

FORM FOR EMPLOYERS

INSTITUTION Łukasiewicz – PORT Polish Center for Technology Development

CITY Wrocław

POSITION **Junior/Senior Principal Investigator**

POSTED 22.05.2023

EXPIRES 14.07.2023

WEBSITE <https://port.lukasiewicz.gov.pl/kariera/oferty-pracy/head-of-bioinformatics-in-life-science-biotechnology-center-2/>

Łukasiewicz – PORT Polish Center for Technology Development is a member of the Łukasiewicz Research Network which focuses on creating innovative solutions for science and industry. With high-class specialists and state-of-art infrastructure, we provide a supportive environment and a capacity for the applied research. Modern biomedical science is driven by big data analysis and integration to seek for new biomarkers and therapeutic strategies in various diseases. This progress gains increasing recognition as manifested by exponential support for initiatives focused on Digital Health and Personalized Medicine. Life Science and Biotechnology Center of Łukasiewicz – PORT aims to synergize the expertise of existing teams with original computational methods in biomedical data integration and artificial intelligence to create new solutions for civilization diseases.

We invite outstanding candidates to apply for a

Junior/Senior Principal Investigator

position (Junior-level appointments are expected for postdoctoral researchers wishing to establish their first independent research group) in our Life Science & Biotechnology Center (<https://port.lukasiewicz.gov.pl/en/rd/life-sciences-biotechnology-center/>). The PI position is offered to scientists conducting internationally competitive and innovative research, who wish to establish a research group. The competition is open to scientists using computational approaches in biomedical research. Candidates should can demonstrate scientific excellence, leadership skills, and propose an ambitious research program focused on fundamental mechanisms of disease as applied to biomarker research, drug discovery or systems biology of cancer or brain disorders.

The ideal candidate will present a bold state-of-the-art research programme with potential for applications in molecular medicine and/or therapeutic biotechnology.

Mandatory Requirements:

- Ph.D. and post-doctoral training in the broad area of biomolecular sciences, including, but not limited to areas such as oncology, neuroscience or systems biology;
- Several years of international research experience, evidenced by high-level scientific achievements in leading research centers;
- Experience in project management and supervision of junior researchers, demonstrated leadership and collaborative skills;
- Interdisciplinary training, international experience;
- Experience in raising extramural funds (e.g., grant applications, funds from the industry);
- Excellent command of the English language and excellent communication skills.

Preferred:

- Experience in applied research and/or collaboration with the industry.

We offer:

- Full-time contract and a competitive salary at the level of remuneration for research group leaders in leading international centers;
- Commensurate with experience 36 days of paid holidays annually;
- One-time relocation bonus, help in the relocation, residence permits, etc;
- Start-up package – for setting up a research group;
- Annual research budget, guaranteed for a minimum first 3 years of research;
- Laboratory and office space for the PI and the team members;
- Administrative and organizational support;
- Access to the state-of-the-art equipment in the Core Facility;
- A friendly, inspiring, interdisciplinary and international environment;
- Co-financing for private medical care;
- Co-financing for a sports card;
- Possibility to join group life insurance;
- Co-financing under the Social Benefits Fund (for holidays and Christmas);
- Free parking space.
