### 3. Notices to Skippers

From 24 April 2026, the navigable route on the Upper Vistula waterway from km 175+400 (mouth of the Nida) to km 295+200 (mouth of the Sanna) is opened to vessels.

[Details in notice to skippers No. 11/2026](#)

In accordance with the content of navigation message no. 10/2026, in connection with the planned exercises of the State Fire Service on the Vistula River on the section from km 63+400 (above the monastery in Tyniec) to km 64+000 (below the monastery in Tyniec) on April 27-29, 2026, from 10:00 a.m. to 1:00 p.m. the navigable route will be closed to shipping traffic.

[Details in notice to skippers No. 10/2026](#)

Due to the renovation of the Grunwaldzki Bridge, from March 25, 2026 until further notice, participants in shipping traffic in the area of the Grunwaldzki Bridge at km 77+000 - 77+500 of the Upper Vistula Waterway should exercise particular caution and comply with the posted temporary navigation signs.

[Details in notice to skippers No. 9/2026](#)

Due to persistent low water levels and flows in the Vistula River bed, in order to ensure appropriate water management at the Dwory and Smolice Water Barrages, the lockage schedule will be in place from dawn to dusk on all days of the week from March 25, 2026, until further notice.

[Lockage times are provided in notice to skippers No. 8/2026](#)

Due to the disappearance of ice conditions, the navigable route on the Upper Vistula waterway from km 0+000 (the mouth of the Przemsza River) to km 175+400 (the mouth of the Nida River) will be open to vessels from 10 March 2026. The locks on the waterway, i.e. Dwory, Smolice, Borek Szlachecki, Kościuszko, Dąbie, and Przewóz, are open to navigation with the warnings included in the posted navigational notices. [Details in notice to skippers No. 6/2026](#)

The lock in Borek Szlachecki - locking will take place after prior notification (at least 48 hours in advance) to the lock staff of the intended locking.

The lock Przewóz is open to navigation. However, due to current hydrological conditions and the inability to equalize the water level at the lower level of the barrage, the transit depth below the Przewóz barrage is not guaranteed. Locking is only possible under favorable hydrological conditions, i.e., when the water level at the lower sill of the lock is at least 189.60 m above sea level.

On 6 June 2026, on the section of the Vistula River from km 75+450 to km 76+450, an open-air spectacle entitled "25 Wielka Parada Smoków" will take place. The navigable route on the Vistula River on the section from km 75+450 to km 76+450 will be closed on 6 June 2026 between 6:00 p.m. and 11:30 p.m.

[Details in notice to skippers No. 5/2026](#)

In connection with the construction of the "Kazimierz-Ludwinów" pedestrian and bicycle footbridge at km 77+900 of the Upper Vistula waterway, from 6 May 2025 until further notice, participants in shipping traffic in the construction area should exercise particular caution and comply with the posted temporary navigation markings.

[Details in notice to skippers No. 7/2025](#)

Due to repeated low conditions water levels and flows in the Vistula riverbed, in order to ensure appropriate water management on the Kościuszko Water Barrage and systematizing the operation of the Kościuszko lock in the conditions intensive tourist traffic, from July 1, 2024, the following locking hours will be introduced on all days of the week from dawn to dusk:

upstream: 7:00 9:30 11:15 14:00 16:00 18:30 20:30

down the river: 6:00 8:00 10:30 13:00 15:30 17:30 19:30

Due to the above, navigation messages No. 5/2022 and No. 16/2022 regarding the schedule operation of the Kościuszko lock expire.

State services during the intervention (including: Police, Army, WOPR) and PGW Water units when performing necessary work on the facility and the trail, Polish ones are not subject to the designated framework time of operation of the Kościuszko lock.

[Details in notice to skippers No. 23/2024](#)

From May 17, 2022 on the section of the Vistula River from km 223+600 - 223+700, due to the low flow in the river and periodic activation of the damming of the Połaniec Power Plant, located at km 223+650 of the Vistula River, there may be difficulties in navigation.

[Details in notice to skippers No. 8/2022](#)

The shipping route on the section from od km 0+600 to km 295+200 of the Vistula River, is open to navigation with the limitation of its parameters indicated in the *additional shipping information tab - difficulties*.

\*Note: the class IV waterway under construction (damming at the Dwory and Smolice steps is 1.0 m lower than the target).
