- MSc or MScEng in chemistry,
- research experience in radiochemistry, radiological protection, dosimetry, atomic law,
- Radiation Protection Expert qualifications or intention to acquire RPE qualifications,
- scientific achievements published in the reviewed journals and conferences proceedings specified in the registry of the Ministry of Education and Science,

- experience in working in accredited radiochemical laboratory (ISO 17025),
- practical knowledge in working with open and sealed radioactive sources,
- practical knowledge of research techniques and instrumentation used in radiochemistry, in particular:
 - liquid scintillation counting (LSC);
 - beta spectrometry;
 - radiochemical determination of the concentration of Sr-90 and Cs-137 in food and water samples,
- practical knowledge of environmental sampling techniques (proofs of trainings on sampling are welcome),
- participation and lectures during national and international conferences,
- readiness to participate in short-term domestic and foreign scientific visits,
- proficiency in Polish and English languages.

The candidates must conform to the conditions stated in the Research Institutes Law dated 30 April 2010 (L. g. 2010 no. 96 pos. 618 with amendments) :

- qualifications stated in Law,
- full ability of legal action,
- has not been convicted of an intentional offence by a final court judgement,
- enjoys full public rights.

The candidate should provide the following documents:

1. application for the position,
2. CV with contact information,
3. copy of MSc diploma (required at the time of employment),
4. list of research publications,
5. detailed information on candidate's scientific career,
6. document confirming the knowledge of English
7. non-Polish citizens shall present the document confirming the knowledge of Polish language on at least C1 level,
8. consent to process candidate's personal data for the purposes of recruitment process according to the Law,
9. declaration, that CLOR will be the principal place of employment.

Working conditions and remuneration:

1. Employment based on a full-time employment contract;
2. The primary form of performing the duties of this position is laboratory work at the Central Laboratory for Radiological Protection (CLOR);
3. Total remuneration at between 5500,- and 6000,- PLN gross per month
Remuneration includes: basic salary.
Seniority allowance will be included.
