

K.RPC.5032.24.2025.EW

NOTICE TO SKIPPERS No 24/2025

Pursuant to Art. 14 sec. 1(4) of the Act of July 20, 2017 - Water Law (consolidated text Dz.U. /Journal of Laws/ of 2025, item 960 as amended) and Art. 43 sec. 6 of the Act of December 21, 2000 on inland navigation (consolidated text Dz.U./Journal of Laws/ of 2025, item 18) National Water Management Holding "Wody Polskie" Regional Water Management Board in Cracow, informs **that the Przewóz lock failure has been repaired. The lock is open to navigation. However, due to current hydrological conditions and the inability to equalize the water level at the lower level of the barrage, the transit depth below the Przewóz barrage is not assured. Locking is only possible under favorable hydrological conditions, i.e., when the water level at the lower sill of the lock is at least 189.60 m above sea level.**

For more detailed information about navigational conditions, please contact River Basin Board in Kraków (tel. 126290600), available Monday to Friday, between 8 a.m. and 4 p.m. or the Operational Centre for Flood Protection in Cracow (tel. 12 6284330) or follow the announcements on <https://www.gov.pl/web/wody-polskie-krakow> in the "Navigation updates" tab.
