the project.</li> <li>• Large companies are encouraged to participate as partners, but must cover all their costs in the project.</li> <li>• Public organisations can apply for up to 100 per cent support. If a public sector organisation is to be regarded as an undertaking for the purposes of state aid, the conditions set out in the call for proposals for support for SMEs and large enterprises apply.</li> </ul> <p>RCN covers the travel costs (3.600 Euros) of knowledge hub expert group members for attending 3 workshops. The travel costs should be included in the travel cost category of project's general budget as a requested cost. The travel cost should not be included in the "financial data" part in the knowledge hub expression of interest section in EPSS.</p> <p>Personnel costs for contributing to the knowledge hub activities as an expert group member shall be provided in-kind as equivalent of 1,5 PM total for three years. The personnel costs should be included in the personnel cost category of project's general budget as own cost. The personnel cost should not be included in the "financial data" part in the knowledge hub expression of interest section in EPSS.</p> <p>The budget applied for shall be stated in Euro. Conversion from Euro to Norwegian kroner is based on the official exchange rate per application date for preproposals – 13 November 2025. The official exchange rate can be found here: <a href="#">Exchange rate (InforEuro) European Commission (europa.eu)</a></p>
