Project visits in Switzerland: Goal

Project visits in Switzerland: Goal

 **Technical monitoring:** Reporting requirements to NCBR (Annual reports); external audits; ...

Project visits in Switzerland: Goal

Project visits to Swiss Programme Component Partners

Get-together on the project site in the framework of a mutual exchange. They are not audits but an opportunity to meet and give feedback. Visits are conducted by 1-3 staff from the Innosuisse team.

Project visits in Switzerland: Goal

Project visits to Swiss Project Component Partners

Get-together on the project site in the framework of a mutual exchange. They are not audits but an opportunity to meet and give feedback. Visits are conducted by 1-3 staff from the Innosuisse team.

Their goal is to learn more about the cooperation experience, satisfaction with programme, identifying success stories, project/programme feedback.

Project visits in Switzerland: Goal

Project visits to Swiss Project Component Partners

Get-together on the project site in the framework of a mutual exchange. They are not audits but an opportunity to meet and give feedback. Visits are conducted by 1-3 staff from the Innosuisse team.

Their goal is to learn more about the cooperation experience, satisfaction with programme, identifying success stories, project/programme feedback.

The information gathered will be shared internally with NCBR and the funding agencies (NCU & SDC), will be used as insights on the programme implementation and opportune success stories.

Project visits in Switzerland: Expectations

At a project visit we expect to :

Project visits in Switzerland: Expectations

At a project visit we expect to :

Meeting the team or teams if there are multiple Swiss partners and a visit can be combined

Project visits in Switzerland: Expectations

At a project visit we expect to :

Meeting the team or teams if there are multiple Swiss partners and a visit can be combined

Receiving information about the status quo of the project: overall goal, cooperation with the consortium, important milestones, challenges and achievements. See developments of the project and infrastructure if any was purchased.
