Mouth of the San River km 279+500 Vistula River to Mouth of the Sanna River km 295+200 Vistula River	lb	open	6.05.2025	211	60	201	50
--	----	------	-----------	-----	----	-----	----

** the Pogędzynka water gauge is representative of the section of the navigable route from the Przewóz lock to the mouth of the Dunajec River, due to the lack of data from the Sierosławice water gauge on the day of sounding

Lock status

Name	Km	Status	Open time
Dwory	2+833 canal Dwory	closed	-
Smolice	1+020 canal Smolice	closed	-
Borek Szlachecki	15+550 canal Łączany Skawina	closed	From dawn to dusk
Kościuszko	66+400 Vistula river	closed	From dawn to dusk
Dąbie	80+875 Vistula river	closed	-
Przewóz	92+600 Vistula river	closed	From dawn to dusk

3. Notices to Skippers

The locks on the waterway of the Upper Vistula, at the Dwory, Smolice, ZOH Łączany (Borek Szlachecki lock), Kościuszko, Dąbie and Przewóz on January 07 2026, until further notice, they are out of service for vessels.

[Details in notice to skippers No. 1/2026](#)

On January 11, 2026 on the section of the Vistula River from km 76+700 to km 77+220 there will be an event on the water "Przeciagnij smoka przez Wisłę". The navigable route on the Vistula River will be closed on January 11, 2026 between 11:30 a.m. and 2 p.m. on the section of the Vistula River from km 76+700 to km 77+220

[Details in notice to skippers No. 26/2025](#)

Night navigation has been restored on the section from km 79+150 to km 80+870 (Dąbie Barrage) due to the completion of railway line modernization and the construction of a railway bridge over the Vistula River. Therefore, Navigation Notice No. 13/2022 is no longer valid. Night navigation is permitted only for vessels whose markings, lighting, and signaling comply with the Regulation of the Minister of Infrastructure of April 28, 2003, regarding navigation regulations on inland waterways.

[Details in notice to skippers No. 25/2025](#)

We hereby inform you that the failure at the Przewóz lock has been repaired. The lock is now open for navigation. However, due to current hydrological conditions and the inability to equalize the water level at the lower end of the barrage, the transit depth below the Przewóz barrage is not guaranteed. Locking is only possible under favorable hydrological conditions, i.e., when the water level at the lower sill of the lock is at least 189.60 m above sea level.

[Details in notice to skippers No. 24/2025](#)

In connection with the construction of the "Kazimierz-Ludwinów" pedestrian and bicycle footbridge at km 77+900 of the Upper Vistula waterway, from 6 May 2025 until further notice, participants in shipping traffic in the construction area should exercise particular caution and comply with the posted temporary navigation markings.

[Details in notice to skippers No. 7/2025](#)

Due to the disappearance of ice phenomena, from February 28, 2025, the lock Kościuszko will be open for navigation. Due to ongoing failures and renovation works, the locks at the Dwory, Smolice, ZOH Łączany (lock Borek Szlachecki), Dąbie and Przewóz water stages remain closed to navigation until further notice.

[Details in notice to skippers No. 4/2025](#)

Due to water level sensors failure, the lock at Dąbie barrage is closed to shipping traffic from July 2, 2024 until further notice.

[Details in notice to skippers No. 24/2024](#)

Due to repeated low conditions water levels and flows in the Vistula riverbed, in order to ensure appropriate water management on the Kościuszko Water Barrage and systematizing the operation of the Kościuszko lock in the conditions intensive tourist traffic, from July 1, 2024, the following locking hours will be introduced on all days of the week from dawn to dusk:

upstream: 7:00 9:30 11:15 14:00 16:00 18:30 20:30

down the river: 6:00 8:00 10:30 13:00 15:30 17:30 19:30

Due to the above, navigation messages No. 5/2022 and No. 16/2022 regarding the schedule operation of the Kościuszko lock expire.

State services during the intervention (including: Police, Army, WOPR) and PGW Water units when performing necessary work on the facility and the trail, Polish ones are not subject to the designated framework time of operation of the Kościuszko lock.

[Details in notice to skippers No. 23/2024](#)

From May 17, 2022 on the section of the Vistula River from km 223+600 - 223+700, due to the low flow in the river and periodic activation of the damming of the Połaniec Power Plant, located at km 223+650 of the Vistula River, there may be difficulties in navigation.

[Details in notice to skippers No. 8/2022](#)

The shipping route on the section from od km 0+600 to km 295+200 of the Vistula River, is open to navigation with the limitation of its parameters indicated in the annexes: [difficulties 1](#), [difficulties 2](#), [difficulties 3](#), [difficulties 4](#), [difficulties 5](#), [difficulties 6](#).

*Note: the class IV waterway under construction (damming at the Dwory and Smolice steps is 1.0 m lower than the target).
