

FORM FOR EMPLOYERS

INSTITUTION Łukasiewicz Research Network – PORT Polish Center for Technology Development

CITY Wrocław

POSITION Specialist – Process Engineer in The Quantitative Virology Research Group

POSTED 09.12.2025

EXPIRES 22.12.2025

WEBSITE <https://port.lukasiewicz.gov.pl/kariera/oferty-pracy/>

Łukasiewicz Research Network – PORT Polish Center for Technology Development is a Research Institute within the Łukasiewicz Research Network. It focuses on development of new technologies, resulting from basic and applied research, which, in turn, serves as a basis for innovative solutions for the industry. With high-class specialists and state-of-the-art infrastructure, we provide capacity for the most advanced research. Our Institute consists of three research centers – Life Sciences & Biotechnology Center, Materials Science & Engineering Center and Center for Population Diagnostics, with access to specialized core laboratories – a combination, which allows to carry out both, scientific research and pilot studies for the industry in a comprehensive manner.

We invite candidates to apply for the position of **Specialist – Process Engineer in The Quantitative Virology Research Group**

The successful applicant will work in Quantitative Virology Research Group and join a collaborative, vibrant, and growing community of researchers in an environment that values creativity and scientific communications in Łukasiewicz–PORT. The candidate will work with different cutting-edge methodology and techniques, including barcoding viruses, flow cytometry, ChIP-seq, Net-seq, ATAC-seq and the Hi-C technique. The candidate will join scientific discussions with other members in the team and be engaged in projects. Together with the team leader, the candidate will participate in the maintenance/organization of the laboratory and help for training newcomers. Overall, the candidate will have a great opportunity to participate in research on training and and gain knowledge and skills for his/her career development.

This position is funded by the Polish National Science Center - 2022/46/E/NZ6/00022, auxiliary position.

Task description

- Perform experiments in the web lab and help other team members.
- Generate protocols for the team.
- Aid for lab management/purchasing.

Requirements:

- M.Sc in Biology/Molecular Biology or relevant fields.
- Experience in molecular biology techniques (PCR, RT-PCR, molecular cloning... etc).
- Experience in cell culture.
- Enthusiastic about learning (new knowledge and techniques).
- Task-oriented person and a team worker.
- Polish-native speaker and good communication skills in English (written and spoken).

Be considered as added value:

- Experience in generating high-throughput sequencing libraries.
- Experience in cell culture.
- Experience in handling virus-based vectors and/or viruses.

We offer:

- Full-time employment on the position of **Specialist – Process Engineer;**
- Work in a scientific and research organization focused on the implementation of innovative prestigious research and development projects;
- Co-financing for private medical care;
- Co-financing for a sports card;
- Possibility to join group life insurance;
- Co-financing under the Social Benefits Fund (for holidays and Christmas);
- Work on the territory of a green science campus;
- Free parking space.
