DERMOPROGRAM

ANTIBACTERIAL LIQUID SOAPS

Frequent use of alcohol-based hand sanitizers causes severe skin dryness and if prolonged, destroys the epidermal protective barrier, **allowing easier skin penetration by microbial pathogens.**

Our soaps are **suitable for everyday use** and **cause neither dryness nor irritation of your hands.** Extremely gentle formulas with physiological, slightly acidic pH **support the skin's natural defence mechanisms.**

The exceptionally gentle formula effectively protects your hands from harmful bacteria without causing excessive dryness.

MOISTURISING ANTIBACTERIAL SOAP

JUICY WATERMELON AND ALOE VERA

Antibacterial soap with a refreshing, juicy watermelon scent for **perfect cleansing and conditioning of your skin.**

Natural aloe vera extract contained in the formula leaves your skin hydrated and soothed, restoring its natural comfort.

- ✓ OPTIMUM PH LEVEL
- ✓ GENTLE FORMULA
- ✓ NO EXCESSIVE DRYNESS
- ✓ ANTIBACTERIAL PROPERTIES

PRODUCT CODE: 10E08209
