List of third countries and overseas territories issuing in, or transmitting to, TRACES phytosanitary certificates for the entry into the EU of consignments of plants, plant products and other objects (“Phyto” & “IPPC ePhyto” modules)

This document lists third countries, overseas territories, and their corresponding certifying authority, that issue in, or transmit through the IPPC ePhyto Hub to, TRACES phytosanitary certificates.

Issuance of electronic certificates in TRACES or transmission of electronic phytosanitary certificates through the IPPC ePhyto Hub to TRACES waives the requirement of presenting paper certificates at EU borders.
