

## **Pilne zawiadomienie dotyczące bezpieczeństwa**

### **Wycofanie respiratorów Newport™ HT70 i Newport™ HT70 Plus**

Maj 2025 r.

Nr katalogowy firmy Medtronic: **FA1479**

Indywidualny numer rejestracyjny (SRN) producenta: US-MF-000028763

Szanowni Państwo: dyrektorzy ds. opieki oddechowej, oddziały intensywnej terapii i działy zarządzania ryzykiem,

Celem niniejszego listu jest poinformowanie Państwa, że firma Medtronic zarządziła wycofanie respiratorów Newport™ HT70 i Newport™ HT70 Plus o określonych numerach seryjnych, a także niektórych powiązanych części serwisowych Newport™. W związku z tym wycofaniem firma Medtronic zaleca rezygnację z użytkowania klinicznego urządzeń, których dotyczy problem. W dokumentacji Medtronic widnieje informacja, że jeden lub więcej tych respiratorów lub części serwisowych było dostarczonych do Państwa placówki.

#### **Opis problemu:**

Nasze dochodzenie związane ze skargami klientów wykazało, że awaria dwóch odrębnych kondensatorów znajdujących się na płycie z obwodem drukowanym (PCBA) może doprowadzić do dwóch odrębnych skutków: albo respirator wyłączy się podczas użycia, co wiąże się z koniecznością zastosowania alternatywnej metody wentylacji, albo alarm informujący o wyłączeniu nie zadziała skutecznie podczas wyłączania. Nie wystąpiły przypadki awarii obydwu kondensatorów na tej samej płycie PCBA i nie oczekuje się, by miało to nastąpić, ponieważ przyczyny wystąpienia każdej z tych awarii są różne i nie pokrywają się.

#### **Zagrożenie dla zdrowia:**

W wyniku awarii, o której mowa w niniejszym wycofaniu, może dojść do poważnych obrażeń i/lub śmierci pacjenta. Ustanie pracy i wentylacji lub brak sygnału dźwiękowego informującego o wyłączeniu urządzenia w przypadku pacjenta poddawanego wentylacji mechanicznej może skutkować niewydolnością oddechową, niską saturacją, niedotlenieniem, opóźnieniem w leczeniu lub potencjalnie ciężkimi konsekwencjami takimi jak uszkodzenia mózgu i/lub śmierci pacjenta. Firma Medtronic otrzymała 63 skargi i zgłoszenia zdarzeń niepożądanych związane z tymi problemami, w tym dwa przypadki poważnych obrażeń i jeden przypadek śmiertelny.

## **Zarządzanie pacjentami:**

Lekarze, których pacjenci podlegają obecnie wentylacji z wykorzystaniem respiratorów Newport™ HT70 i HT70 Plus, których dotyczy problem, powinni ocenić ogólny poziom ryzyka i zdecydować o właściwym czasie wymiany urządzenia. Podczas wybierania alternatywnej metody wentylacji należy w dalszym ciągu stosować się do zasad i procedur placówki i przestrzegać Ogólnych ostrzeżeń zawartych w Podręczniku operatora, m. in.:

- Pacjent podłączony do respiratora wymaga ciągłego monitorowania stanu zdrowia przez przeszkolonych opiekunów.
- Należy zawsze mieć do dyspozycji alternatywne źródło zasilania i metodę wentylacji, gdy respirator jest w użyciu, na wypadek usterki mechanicznej lub systemowej.
- Należy zawsze korzystać z odpowiednich środków monitorujących, aby upewnić się, że dostarczana jest odpowiednia ilość tlenu, a wentylacja przebiega prawidłowo (takich jako pulsoksymetr i/lub kapnograf), gdy zastosowano respirator Newport™ HT70 u pacjenta.
- Jeśli w jakimkolwiek momencie pacjent nie będzie reagować właściwie na wentylację, należy natychmiast odłączyć go od respiratora i zastosować alternatywną metodę wentylacji. Natychmiast skontaktować się z lekarzem prowadzącym pacjenta.

Firma Medtronic zaleca także postępowanie zgodnie z procedurą konfiguracji pacjenta opisaną w Podręczniku operatora, aby sprawdzić przed użyciem, czy funkcja alarmu informującego o wyłączeniu działa prawidłowo. Należy jednak mieć na uwadze, że czynność ta niekoniecznie zapobiega przyszłym awariom.

## **Działania podejmowane przez firmę Medtronic:**

- Firma Medtronic zidentyfikowała numery seryjne respiratorów Newport™ HT70 i HT70 Plus, których dotyczy problem, Patrz załącznik A.
- Dodatkowo, firma zidentyfikowała części serwisowe PCBA, których dotyczy problem. Patrz załącznik B.
- Firma Medtronic nie naprawia usterek, które wystąpiły w przypadku tych respiratorów lub części serwisowych. Firma Medtronic nie serwisuje już respiratorów, których dotyczy problem i które zostały wskazane w niniejszym zawiadomieniu.

## **Działania, które należy podjąć:**

- Proszę zapoznać się z załącznikami A i B, aby sprawdzić, których respiratorów lub części serwisowych w Państwa posiadaniu może dotyczyć problem.
- Jeśli respirator lub część serwisowa są obecnie w użyciu klinicznym, należy wycofać urządzenie z użycia i zastąpić alternatywną metodą wentylacji.
- Po zmianie na alternatywne respiratory należy poddać wszystkie respiratory i części serwisowe, których dotyczy problem, wskazane w załącznikach A i B, należy poddać kwarantannie i zutylizować

zgodnie z procesami i procedurami placówki dotyczącymi wycofania i utylizacji uszkodzonych urządzeń.

- Należy wypełnić Formularz potwierdzający dla klienta i odesłać go do firmy Medtronic.
- W razie dodatkowych pytań lub wątpliwości prosimy o skontaktowanie się z lokalnym przedstawicielem firmy Medtronic.
- Niniejsze powiadomienie należy przekazać wszystkim członkom personelu organizacji, których może dotyczyć i wszystkim organizacjom, które korzystają ze wspomnianych respiratorów lub części serwisowych z uwagi na to, że zostały im przekazane.
- Należy dostarczyć załączony list do pacjenta każdemu pacjentowi, który może korzystać z tego respiratora w warunkach domowych, aby poinformować go o niniejszym wycofaniu.
- Jeśli wiedzą Państwo o jakichkolwiek zdarzeniu powiązanym z tymi urządzeniami, prosimy o skontaktowanie się z lokalnym przedstawicielem firmy Medtronic.

## Informacje dodatkowe

Firma Medtronic powiadomiła o tej akcji właściwy organ w Państwa kraju.

Przepraszamy za wszelkie niedogodności, jakie mógł spowodować ten problem. Zależy nam na bezpieczeństwie pacjentów i dziękujemy za niezwłoczne zwrócenie uwagi na tę kwestię. Jeśli mają Państwo jakiegokolwiek pytania dotyczące tego zawiadomienia, prosimy o kontakt z przedstawicielem firmy Medtronic tel. +48 22 465 6900.

Z poważaniem,

Roland Banaś  
OR & ICU Leader

## **PILNE ZAWIADOMIENIE DOTYCZĄCE BEZPIECZEŃSTWA** **Wycofanie respiratorów Newport™ HT70 i Newport™ HT70 Plus**

Maj 2025 r.

Nr katalogowy firmy Medtronic: **FA1479**

Indywidualny numer rejestracyjny (SRN) producenta: US-MF-000028763

Szanowni Państwo: pacjenci i/lub opiekunowie,

Celem niniejszego listu jest poinformowanie Państwa, że firma Medtronic wycofuje z użycia określone respiratory HT70 i HT70 Plus. Lekarz przekazał Państwu niniejszy list, ponieważ z dokumentacji placówki wynika, że są Państwo w posiadaniu jednego z tych respiratorów.

Prosimy o zapoznanie się z poniższymi informacjami. To ważne, by Państwo, jako pacjenci oraz opiekunowie, zrozumieli znaczenie niniejszego powiadomienia. Firma Medtronic nie naprawia usterek, które wystąpiły w przypadku respiratorów lub części serwisowych, których dotyczy problem.

### **Opis problemu**

Firma Medtronic zidentyfikowała potencjalne usterki, które mogą skutkować wyłączeniem się respiratora podczas użycia, co wiąże się z koniecznością zastosowania alternatywnej metody wentylacji, lub tym, że alarm informujący o wyłączeniu nie zadziała skutecznie podczas wyłączania. Otrzymaliśmy 63 skargi i zgłoszenia zdarzeń niepożądanych związane z tymi problemami, w tym dwa przypadki poważnych obrażeń i jeden przypadek śmiertelny.

### **Zagrożenia dla zdrowia pacjenta**

Jeśli respirator nie zadziała i nie będzie dostarczać niezbędnej wentylacji, pacjent może nie być w stanie oddychać samodzielnie, czego skutkiem będzie niski poziom tlenu, wysoki poziom dwutlenku węgla i potencjalnie poważne konsekwencje, takie jak uszkodzenia mózgu lub śmierć.

### **Działania, które należy podjąć:**

W czasie, gdy wraz z placówką medyczną będą Państwo wybierać alternatywną metodę wentylacji, należy w dalszym ciągu przestrzegać Ogólnych ostrzeżeń zawartych w Podręczniku operatora, m. in.:

- Należy upewnić się, że pacjent jest właściwie monitorowany (np. z wykorzystaniem pulsoksymetru, czujnika CO<sub>2</sub>) i czujnie monitorować alarmy.

# Medtronic

- Należy zawsze mieć do dyspozycji alternatywne źródło zasilania i metodę wentylacji, gdy respirator jest w użyciu, na wypadek usterki mechanicznej lub systemowej.
- Jeśli w jakimkolwiek momencie pacjent nie będzie reagować właściwie na wentylację, należy natychmiast odłączyć go od respiratora i zastosować alternatywną metodę wentylacji. Natychmiast skontaktować się z placówką medyczną lub lekarzem prowadzącym.

Po zmianie na alternatywny respirator należy przesłać respirator, którego dotyczy problem do placówki medycznej.

Przepraszamy za wszelkie niedogodności, jakie mógł spowodować ten problem. Zależy nam na bezpieczeństwie pacjentów i dziękujemy za niezwłoczne zwrócenie uwagi na tę kwestię. Jeśli mają Państwo jakiekolwiek pytania dotyczące tego zawiadomienia, prosimy o kontakt z placówką medyczną.

Z poważaniem,

Roland Banaś  
OR & ICU Leader

## FORMULARZ POTWIERDZENIA KLIENTA

Niniejszy formularz należy odesłać do Medtronic e-mailem lub faksem (nawet jeśli nie posiada Pan/Pani wadliwych produktów):  
 rs.regulatorypoland@medtronic.com lub Fax nr: 22 465 69 52 do dnia 05.10.2025r.
