

DN-WAN.560.27.2025 (ex. DN-WAN.76.22.2024)

**RESOLUTION No. 34/2025
OF THE SCIENCE EVALUATION COMMITTEE
of 29 October 2025**

on the evaluation of the quality of education at a doctoral school

Pursuant to Art. 259(1) and Art. 262(2) of the Act of 20 July 2018 – Law on Higher Education and Science (Journal Laws of 2024, item 1571, as amended), hereinafter referred to as the “Act”, having reviewed the results of the evaluation referred to in Art. 262(1) of the Act, which was carried out by the Evaluation Team, the Science Evaluation Committee

positively evaluates the quality of education

at the International Doctoral School of the Medical University of Lodz

run by

the Medical University of Lodz.

This evaluation applies to the period from 1 October 2019 to 18 December 2024.

Justification:

The Medical University of Lodz submitted a self-evaluation report on time for its International Doctoral School. The Evaluation Team, appointed by the Chair of the Science Evaluation Committee, reviewed the report and then conducted an on-site visit.

In the opinion of the Evaluation Team, the quality of education at the International Doctoral School of the Medical University of Lodz met all evaluation criteria to a good standard or higher during the period under evaluation. The educational programme with interdisciplinary elements met the criteria provided for level 8 of the Polish Qualification Framework and supported the preparation of the doctoral thesis. The training process was conducted by qualified academic staff, and the University provided doctoral students with extensive access to research and scientific infrastructure. The Evaluation Team concluded that the recruitment and mid-term evaluation were conducted transparently and fairly. In the opinion of the Evaluation Team, the Doctoral Students’ Government works closely with the authorities of the Doctoral School, and the commitment of the current Head of the Doctoral School and the administrative staff to the functioning of the School and its further development warrants full recognition.

In view of the above, the Science Evaluation Committee decided to give a positive assessment of the quality of education at the International Doctoral School of the Medical University of Lodz during the period under evaluation.

Note:

An entity dissatisfied with the evaluation may, pursuant to Art. 262(4) of the Act, raise objections to this evaluation within 30 days from the date of delivery of this resolution.

Chair of the Science Evaluation Committee

prof. dr hab. n. med. i n. o zdr. Filip M. Szymański
