

AI-POLA²: GenAI Platform for Public Policy Analysis

Partner Search Pitch | DIGITAL-2026-
AI-09-GENAI-PA

Call Objectives & Our Alignment

- Scalability & Replication → AI-POLA starter kit (API, deployment guide)
- Demand Pooling → Policy analytics benchmarks for EU public administrations
- Ecosystem Integration → Integration with AI-on-Demand and EDIH network
- KPI Examples: Number of administrations onboarded, replication cases, training sessions

What We Offer

- Proven GenAI Solution for Policy Analysis: Functional platform, multilingual support
- TRL7 – Ready for pilot deployment
- Compliance: EU AI Act, GDPR, Ethical Framework
- Open-source documentation and APIs for public sector adoption

Partners We Need

- Public Administration: Ministries, city governments (policy, urban planning)
- Research Organizations: AI and public policy expertise
- SME Hubs: EDIHs, AI startups for integration and training
