Tender Details

Document type : Tender Notice

Bidding type : Not Specified

Project location : Philippines

Tender notice No : 61999

Description : Invitation to bid for Public access Wi-Fi services through VSAT Technology in the Philippines. Schedule of Requirements 1. Contractor will provide all necessary equipment and services to deliver a fully managed VSAT/Wi-Fi Internet Service for 2,000 sites. 2. Out of the 2,000 sites, internet service to a minimum of 775 sites should be provided through VSAT technology. These 775 sites are identified in Annex 1-- (549 in remote schools and other remote public places within the list of provinces in Annex 1). Internet service for remaining sites can be provided through any appropriate technology, including but not limited to VSAT, TV White Space, Point-to-Point IP Radio, etc. transiting through the primary VSAT links. The 775 VSAT sites are identified in Annex 1. The supplemental sites within the five- kilometer radius of the VSAT sites are to be identified/finalized by UNDP and DICT in consultation with contractor. 3. All equipment will be owned by the Contractor and as such any faulty, damaged and or stolen items should be immediately be replaced by the Contractor to ensure seamless service. 4. Approximately 30% of total sites will require solar power provision intended solely for the internet services equipment. 5. Brochures, manuals, data and other specification sheets for the requirements listed below should be submitted along with the bid proposal for evaluation against the technical requirements stated in these terms of reference. Pre-Bid conference Will be Conducted Date: 18 December 2019 Time: 1:30 pm to 3:00 pm

Deadline : 2020-01-10
