

EUNOMIA.AI

A project for European Public Administrations

GenAI for the public administrations

Agencia Digital de Andalucía

EUNOMIA.AI – The Foundation for GenAI in European PAs

EUNOMIA.AI: Empowering Public Administrations with Sovereign GenAI.

- **Success Story:** Winner of the **DIGITAL-2025-AI-08** call (RIA).
- **Scale:** A robust consortium of 34 partners, including 30 Public Administrations (Local, Regional, National).
- **Core Mission:** Deploying trustworthy, "Made in Europe" Generative AI to enhance public services and strategic autonomy.

Led by Agencia Digital de
Andalucía

EUNOMIA.AI: A Pan-European Alliance for Public Sector GenAI.

Building the European GenAI Factory for Public Administrations

- **Sovereign Infrastructure:** A federated, high-performance computing architecture (University of Granada Node + Local Nodes) ensuring data stays in Europe.
- **Trustworthy AI:** specifically for administrative domains.
- **Compliance-by-Design:** Full alignment with the EU AI Act & GDPR from day one.
- **Methodology:** "Human-in-the-loop" approach to ensure accuracy and fairness in public decisions.

Four Domains to Transform Public Services

25 PAs involved in 15+ real-world integrated services.

Public Administration Efficiency:

- Automating routine tasks
- summarization and
- document drafting to reduce bureaucracy.

Law as Code & Compliance:

- AI tools to simplify legal procedures
- draft regulatory texts

Next-Gen Virtual Assistants:

- Moving beyond FAQ bots to transactional
- context-aware assistants for citizens

Multimodal Automation:

- Handling complex datasets (text, image, audio) for urban management and public infrastructure

Synergy: The Bridge between EUNOMIA and the CSA

Creating a Symbiotic Ecosystem.

EUNOMIA (The Engine): Provides the technical blueprints, validated pilots, and the initial community of 20+ PAs.

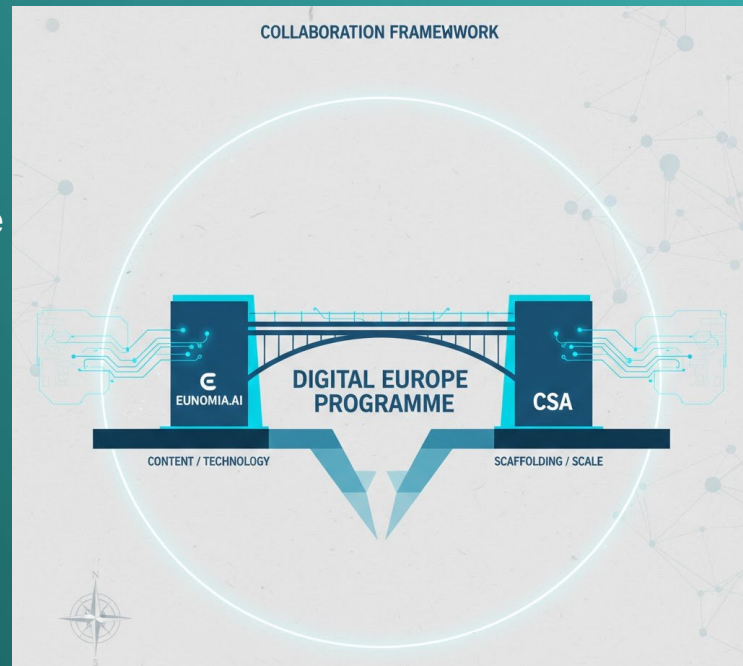

The CSA Opportunity: The CSA is the vehicle to take these assets and:

- Build "Starter Kits" for new PAs joining the ecosystem.

- Manage the Replicability Repository based on EUNOMIA's findings.

- Coordinate Procurement (PPI) to pool demand based on our technical benchmarks.

Collaboration Goal: To ensure that EUNOMIA's innovations become the standard for all EU Public Administrations.

Join the GenAI4EU Public Sector Ecosystem

Timeline: EUNOMIA pilots deploying in M18. Evaluation in M30.

Invitation: We are open to collaboration with the future CSA consortium to ensure seamless knowledge transfer.

Making European AI Sovereign, Efficient, and Human-Centric.
