SILATERAL DEVELOPMENT ASSISTANCE The following figures present assistance granted by Poland in 2020 under bilateral development cooperation, broken down by world regions/countries along with the title/description of the implemented activity/project, implementing entity and amounts spent as of February 10, 2022. The value of bilateral development cooperation was calculated using the current methodology (ODA grant equivalent) and the statistical directives of DAC OECD and FX rates adopted by OECD: 1 USD = 3,8994 PLN = 0,8775 EUR = 0,9390 CHF = 1,4535 AUD). Any slight differences in the aggregated amounts presented may result from currency conversions and rounding applied. Eastern Partnership

## MULTILATERAL DEVELOPMENT ASSISTANCE

The following figures present multilateral assistance granted by Poland in 2020, broken down by type of international organisation and institution/agency receiving the contribution, entity performing the payment and amount spent as of February 10, 2022. The value of multilateral development cooperation was calculated using the methodology and the statistical directives of DAC OECD according to which only contributions to general budgets of international organisations issued on the List of ODA-eligible organisations (updated annually by DAC OECD) were qualified. The remaining payments provided for a certain purpose or an individual country (earmarked contributions) were included under bilateral assistance provided through the multilateral channel. The following OECD FX rates were adopted for the purposes of calculations: 1 USD = 3,8994 PLN = 0,8775 EUR = 0,9390 CHF = 1,4535 AUD). Any slight differences in the aggregated amounts presented may result from currency conversions and rounding applied.

Multilateral development cooperation		2 355 965 787 PLN

## **MULTILATERAL DEVELOPMENT CO-OPERATION 2021**

The following figures present multilateral assistance granted by Poland in 2021, broken down by type of international organisation and institution/agency receiving the contribution, entity performing the payment and amount spent as of October 15, 2022. The value of multilateral development cooperation was calculated using the methodology and the statistical directives of DAC OECD according to which only contributions to general budgets of international organisations issued on the List of ODA-eligible organisations (updated annually by DAC OECD) were qualified. The remaining payments provided for a certain purpose or an individual country (earmarked contributions) were included under bilateral assistance provided through the multilateral channel. The following OECD FX rates were adopted for the purposes of calculations: 1 USD = 3,8609 PLN = 0,8456 EUR = 0,9140 CHF = 1,3315 AUD). Any slight differences in the aggregated amounts presented may result from currency conversions and rounding applied.

Multilateral development co-operation		2 653 593 623 PLN
