

REGIONAL DIRECTOR
FOR ENVIRONMENTAL PROTECTION
IN CRACOW

Sweco Engineering Sp. z o.o.
Received on: 05/26/2017
Case no.: 1532/4218/JM/15008

OO.4240.5.9.2017.BM

Cracow, 26 May 2017

RESOLUTION

Acting based upon Article 113 (2) of the Act of 14 June 1960 Administrative Proceeding Code (*OJ of 2016, item 23, as amended*)

I decide to

clarify the doubts related to contents of a decision of the Regional Director for Environmental Protection in Cracow dated 01/27/2017, ref. no.: OO.4233.4.2016.BM, on environmental conditions for the investment titled: **“Completion of redevelopment for flood embankments of the Vistula River in Cracow: Section 1 – left embankment of the Vistula River from the Wandy Bridge to the Przewóz Barrage, with backwater embankments of the Dłubnia River; Section 2 – left embankment of the Vistula River from the Przewóz Barrage to Suchy Jar”**, in case of covering the technological lane with a width of about 3 m, which is located at the foot of the riverside embankment slope, by the scope of the aforementioned environmental decision.

The Regional Director for Environmental Protection in Cracow states that the technological lane in question, having the width of about 3m and placed at the foot of the riverside embankment slope, is included within the scope of the aforementioned environmental decision dated 01/27/2017, ref. no.: OO.4233.4.2016.BM.

Justification

Mr. Jarosław Maciaś of SWECO Engineering Sp. z o.o., having its registered office in Cracow at 30. Wielicka Street, applied in the note dated 05/09/2017, ref. no.: HTK/AD/15008/1347/137/17 HTK/AD/15007/1347/91/17, for clarification of the contents of the decision of the Regional Director for Environmental Protection in Cracow dated 01/27/2017, ref. no.: OO.4233.4.2016.BM, on environmental conditions, in terms of covering in the decision of an engineering object, i.e. the technological lane located at the foot of the riverside embankment slope, which shall necessarily be maintained.

The technological lane in question shall be used for maintenance purposes in case of the embankments, and it is a natural dirt road with unreinforced surface and width of about 3 m. The subject technological lane is placed within the investment implementation boundaries and it has

been marked on graphical appendices attached to the application on the issuance of environmental decision, and it is a strip of land set out by the investment implementation boundaries and by the line of the bottom riverside slope edge for the embankments to be redeveloped. The technological lane shall be used temporarily to e.g.: mow the riverside slope, and – simultaneously – the acquired land strip shall protect the foot of embankment and a tight membrane developed in the ground against damaging by vehicles and by agricultural machinery. It does not require any construction works on site.

In accordance with Article 113 (2) of the Act of 14 June 1960 Administrative Proceeding Code (*OJ of 2016, item 23, as amended*), *“the unit, which issued the decision, shall clarify in a resolution, upon the request of an executive unit or the party, doubts related to contents of the decision”*.

The Regional Director for Environmental Protection in Cracow analyzed provisions under the decision in question and under the investment data sheet, including supplementation to the data information sheet and graphical appendices and their updates, which remained attachments to the application on the issuance of environmental decision, and also under the note of Mr. Jarosław Maciaś dated 05/09/2017, and accepted the Investor’s application.

The Regional Director for Environmental Protection in Cracow analyzed the provisions under the environmental decision for the investment in question and under the note of Mr. Jarosław Maciaś dated 05/09/2017, and accepted the Investor’s application, while clarifying the doubts on its contents in this resolution.

Taking into account the statement given above, it was decided as stated in the conclusion.

Instruction

The parties may claim against this resolution to the General Director for Environmental Protection (52/54. Wawelska Street, 00-922 Warsaw) through the Regional Director for Environmental Protection in Cracow (3. Na Stawach Square, 30-107 Cracow) within seven days from its serving date.

Regional Director
for Environmental Protection
Rafał Rostecki MSc
