Ekonomia i finanse	Economics and Finance
Management	Management
Economics and Finance	Economics and Finance

Characteristics of the Doctoral School

The Doctoral School at the University of Economics in Katowice has been training doctoral students since the academic year 2019/2020. From the outset, education is provided in both scientific disciplines, i.e., Economics and Finance, and Management and Quality Sciences, in which the University of Economics in Katowice has a B+ scientific category. Our University is the only university in the Silesian voivodeship that offers doctoral education in the scientific discipline of "Economics and Finance," and one of four public universities offering doctoral education in the discipline of "Management and Quality Sciences." The vision for the development of our University includes key values derived from the expectations of groups participating in the Strategy's creation, including doctoral students. Among the postulated values of our University was, in particular, the creation of a good working and studying environment, attracting active students, providing conditions for cooperation between staff, students, and doctoral students; as well as providing effective organizational support in teaching, scientific research, and expertise, including career development in conjunction with incentive systems. The education of doctoral students at the Doctoral School is consistent with the vision of our University as a center of student, scientific, and business life, whose integrated academic community, open to cooperation with the surrounding environment, creates and disseminates economic and managerial knowledge to strengthen the scientific, teaching, and expert position of our University in the region, the country, and abroad. The Doctoral School also plays a vital role in realizing our University's mission to conduct scientific research responsibly and professionally and to educate highly qualified personnel in the disciplines of Economics, Management, Finance, Logistics, Administration, and Information and Communication Technology. As part of our University, the Doctoral School forms an academic community that identifies with the dynamically developing region and environment, offers lifelong learning, and supports entrepreneurship, business, and the public sector. Our University is open to international and expert cooperation and creates a community based on shared values and trust, enabling equal opportunities and counteracting all forms of exclusion. The essential strategic development projects of our University in the area of doctoral education include: 1) support for international mobility of our University's doctoral students (ERASMUS+, CEEPUS), including: greater flexibility in recognizing courses studied abroad and better language preparation for outgoing students; 2) improvement of language communication between University administration, doctoral students, and international teachers – solutions to make it easier for foreigners to move around our University and to communicate efficiently with the staff; 3) career path for independent researchers at our University, including the creation of research teams and supervision of doctoral students; 4) the academic career path of doctoral students at our University, including the definition of organizational and financial conditions, the desired professional profile, minimum publication requirements, citation rates, and the training and promotion system; 5) integration of our University staff, including joint events integrating the academic community (scientists, experts, teachers, administration, students, doctoral students, alumni, representatives of the environment); 6) implementation of projects concerning the quality of life, health and safety of the academic community, creating opportunities for the development and improvement of the quality of life of our University's doctoral students. The Doctoral School and the Doctoral Student Government cooperate to advance our University's mission and strategic projects.

INFORMATION ON THE ENTITY'S COOPERATION WITH THE DOCTORAL STUDENTS' COUNCIL

Cooperation between the Doctoral School and the Doctoral Student Government is based on regulations specified in the Law on Higher Education, the Statute of the University of Economics in Katowice, as well as the Rules and Regulations of the Doctoral School and the Rules and Regulations of the DSG. The cooperation between is performed by the Dean and the Doctoral Student Government Council. Our University guarantees the rights of the Doctoral Student Government to participate in decision-making of a fundamental nature for doctoral education at the Doctoral School, i.e., to give its opinion on the drafts of the Rules and Regulations of the Doctoral School, the rules of admission, curricula, as well as any amendments to these rules and regulations. These guarantees exceed the powers legally granted to the Doctoral Student Government. In fact, representatives of the Doctoral Student Government also serve on teams appointed by the Doctoral School Council to draft new regulations and recommend amendments to existing ones. Representatives of the Doctoral Student Government also participate in the work of committees at our University, in particular the Senate Committee for Science, which provides opinions on draft resolutions of our University Senate regarding the functioning of the Doctoral School. Representatives of the Doctoral Student Government also participate in the work of the University Committee for Teaching Quality, whose tasks include, in particular, evaluating and initiating amendments to teaching processes. Representatives of the Doctoral Student Government take an active part in committees considering applications for scholarships. The above-mentioned forms of cooperation ensure that the Doctoral Student Government has an impact on the legal and organizational solutions that are key to the education of doctoral students, as well as constitute a guarantee of their active participation in current issues related to the functioning of the Doctoral School.

INFORMATION ON THE DOCTORAL SCHOOL GROUPED BY 8 EVALUATION CRITERIA

1. Adequacy of the education program and individual research plans to the learning outcomes for qualifications at PRK level 8 and their implementation

Currently, doctoral education at the Doctoral School is based on six curricula, offered within two scientific disciplines: 1) Economics and Finance and 2) Management and Quality Sciences, and in two languages: 1) Polish and 2) English. In the case of programs implemented in Polish, education in both disciplines is currently based on two programs. The first programs were in operation for recruitment during the first five years, i.e., from the academic year 2019/20 to 2023/24. Starting with recruitment in the academic year 2024/25, new curricula are in effect. In the case of English-language education, training has been in place since recruitment in the academic year 2022/23. The introduction of programs in English and new programs in Polish was based on the experience of the first years of education and involved separating three phases of education within them. The first phase of training, carried out in the first and second semesters, includes courses that equip a doctoral student with academic skills, such as reading and writing scientific papers and selecting appropriate quantitative and qualitative methods for their research. During this period, classes are held jointly for doctoral students in both scientific disciplines in which training is provided at the Doctoral School. The second phase of training is carried out in the third and fourth semesters and includes courses related to the scientific discipline chosen by the doctoral student; hence, classes in this period are held separately for doctoral students preparing their dissertations in the disciplines of Economics and Finance, and Management and Quality Sciences. The third phase of training, implemented in semesters five and six, includes free choice electives in English, allowing doctoral students from both disciplines pursuing programs in both languages to enroll in courses jointly. The last two semesters of training include only a doctoral seminar, which allows doctoral students to focus on preparing their dissertations under the guidance of a supervisor. The indicated curricular arrangement enables the achievement of learning outcomes at level eight of the Polish Qualifications Framework (PQF) prior to the mid-term evaluation. The compatibility of the learning outcomes with the curriculum is confirmed by an appropriate matrix.

Individual research plans (IRP) are prepared by a doctoral student in consultation with their supervisor and, if appointed, an assistant supervisor. These activities ensure merit-based review of the prepared individual research plan. An individual research plan is verified from the formal side by the Dean of the Doctoral School, and if deficiencies are found, it is returned for improvement. There are no other requirements for the opinion or approval of the prepared IRP other than those indicated above. Thus, in this regard, a solution based on intensive cooperation between a doctoral student and their supervisor during the doctoral seminar has been adopted. In the first two semesters, this cooperation should focus on developing the IRP. In the following years, the dissertation is to be submitted on time according to the established schedule for completing subsequent tasks. A required stage in the preparation of a doctoral dissertation is the obligation to present and discuss the dissertation's objectives at a meeting of the department where the supervisor is employed. This discussion should take place before the mid-term evaluation. In practice, this means that department meetings, where discussions take place, are held in the fourth semester of education, allowing comments on the IRP content to be formulated. The required scope of information contained in the IRP goes beyond the statutory minimum. In addition to specifying the date of submission of the doctoral dissertation and presenting a schedule for its preparation, the IRP should also include: the aim of the work; hypotheses or research questions; research methods; and the structure of the work.

Strength: Ensures proper coordination between the implementation of individual research plans and the sequence of courses within the curriculum. Developing cross-cutting skills. **Challenges:** Need for greater flexibility in the program; greater integration of methodological elements between disciplines.

2. Method of verifying learning outcomes for qualifications at PRK level 8

The review of learning outcomes is based on the two pillars of doctoral education specified in the Law on Higher Education and Science, i.e., the curriculum and the individual research plan. Consequently, the doctoral student's credit in successive semesters for the courses included in the curricula and successive work with the supervisor on implementing the IPB schedule within the doctoral seminar allow the gradual achievement of the legally required learning outcomes for qualifications at level 8 of the Polish Qualifications Framework.

The basis for ensuring the achievement of learning outcomes at level 8 of the Polish Qualifications Framework is the coverage matrix, which links individual learning outcomes to each implemented curriculum. The basis for preparing the coverage matrix is Senate resolutions specifying curricula, which, in particular, define the correlation between the learning outcomes established for individual programs and those specified in the regulation on the characteristics of the second level of learning outcomes for qualifications at levels 6-8 of the Polish Qualifications Framework. The coverage matrix indicates the courses in the curriculum related to the achievement of specific learning outcomes. It is assumed that, by completing all compulsory courses, including the seminar, a doctoral student achieves all learning outcomes at level 8 of the Polish Qualifications Framework. A description card (syllabus) is prepared for each course in the curriculum, specifying the subject-specific learning outcomes in relation to the curriculum's learning outcomes. The course description card also includes the review method established for each learning outcome. For each course in the curriculum, the instructor first defines the learning outcome specified in the curriculum by describing the learning outcome achieved in the course, and then determines the methods for reviewing it. It should also be noted that a significant part of the learning outcomes is achieved through a doctoral seminar, i.e., in connection with the implementation of individual research plans by doctoral students. The indicated solutions provide an appropriate way to review the learning outcomes and allow individualization of the learning process at the Doctoral School. The following methods of verification of learning outcomes are used: examinations and course completion assessments in the forms of: test, open-ended questions, essay; colloquia and examinations in oral form; coursework in the forms of: group projects, individual and group papers; case studies solved individually and in groups; individual and group presentations. The Rules and Regulations of the Doctoral School provide for the possibility of reviewing the learning outcomes of courses in the curriculum upon request by a doctoral student through a board examination, which may be attended by a representative of the Doctoral Student Government.

To achieve learning outcomes, in addition to receiving credit for subsequent courses in the curriculum, much emphasis is placed on the learning outcomes that doctoral students gradually achieve in subsequent semesters of the doctoral seminar. This allows for a high degree of individualization of education at the Doctoral School. It is expected that, after the first semester of the seminar, doctoral students should be able to creatively identify a research area and be familiar with the canon of global achievements in that field. The review consists of the supervisor's approval of the literature review and description of the research area. After completing the second semester, which is reviewed by the supervisor's approval of the individual research plan, a doctoral student should be familiar with the methodology of conducting scientific research in the discipline, correctly define the purpose and subject of the research (research problem), formulate hypotheses or research questions, and use research methods. A doctoral student can also plan an individual research project, which is the dissertation being prepared. After the second year of training, it is intended to achieve learning outcomes in the principles of dissemination of scientific results, which is reviewed by preparing a draft of a scientific paper or a chapter in a scientific monograph. A doctoral student should also take at least passive participation in a scientific conference, and in connection with the requirement to present the dissertation concept at the department's meeting, should have the ability to utilize knowledge from various scientific disciplines to creatively apply research techniques and tools. The third year of the seminar allows for reviewing the learning outcomes of disseminating the results of scientific work through the supervisor's guidance on publishing a scientific paper or chapter in a scientific monograph. The final, fourth year of the seminar focuses on implementing learning outcomes related to knowledge of development trends in the scientific discipline, conditions for conducting scientific research, and innovative solutions to complex research problems. It is verified through the preparation of subsequent parts of the dissertation. One solution to support the supervisor's ongoing review of the learning outcomes achieved during the doctoral seminar is the obligation to prepare semester reports on the progress of scientific work. This report is approved by a supervisor and an assistant supervisor, if appointed. The Rules and Regulations of the Doctoral School stipulate that, at the request of the supervisor, if insufficient progress in scientific work is found, the Dean may remove a doctoral student from the doctoral student register. During the period under review, such a decision was made regarding one doctoral student. The solutions presented and applied at the Doctoral School allow for the review, at least once per semester, of the doctoral student's achievement of the learning outcomes necessary to obtain a doctoral degree.

Strengths: The curricula ensure the sequential and consistent implementation of the IPB, thus enabling doctoral students, in cooperation with their supervisors, to gradually achieve all the learning outcomes required by law for the eighth level of the Polish Qualifications Framework and to prepare their doctoral dissertations, enabling them to complete their education on time. **Challenges:** The need for continuous standardization of assessment methods within disciplines; the need to expand the range of activating methods.

3. Qualifications of academic teachers or research staff conducting education at the doctoral school

The University of Economics in Katowice is one of the five public economic universities operating in Poland, conducting scientific research in five faculties, employing 31 professors and 107 researchers with the degree of "*doktor habilitowany*," working in 46 departments. The scientific potential of our University's academic staff provides doctoral students with the opportunity to train, conduct research, and prepare a doctoral dissertation in a wide range of topics within the scientific disciplines of "Economics and Finance" and "Management and Quality Sciences." The selection of academic staff who provide training at the Doctoral School is made as early as the stage of curriculum development. For both curricula offered in English and Polish, teams were appointed to develop them. In consultation with the faculty Deans, these teams prepared proposals for departments whose staff teach at the Doctoral School. During curriculum preparation, employees in these departments drafted detailed syllabuses. In subsequent stages, the drafts prepared by the teams were subject to the opinion of the Doctoral School Council, the Doctoral Student Council and the Senate Committee for Education, and were finally adopted by resolution of the Senate. Such a solution ensures that curricula are carried out by appropriately qualified research and teaching staff. The Doctoral School's commitment to maintaining and continuously monitoring the quality of education is reflected in the opinion survey on the classes conducted at the Doctoral School, carried out by the Teaching Quality Assurance, which, at the end of each semester, organizes and conducts surveys addressed to doctoral students concerning their assessment of classes in all courses taught as part of all curricula. The evaluations concern: 1) the instructor; 2) the course content; 3) the study conditions. When evaluating the instructor, particular consideration is given to: 1) knowledge of the subject matter discussed (knowledge and connection with scientific research); 2) teaching skills (communicativeness, clarity, selection of examples and their variety, and effective use of time); 3) motivation of doctoral students to ask questions and conduct discussions, to deepen their knowledge; 4) compatibility of the conducted classes and the course content; 5) personal culture; 6) accessibility; 7) compliance of the credit with the presented requirements and criteria. When evaluating the course content, the following are taken into account: 1) compatibility of the course content with the subject of the course; 2) reference to world scientific achievements; 3) enhancement of theoretical knowledge; 4) suitability of the course content for the preparation and implementation of scientific research; 5) suitability of the course content for the preparation of the dissertation; and 6) suitability of the course content for the preparation of scientific papers/chapters in a scientific monograph. In assessing the conditions of study, evaluations are taken into account regarding: 1) the classroom comfort; 2) the quality of communication, 3) the availability of software, 4) the availability and quality of computers, and 5) the availability of literature recommended by the instructor.

Strengths: Doctoral School teachers with experience, prepared to conduct interesting classes for doctoral students.

Challenges: The need to continue supporting supervisors in terms of methodology and workshops; the need to monitor supervisors' workload.

4. Quality of the recruitment process

During the period covered by the self-assessment report, seven consecutive recruitments were conducted. The quality of the admissions process is subject to ongoing evaluation based on the admissions committee members' opinions in subsequent academic years. During this period, three essential amendments to the admissions regulations can be noted. The quality of education is ensured through appropriately selected criteria and assigned weights, and, from a formal point of view, through the organization of the competition procedure. Throughout the entire assessment period, the following four key recruitment criteria were taken into account: 1) compatibility of education with the scientific disciplines in which the training at the Doctoral School is conducted; 2) scientific achievements; 3) outline of the research project; 4) interview. In addition, in the first three years from 2019/20 to 2021/22, final grade and foreign language proficiency were considered. Starting with recruitment for the academic year 2022/23, a letter of recommendation has also been considered. In the merit-based area, the following amendments were made to improve admissions quality. Beginning with the 2020/21 recruitment, the criterion for evaluating academic achievement was clarified by identifying four types of activity and assigning specific weights to them. Starting with the 2020/21 recruitment process, the criteria for evaluating academic achievements have been clarified by identifying four types of activities and assigning specific weights to them. To improve admissions quality, it was also decided to make significant amendments to the weights of individual evaluation criteria twice. These amendments were aimed at increasing the importance of evaluating candidates' predisposition to scientific work (increasing the weight of the interview and introducing a letter of recommendation) and reducing the importance of criteria of a retrospective nature (education, scientific achievements) in favor of criteria of a prospective nature (research project outline, interview). Currently, prospective criteria account for 80% of the maximum number of points, compared to 35% and 50% in the first two years and the third year of recruitment to the Doctoral School, respectively. On the procedural side, the admissions rules have changed twice. Firstly, due to the launch of recruitment for English-language curricula in the academic year 2022/23, part of the admissions process has been conducted in English. Secondly, starting from the academic year 2025/26, the procedure shall consist of two stages: in the first stage, candidates' applications are evaluated in terms of the compatibility of education with the scientific disciplines in which the training at the Doctoral School is conducted; scientific achievements; a research project outline; and a letter of recommendation. In the second stage, an interview is conducted with candidates who scored at least 50% in the first stage. At the same time, the number of candidates admitted to the second stage is one and a half times the limit of places in the Doctoral School.

The members of the admissions committee appointed each academic year by the Rector are: 1) University employees with a degree of "*doktor habilitowany*" or the title of professor or an equivalent degree or title representing the scientific disciplines within which the Doctoral School's curricula are implemented; 2) a representative of doctoral students appointed by the Doctoral Student Council; 3) a representative of Admissions. However, when evaluating the research proposal and the interview, the candidates are assessed without the participation of the representative of doctoral students and Admissions. In practice, the committee has so far consisted of four University employees, two from each of the two disciplines in which training is conducted at the Doctoral School.

Since the beginning of the Doctoral School, seven recruitments have been conducted. During this period, the total number of applicants to the Doctoral School was 288, which, considering the 148 places offered during this period, gives approximately two (1.94) applicants per place. To maintain the desired recruitment quality, it was established that admission to the Doctoral School required obtaining at least 50% of the maximum number of points. As of the enrollments to date, 130 doctoral students have been admitted, which corresponds to 87% of the available places, confirming the attention paid primarily to the admissions quality rather than the number of doctoral students entering the training. It should also be noted that the ratio of accepted doctoral students to candidates varies by specific curricula. For programs in Polish, the ratios are 51.7% for the discipline of Economics and Finance, and 48.0% for the discipline of Management and Quality Sciences. For programs in English, these relations are much lower, at 37.1% for the discipline of Economics and Finance and 21.2% for the discipline of Management and Quality Sciences, respectively. Confirmation of the improvement in admissions quality to the Doctoral School is the number of points required for admission, which, in recent years, has significantly exceeded the required 50% of the maximum number of points. For programs in Polish, it was in 2024. 74% for the discipline of "Economics and Finance" and 75% for the discipline of "Management and Quality Sciences"; for programs in English, it is at a lower level, 58% for the discipline of "Economics and Finance" and 57% for the discipline of "Management and Quality Sciences," respectively.

Strengths: Greater emphasis placed on assessing the candidate's ability to commence scientific work during the admissions process. **Challenges:** Maintaining interest from international candidates; better support for candidates in preparing research outlines.

5. Quality of scientific or artistic supervision and support for conducting scientific activities

The Doctoral School offers doctoral students the opportunity to conduct research for their dissertation under the guidance of 74 supervisors in the discipline of Economics and Finance (including 18 in English), and 54 supervisors in the discipline of Management and Quality Sciences (including 12 in English).

The Dean, based on a declaration of choice of supervisor submitted by a doctoral student, confirmed by the candidate for supervisor, and approved by the head of the supervisor's department, appoints the supervisor within two months of the doctoral student commencing their studies, but no later than November 30. If no declaration is submitted, a supervisor is appointed ex officio by the Dean. At the supervisor's request, the Dean appoints an assistant supervisor. The supervisor may be a university teacher with a degree of "*doktor habilitowany*" or the title of professor, and the assistant supervisor may be a person with a doctoral degree. A person employed by a foreign university or scientific institution may also serve as a supervisor if the scientific committee, the University body responsible for doctoral degree award procedures in a given discipline, considers that this person has significant achievements in the field concerned by the doctoral dissertation. In cases justified by the course of the doctoral dissertation, a doctoral student may submit a declaration of choice of two supervisors, one of whom must be an employee of our University. Both candidates for supervisor must confirm it, and the heads of the departments of both supervisors must accept it. In the case of a second supervisor who is not an employee of our University, the application shall be approved by the department head of the supervisor who is an employee of our University.

Quality assurance of scientific guidance is primarily the responsibility of the supervisor, whose tasks, according to the Rules and Regulations of the Doctoral School, include the following in particular: 1) providing scientific guidance for the preparation of a doctoral dissertation, 2) providing the doctoral student with the necessary merit-based and methodological assistance in scientific work, 3) assisting in the development of an individual research plan, 4) providing methodological guidance and assistance in gaining teaching experience, 5) assisting in the organization of a research workshop, 6) providing a written assessment of the doctoral student's scientific progress, and the preparation and implementation of the individual research plan in particular, 7) assessing the doctoral student's scientific development and the state of progress of the doctoral dissertation, 8) giving an opinion on applications for extending the deadline for submission of the doctoral dissertation, 9) notifying the Dean of the lack of progress in scientific work and requesting removal from the doctoral student register. The tasks of the assistant supervisor include the following in particular: 1) providing scientific guidance of the preparation of the doctoral dissertation in consultation with the supervisor, 2) performing an auxiliary function in the care of the doctoral student, especially including in the process of planning the research, its implementation and analysis of the results.

In current practice, a meeting is held each year between the Dean and newly appointed supervisors, during which issues related to the rules of cooperation among a supervisor, their department head, and a doctoral student are explained. The meeting also addresses issues concerning support from the Doctoral School Office for both the supervisor and the doctoral student during their training at the Doctoral School.

Our University provides doctoral students with access to library resources, including scientific publication databases such as EBSCO, Proquest, Springer, Cambridge University Press Journals, Oxford University Press Journals (Economics and Finance Collection), and Wiley Online Library. Our University also provides doctoral students with access to databases for conducting research, including the LSEG Workspace database (formerly Refinitive), the Notoria database, and the OECD databases. LSEG Workspace is one of the world's leading providers of financial markets infrastructure and provides financial data, analysis, news and index products. It is a key provider of financial information in Poland, having been in business since 1993. The company also provides access to a complete database of financial and corporate entities from the National Court Register and sources ESG (Environmental, Social, Governance) information according to the latest regulatory requirements, along with ratings and performance evaluation of ESG activities.

Doctoral students can apply for funding from the budget to maintain our University's research potential for their research through the annual "Young Scientists" competition. In the period 2019-2025, such funding has been provided to 23 projects, implemented by 18 doctoral students, for a total of PLN 217,210.00. In addition, doctoral students serve as members of research teams on scientific projects financed from funds allocated to maintain research potential. During the years covered by the evaluation, 42 doctoral students performed such research tasks.

Strengths: Scientific supervision is provided by the supervisor and, while complying with the legally required deadlines, is based on individualized cooperation with the doctoral student, tailored to the specific nature of the subject matter and scientific research, and based on mutual trust. **Challenges:** Strengthening support for English-speaking doctoral students; increasing the availability of research funding.

6. Integrity of the mid-term evaluation process

Mid-term evaluation is carried out after the end of the fourth semester of training and, in practice, takes place in the second and third decades of October. Committees for mid-term evaluation are appointed separately for each doctoral student to ensure the merit-based reliability of their conduct through the participation of the department head in which the doctoral dissertation is prepared, and the involvement of a scientific committee from outside our University dealing with topics identical or similar to those undertaken by a doctoral student in their dissertation. The committee is chaired by the Dean of the Doctoral School, whose participation ensures the integrity of the mid-term evaluation from a formal perspective.

Ensuring the merit-based reliability of the evaluation of the individual research plan's implementation is achieved through the documentation required by the Doctoral School regulations, provided by the doctoral student, which allows committee members to assess the state of preparation of the doctoral dissertation. This documentation is collected both in paper and electronic formats, which ensures, on the one hand, the formal reliability of the evaluation conducted, and, thanks to its accessibility in electronic form for committee members, facilitates the preparation for the committee meeting and the formulation of questions and recommendations for the evaluated doctoral student.

The evaluation is conducted remotely via Google Meet, providing synchronous real-time contact between a doctoral student and committee members. In the public part of the meeting, the doctoral student presents a self-report on the progress of the individual research plan (IRP). In the event of deviations from the IRP implementation, the doctoral student, after consulting with the supervisor, presents reasons and proposes corrective measures to ensure that the dissertation submission deadline is met. The committee members then formulate their comments and ask questions. After the public part, the committee deliberates in the secret part, during which conclusions are formulated on the progress of the doctoral student's scientific work and recommendations on possible corrective actions if deviations are identified in the implementation of the IRP. The mid-term evaluation is also carried out concerning the compatibility of the doctoral student's scientific activity with the topic of the dissertation being prepared. These observations are included in the justification for the mid-term evaluation and, upon agreement with the supervisor, constitute the basis for the doctoral student's adjustments to the IRP.

The solutions applied to the mid-term evaluation, adopted to ensure the highest possible reliability of the procedure, are, in particular, the following regulations contained in the regulations for the operation of the mid-term evaluation committee at the Doctoral School. First, the scope and details of the documentation that allow the committee members to properly assess the doctoral student's progress in preparing the dissertation are specified. Second, for selected documents, a doctoral student must justify their compatibility with the dissertation being prepared and the research being conducted; this applies in particular to the doctoral student's participation in scientific conferences, training courses, and workshops. Third, the doctoral student, in consultation with their supervisor, is required to provide explanations for deviations in implementing the IRP and to indicate corrective actions. Fourth, it is assumed that the doctoral student shall actively participate in the mid-term evaluation committee meeting, where the doctoral student presents a self-report on the implementation of the IRP. Fifth, during the committee meeting, its members, in the presence of the doctoral student, formulate comments and questions regarding the implementation of the IRP, to which the doctoral student may respond. Sixth, at the doctoral student's request, the supervisor may participate in the public part of the meeting. A key element of the mid-term evaluation is that, even if the committee issues a positive assessment, any necessary or recommended actions for the doctoral student must be included in the evaluation's justification. Such justification is communicated to the supervisor and the doctoral student. Based on this, the doctoral student is obliged, in consultation with their supervisor and, if appointed, the assistant supervisor, to adjust the IRP to ensure the dissertation submission deadline is met. The solutions indicated above, agreed with the Doctoral Student Council at the stage of preparing the order, are primarily aimed at ensuring that the mid-term evaluation will enable the doctoral student and the supervisor to continue implementing the IRP successfully. During the evaluation period, a total of 54 doctoral students underwent mid-term evaluation; all evaluations concluded with a positive assessment, including 52 with an indication of the need for adjustments to the IRP.

Strengths: The ability to conduct a comprehensive, supportive mid-term evaluation, in which the committee determines acceptable adjustments to the individual research plan at this stage of dissertation preparation. **Challenges:** Improving the quality of self-referrals; increasing the participation of international reviewers and supervisors.

7. Internationalization

The importance of internationalization for the development of education at the Doctoral School is expressed in the document "Internationalization Policy of the Doctoral School," adopted by the Doctoral School Council in 2022. The document was developed by a team appointed by the Doctoral School Council, which included both experienced academic staff and heads of our University's administrative units whose tasks include organizing activities related to international exchange. This team composition enabled the development of an internationalization policy that took organizational issues into account, drawing on the experience of international cooperation among academic staff. Implementation of the Policy (document attached) implies implementing activities in the following areas: a) improving research work and the quality of doctoral students' research through the use of international experience; b) improving the quality of education at the Doctoral School through the use of international experience; c) increasing the international mobility of doctoral students; d) developing internationalization activities "at home" and supporting long-term international cooperation of the Doctoral School with other entities.

In 2021, our University Senate adopted resolutions that define learning outcomes and curricula in English for the disciplines of Economics and Finance, and Management and Quality Sciences. This enables the education of international students and the supervision of doctoral dissertations in English by doctoral students from Poland. Education based on English-language programs began in the academic year 2022/2023. Recruitment continued in each subsequent academic year, indicating that they are currently being implemented over four consecutive years of training. In the four recruitment cycles from 2022 to 2025, 51 foreigners submitted applications, including 22 in the discipline of Economics and Finance and 28 in the discipline of Management and Quality Sciences. As a result of the recruitment process, 13 international students were admitted, including 7 in the discipline of Economics and Finance and 6 in the discipline of Management and Quality Sciences. During the period under review, 10 international students began their training at the Doctoral School, including 6 in Economics and Finance, and 4 in Management and Quality Sciences. The difference between the number of students admitted and those who began their studies was due to prolonged consular procedures. Therefore, a decision was made to accelerate recruitment procedures for the academic year 2023/2024 by moving the date from September to July, and amendments were made to the Rules and Regulations of the Doctoral School to allow the enrolment of international doctoral students at a later date in justified cases. The Doctoral School is a member of the Central, East and South-East European PhD Network (CESEENet), which aims to promote and facilitate cooperation between Central, East and South-East European universities offering doctoral training in the disciplines of Economics and Business, to improve the quality of their doctoral programs. The network enables universities to organize joint training courses in specific disciplines, hold research seminars, exchange doctoral students, and intensify research cooperation. Participating universities benefit from the network's activities while maintaining the integrity of their accredited doctoral programs within the network. CESEENet comprises 42 institutions offering doctoral training in 17 countries, including Austria, Italy, the Czech Republic, and Croatia. The Dean of the Doctoral School actively participates in CESEENet's work as a member of the Executive Committee.

Representatives of the Doctoral School are participants in opinion-making bodies within the BAUHAUS4EU Alliance. The Dean of the Doctoral School is a member of the Academic Council, while two doctoral students are members of the PhD Council. BAUHAUS4EU, a European University for Resilient, Sustainable, Inclusive and Beautiful Regions is an Alliance within the European Universities Initiative that brings together, alongside our University, nine universities from across Europe: Bauhaus-Universität Weimar (Germany), Blekinge Institute of Technology (Sweden), Instituto Politécnico de Castelo Branco (Portugal), Università degli Studi di Bergamo (Italy), Université de Picardie Jules Verne (France), Université Lumière Lyon 2 (France), Universiteti POLIS (Albania), University of Architecture, Civil Engineering and Geodesy (Bulgaria), University of Macedonia (Greece). It is an international initiative that takes a comprehensive approach to fostering a resilient, sustainable, inclusive and culturally enriching future through education, combining local traditions with global challenges. The Alliance's activities are in line with the goals of the European Education Area, the UN Sustainable Development Goals and the European Commission's New European Bauhaus initiative. The Doctoral School will co-organize the annual meeting of doctoral students of BAUHAUS4EU member universities. Adrian Widuch, our doctoral student, is participating in the international Horizon Europe research project called DUST, in partnership with our University.

Strengths: A range of programs offered in English and the opportunity for doctoral students to take advantage of the growing internationalization of our University. **Challenges:** Lengthy visa procedures; social integration of international doctoral students; English-language communication of administration.

8. Effectiveness of doctoral education

Percentage of individuals who obtained a doctoral degree	Doctoral students who applied for initiation of proceedings for the award of a doctoral degree	Doctoral students who were awarded a doctoral degree	Doctoral students who were denied the award of a doctoral degree
in the number of doctoral students who completed their education at the doctoral school during the evaluation period	89 %	67 %	0 %
in the total number of doctoral students who completed their education at the doctoral school	89 %	67 %	0 %

Law stipulates that doctoral training in doctoral schools ends with the submission of a doctoral dissertation. Rules and Regulations of the Doctoral School has adopted the principle that training ends with the initiation of proceedings for the award of a doctoral degree by the scientific committee responsible for the scientific discipline in which a student completed study. Proceedings begins with the student applying to begin the process for the award of a doctoral degree, to which, in addition to the doctoral dissertation, the following must be attached: a positive opinion from the supervisor, a list of academic achievements; documents certifying the achievement of learning outcomes for qualifications at level 8PQF, a report from the Uniform Anti-Plagiarism System. The indicated solutions mean that the requirements for completing education imposed on PhD students at our University enable them to initiate proceedings for the award of a doctoral degree. During the evaluation period, 10 students initiated proceedings for the award of a doctoral degree in the social sciences, including 7 in the discipline of Economics and Finance, and 3 in the discipline of Management and Quality Sciences. Of these, 8 students were awarded doctoral degrees in the social sciences, including 5 in the discipline of Economics and Finance, and 3 in the discipline of Management and Quality Sciences. None of the students was denied the degree. In the case of two doctoral students, the reviewers requested that they be distinguished. The effectiveness of doctoral training is also reflected in the fact that 5 doctoral students, following competitive procedures, continue their scientific work as research and teaching staff in our 5 departments.

Strengths: Continuation of scientific work by doctoral students who have received their degrees. **Challenges:** Maintaining a high level of publications; balancing the workload of doctoral students; increasing participation in international grants.

1. management and quality studies

Achievement Description

Alicja Kozacka. Her interests focus on artificial intelligence, entrepreneurship, consumer preference research, organizational behavior, and marketing. In early September 2025, she published an authored chapter in a scientific monograph entitled "The Process of Building Trust in the Cyberspace Tutoring Services Market" (SAN Publishing House, 2025, 20 points from the Ministry of Science and Higher Education) and a co-authored scientific article in the journal *Akademia Zarządzania* (2025, 20 points from the Ministry of Science and Higher Education) on Generation X attitudes towards AI in e-commerce. She is an investigator in the statutory research of the Department of Entrepreneurship and Innovative Management entitled "The Future of Innovation: Analysis of Current Directions and Changes – Stage I: Green Innovations and Artificial Intelligence in Sustainable Development." Additionally, she co-implemented a doctoral project entitled "The Perception of Candidates for the Office of the President of the Republic of Poland by Young Voters from Generation Z," the results of which were discussed in the local press. She has actively participated in a number of scientific conferences, including international ones (including the 46th IBIMA Conference in Ronda, Spain; the Financial Progress Conference at the University of Lodz; and Entrepreneurship in the Age of Innovation at the Academy of Technology). Her presentations (13 papers in total) focused primarily on the impact of AI and digital technologies on Generation Z and the labor market. A special distinction was winning first place in the competition for the best poster at the 11th National Scientific Conference "Youth on Sport" at the Jagiellonian University. She also participated in the 2025 Summer School of Management and the National Congress of Entrepreneurship Departments in October 2024. She has carried out extensive science outreach activities, including a series of 11 lectures on AI as part of the "Support for the Just Transition Process" program. She has lectured on the opportunities and threats of AI, as well as its applications in business, during knowledge and science festivals, Entrepreneurship Week, EU Open Days, and as part of the Children's Economic University, University of the Third Age, and Economics for High Schools and Technical Schools programs, reaching students, parents, university students, and seniors with academic knowledge.

Piotr Popęda. His most important academic achievements include the development of new management concepts and his contribution to the mission of reforming public administration. Examples of this work include the co-authored publication

"New Public Governance as a New Wave of Public Policy: Theoretical Approach and Conceptualization of the Trend," published in the Journal of Entrepreneurship and Public Policy (2023, Emerald Publishing). In the Polish publishing market, this publication will be "The Inherent Relationship between Knowledge, Communication, and Organizational Silos: A Review of Counteracting Silos," published in "E-Mentor" (2025, Warsaw School of Economics). The doctoral candidate also actively participated in key global scientific forums, such as the International Research Society for Public Management conference in Bologna (2025, IRSPM) and the Committee of Experts on Public Administration in New York (2024, UN), where he presented the results of his work and ideas. Various research activities resulted in a nomination for the Silesian Scientific Award (2024).

Kornelia Przedworska. Her most important scientific achievements focus on researching the energy transformation of households and businesses and the strategies of entities operating in the declining coal market. These culminate in the monograph "Marketing mix in a declining market. The response to market and sector-specific environmental challenges," synthesizing the results of many years of research on marketing and logistics management in the solid fuel sector. I have published key articles in high-ranking journals from the Web of Science list, including: Energy Economics (200 points), Frontiers in Energy Research, Mineral Resources Economy, Economics and Environment, and Sage Open, addressing the issues of green transformation, energy poverty, perceptions of "eco-fuels," and the effects of environmental regulations on business strategies and public policies. She co-authored the Upper Silesian-Zagłębie Metropolis's research project on "green heat" in the Silesian metropolis, combining the perspectives of behavioral economics and public policy. Her research findings have been presented at three international scientific conferences; she was also invited as a keynote speaker at an international conference on sustainable development, confirming the international recognition of her achievements.

Agnieszka Stadnicka. In the 2024/2025 academic year, she completed an individual project funded by young scientists, titled "Simulating Digital Incompetence in the Workplace. Stage II," and began another, "Challenges of Mismatch: The Impact of the Dynamics of the Technological Environment and Perceived Employee Digital Effectiveness on the Occurrence of Simulated Digital Incompetence." She published the results of a systematic literature review in October 2024 in *Annales Universitatis Mariae Curie-Skłodowska, sectio H – Oeconomia*. In 2024, she qualified for the Science-Up training and mentoring program, where, under the supervision of Dr. Tomasz Grzegorzczuk, she developed an Individual Research Plan, which she continued during an internship at the Department of Management at the Poznań University of International Economics in May 2025. This collaboration resulted in an article submitted for peer review. In 2025, she actively participated in the International Scientific Conference "Modernity of Industry and Services," which will culminate in a post-conference publication. In 2024, she contributed to the dissemination of knowledge by organizing and running a demonstration stand at an international event, the 8th Silesian Science Festival.

2. economics and finance

Achievement Description

Martyna Bieleń. Over the five years she spent working on her doctoral dissertation, she presented at seven conferences (including five international ones) and published five articles. She was the recipient of two grants. The most successful article was her first, published in co-authorship with Jakub Kubiczek, PhD in the journal *e-mentor*, titled "Response of the labor market to the needs and expectations of Generation Z." This article has 102 citations according to Google Scholar. From 2021 to 2024, she co-organized the International Women's Day Conference in Economics, Finance, and Management, presenting papers at three editions of this event. As part of her involvement in the Doctoral Students' Self-Government, she co-organized the 3rd National Scientific Conference of Doctoral Students and Young Scientists – Tri-sector – Economics, Finance, Management. As a recipient of the "Young Scientists" grant, she presented at two conferences: the 17th Warsaw International Economic Meeting in Warsaw and the ARIW-TNBS Conference on "Measuring Income, Wealth and Well-being in Africa," held in Tanzania. There, she also established contacts with academics from universities in Dar es Salaam and Dodoma, as well as members of the Policy Analysis and Development Organization (PADO). As part of the "Inter-University Research Grant," she co-authored an article in the Journal of International Studies.

Dominika Krawczyńska. She actively participated in research, authoring/co-authoring six scientific articles. A key element of her achievements is her involvement in the research project "Ecology or Economics – Determinants and the Propensity of Poles to Engage in Energy Transition," including four publications in prestigious journals. The most recent is an article published in *Energy Economics* (worth 200 MEiN points), which cemented the team's place in the international scientific debate. She received a grant and served as project leader for the "Come, Paint My World Green..." project, implemented as part of the "Young Science" program. Her active international involvement includes participation in initiatives such as the NAWA Excore project (International Center of Research Excellence in Transition of Coal Regions), where she had the opportunity to collaborate with many outstanding scientists from abroad, and International Week in Madrid, which in turn allowed her to broaden her perspective on research methodology and organization and establish international contacts.

Adam Chwila. His most important scientific achievements are related to articles written during her studies at the Doctoral School. The doctoral student published two original articles on artificial intelligence and the use of machine learning, one in the journal *Acta Universitatis Lodzensis. Folia Oeconomica* and the other in the journal *Statistics in Transition. New Series*. He has also published three co-authored articles on small-scale statistics and machine learning in the *International Journal of Machine Learning and Cybernetics*, *Communications in Statistics - Simulation and Computation*, and *Statistics in Transition New Series*, with a combined impact factor of 3.5. In addition to numerous presentations at national and international scientific conferences, the doctoral student has participated in two research projects focusing on the prediction of quantitative variables. The first project, part of InGrid, an international consortium of 19 universities and research institutions from 14 EU countries funded by the EU's Horizon 2020 research and innovation program under grant agreement no. 730998, was implemented in 2021. The second project will be implemented from 2024 under a grant for research teams, co-financed by the Minister of Science under the Regional Excellence Initiative Program.

Jakub Kubiczek. He is an economist and researcher in finance and management sciences, author of 25 publications indexed in the Scopus database. His works have been cited 923 times in Google Scholar (h-index 15, i-10 index 23) and 494 times in Scopus (h-index 13). His academic work has included a number of research projects, including: "Consumer Engagement in Sustainable Consumption: Dimensions, Determinants, and Motivation"; "Ecology or Economics – Determinants and Poles' Propensity for Energy Transition"; and "The LendTech Sector and the Phenomenon of Credit Exclusion in the Age of Sustainable Finance – Interdependencies, Consequences, and Recommendations." He currently heads the Macroeconomics Team at the Polish Economic Institute.

Dawid Lesznik. His most important academic achievements focus on the behavior of financial market participants and the measurement of consumer sentiment in changing economic conditions. Reflecting on the ethics of financial influencer behavior resulted in a victory in the 9th edition of the Polish "Ethics in Finance" competition organized by the Polish Bank Association for the essay "(Un)ethical Behavior of Financial Influencers" and a joint second place in the global edition of the prestigious Ethics & Trust in Finance 9th Global Prize competition in Geneva for the essay "(Un)ethical Behavior of Financial Influencers." The First Prize of the President of the National Bank of Poland was also awarded for the best master's thesis in economics, entitled "Typology of individual investors on the Polish stock market," based on original research of approximately 1,100 investors. This achievement is complemented by a grant from the Regional Excellence Initiative for the project "In Search of Turning Points in the Economic Cycle – Consumer Sentiment as a Leading Indicator in the Post-Pandemic Economic Reality," which developed a proprietary research tool and an innovative approach to constructing consumer sentiment indicators and applied them in practice based on two waves of representative surveys among domestic consumers.

**DOCTORAL SCHOOL
AT THE UNIVERSITY OF ECONOMICS IN KATOWICE
SELF-ASSESSMENT REPORT**

APPENDIX

CURRICULA DURING THE PERIOD COVERED BY THE EVALUATION

Resolution No. 78/2018/2019
of the Senate of the University of Economics in Katowice
of May 30, 2019,
on establishing curricula at the Doctoral School
of the University of Economics in Katowice

Based on Art. 28 (1) (12) of the Act of July 20, 2018, Law on Higher Education and Science (Journal of Laws of 2018, item 1668, as amended), in connection with Art. 291 of the Act of July 3, 2018, Provisions introducing the Act - Law on Higher Education and Science (Journal of Laws of 2018, item 1669, as amended), the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

The following curricula are established at the Doctoral School of the University of Economics in Katowice for the following scientific disciplines:

1. Economics and Finance – Appendix No. 1 to this Resolution,
2. Management and Quality Sciences – Appendix No. 2 to this Resolution.

§ 2

The resolution comes into force on October 1, 2019.

President of the Senate
Rector

dr hab. Robert Tomanek, prof. UE

**Profile of a candidate
for the *Doctoral School* in the discipline of *Economics and Finance***

Candidates for the Doctoral School in the discipline of "Economics and Finance" should have an interest in current issues in their chosen scientific discipline. They should follow the latest trends in scientific research in Economics and Finance, and be interested in the latest literature on the subject and research issues addressed in Poland and worldwide.

The candidate is motivated to engage in academic work, prepare research projects, and write academic texts. They have a proven predisposition to teamwork, advanced-level study, and continuous development of their academic skills.

**Profile of a graduate
of the *Doctoral School* in the discipline of *Economics and Finance***

A graduate of the Doctoral School in the discipline of "Economics and Finance" holds a doctoral degree. They have up-to-date, advanced scientific knowledge in Economics and Finance, are familiar with the global achievements in this discipline, and the main trends and tendencies in its development. They understand the dilemmas of modern civilization. They know the key methodological assumptions, paradigms, sub-disciplines, research areas, and research methods in the scientific discipline of Economics and Finance. Graduates know the research tools needed to solve innovative research problems, and are familiar with the principles of disseminating scientific results, especially the protection of intellectual property.

Graduates can correctly and creatively identify knowledge gaps, formulate doctoral-level research problems, adopt appropriate methodological assumptions, and select the correct research procedures, methods, and tools for the adopted procedure. They use knowledge from various areas of science, especially social sciences, and critically analyze the results of scientific research and expert work. Graduates can skillfully set priorities for performing research tasks defined by themselves or others, and identify dilemmas and problems related to the allocation of material, human, and financial resources across the economy's various levels of functioning, which can serve as the basis for theoretical analyses and innovative empirical research. They can work on research and project teams, including international teams. They can independently prepare a research proposal, conduct research individually or in a team, prepare an academic essay and paper on a topic within their chosen discipline, and disseminate their research findings in various forms within the national and international academic community, considering current requirements.

Graduates are prepared to work in research and development institutions, universities, consulting firms, organizations, and state-owned and private enterprises as high-level managers, as well as to run their own businesses. They always act ethically and are ready to work for the public good.

**Profile of a candidate
for the *Doctoral School* in the discipline of *Management and Quality Sciences***

Candidates for the Doctoral School in the discipline of "Management and Quality Sciences" should have an interest in current issues in their chosen scientific discipline. They should follow the latest trends in scientific research in Economics and Finance, and be interested in the latest literature on the subject and research issues addressed in Poland and worldwide.

The candidate is motivated to engage in academic work, prepare research projects, and write academic texts. They have a proven predisposition to teamwork, advanced-level study, and continuous development of their academic skills.

**Profile of a graduate
of the *Doctoral School* in the discipline of *Management and Quality Sciences***

A graduate of the Doctoral School in the discipline of "Management and Quality Sciences" holds a doctoral degree. They have advanced knowledge of Management and Quality Sciences, their role within the system of sciences, their relationships with other fields, and their relevance in the social sciences. Graduates have up-to-date knowledge of management and quality sciences. They know the most essential methodological assumptions, paradigms, sub-disciplines, research areas, and research methods in Management and Quality Sciences. Graduates know the research tools needed to solve a given research problem.

Graduates can correctly identify knowledge gaps, formulate doctoral-level research problems, adopt appropriate methodological assumptions, and select the appropriate research procedures, methods, and tools for their approach. Graduates can skillfully prioritize research tasks defined by themselves or others and identify management-related dilemmas and problems, which can serve as the basis for literature reviews and empirical research. They can work on research and design teams, including international ones. They can independently prepare a research proposal, conduct research on their own or as part of a team, prepare a scientific paper on a topic within their chosen discipline, and disseminate their research findings in various forms.

Graduates are prepared to work in research and development institutions, universities, consulting firms, state and private organizations, and enterprises as high-level managers, and to run their own businesses. They always act ethically and are ready to act in the public interest.

Resolution No. 66/2018/2019
of the Senate of the University of Economics in Katowice
of March 28, 2019,
on the adoption of learning outcomes for qualifications at level 8 of the Polish
Qualifications Framework in the disciplines of Management and Quality Sciences,
and Economics and Finance

Based on Art. 7 (3) of the Act of December 22, 2015, on the Polish Integrated Qualification System (Journal of Laws of 2018, item 2153) and the Regulation of the Minister of Science and Higher Education of November 14, 2018, on the characteristics of second-level learning outcomes for qualifications at levels 6-8 of the Polish Qualifications Framework (Journal of Laws of 2018, item 2218), the Senate of the University of Economics in Katowice hereby resolves as follows:

§1

The Senate of the University of Economics in Katowice adopts the learning outcomes for qualifications at level 8 of the Polish Qualifications Framework in the disciplines of Economics and Finance, and Management and Quality Sciences, constituting Appendices No. 1 and No. 2 to this Resolution.

§2

The resolution shall take effect on October 1, 2019.

President of the Senate
Rector

dr hab. Robert Tomanek, prof. UE

Learning outcomes for qualifications at level 8 of the Polish Qualifications Framework in the discipline of **Economics and Finance**

UE Katowice effect	Learning outcome	MNiSW effect
SD_EF_WOJ	Graduates know and understand global achievements in the field of <i>Economics and Finance</i> to a degree that enables them to revise existing paradigms and identify their main development trends.	PSS_WG
SD_EF_W02	Graduates know and understand the methodology and conditions (including economic, legal, and ethical) of conducting scientific research in the discipline of <i>Economics and Finance</i> .	PSS_WG PSS_WK
SD_EF_W03	Graduates know and understand the fundamental socio-economic dilemmas of modern civilization.	PSS_WK
SD_EF_W04	Graduates know and understand the principles of disseminating scientific results (including through open access), transferring knowledge to the economic and social sphere, and commercializing these results and the associated know-how.	PSS_WG PSS_WK
SD_EF_U01	Graduates can apply knowledge from various disciplines of science, especially the discipline of social sciences, to creatively identify, formulate, and innovatively solve complex problems or perform research tasks; and in particular, correctly define the purpose and course of research, formulate research hypotheses, develop research methods, techniques, and tools (applying them creatively), and draw conclusions based on research results.	PSS_UW
SD_EF_U02	Graduates can critically analyze and evaluate the results of scientific research, expert activities, and other creative work, as well as their contribution to the development of knowledge.	PSS_UW

Resolution No. 22/2021/2022
of the Senate of the University of Economics in Katowice
of December 16, 2021,
on the establishment of learning outcomes and curricula
in English as part of the PhD IN ECONOMICS, FINANCE, AND MANAGEMENT
at the Doctoral School

Based on Art. 201 (4) and Art. 28 (1) (12) of the Act of July 20, 2018, Law on Higher Education and Science (i.e. Journal of Laws of 2021, item 478, as amended) and § 24 (1) (18) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

Learning outcomes are defined for qualifications at level 8 of the Polish Qualifications Framework for English-language curricula in the following disciplines:

- 1) **Economics and Finance**, constituting Appendix No. 1 to this Resolution;
- 2) **Management and Quality Sciences**, constituting Appendix No. 2 to this Resolution.

§ 2

English-language curricula are established as part of the **PhD IN ECONOMICS, FINANCE, AND MANAGEMENT** at the Doctoral School in the following disciplines:

- 1) **Economics and Finance**, constituting Appendix No. 3 to this Resolution;
- 2) **Management and Quality Sciences**, constituting Appendix No. 4 to this Resolution.

§ 3

1. The course description cards for the curricula referred to in § 2, included in the system for publishing course description cards, are hereby approved.
2. The Dean of the Doctoral School is obliged to ensure that the course description cards in the system referred to in (1) are up to date and complete.
3. The learning outcomes coverage matrices for the curricula referred to in § 2 are hereby approved.

§ 4

The resolution comes into force on the date of its signing.

President of the Senate
Rector

(-) prof. dr hab. inż. Celina M. Olszak

**PHD IN ECONOMICS AND FINANCE
DOCTORAL PROGRAM LEARNING OUTCOMES
(BASED ON THE POLISH QUALIFICATIONS FRAMEWORK)**

I. KNOWLEDGE

W01: The graduates of PhD studies know and understand the international academic achievements in the *Economics and Finance* discipline to an extent allowing revision of the existing paradigms, as well as the discipline development tendencies.

[P8S_WG]

W02: The graduates of PhD studies know and understand the determinants (e.g., economic, legal, ethical) and methodology of the scientific research in the *Economics and Finance* discipline.

[P8S_WG] [PS_WK]

W03: The graduates of PhD studies know and understand the fundamental socio-economic dilemmas of contemporary civilization.

[P8S_WK]

W04: The graduates of PhD studies know and understand the principles of research results dissemination (including the open access principles), knowledge transfer to the economy and society, commercialization of results, and related know-how.

[P8S_WG] [PS_WK]

II. SKILLS

U01: The graduates of PhD studies can apply knowledge from different fields, especially from social sciences, for creative identifying, formulating, and solving complex problems and managing research tasks; in particular, correctly define the objectives and the scope of research, formulate hypotheses, develop research methods, techniques and tools applying them creatively as well as conclude the research results.

[P8S_UW]

U02: The graduates of PhD studies can critically analyze and assess the research results, expert activity, and other creative works, and assess their contribution to knowledge development.

[P8S_UW]

U03: The graduates of PhD studies can discuss specialized socio-economic issues in a scientific and professional environment (also an international one using English at least at B2 level of the Common European Framework of Reference for Languages), including taking part in scientific disputes, initiating a scientific debate, disseminating and popularizing the results of scientific activity, also in an international environment.

[P8S_UW] [P8S_UK]

U04: The graduates of PhD studies can plan and conduct individual and team research and creative activity, also in an international environment.

[P8S_UO]

U05: The graduates of PhD studies can plan and undertake self-development activities as well as inspire and organize the development of others by designing and realizing activities or groups of activities using modern methods and tools.

[P8S_UU]

III. COMPETENCIES

K01: The graduates of PhD studies are ready for a critical assessment of the *Economics and Finance* discipline and their contribution to the discipline.

[P8S_KK]

K02: The graduates of PhD studies – acknowledging the importance of knowledge in solving cognitive and practical problems – are ready to fulfill the social obligations of researchers and inventors, including public interest activities and entrepreneurial thinking and acting.

[P8S_KK] [P8S_KO]

K03: The graduates of PhD studies are ready to maintain and develop the ethos of the scientific community, in particular by conducting research in an independent manner and by respecting the postulate of public rights of their results, as well as including the principles of intellectual property protection.

[P8S_KR]

Profile of the candidate
for the Economics and Finance PhD program

A candidate for the Doctoral School demonstrates a keen interest in current issues related to the discipline of *Economics and Finance*. The candidate follows the latest trends in scientific research in the chosen discipline and is familiar with the recent literature on the subject, as well as the research problems relevant to the global scientific community.

The candidate is motivated to conduct scientific research, prepare research projects, and write academic texts. The candidate has a proven aptitude for working in a team and studying at an advanced level. The candidate continuously develops competencies required for academic work.

Profile of the graduate
for the Economics and Finance PhD program

The Doctoral School graduate holds a PhD degree in the discipline of *Economics and Finance*. The graduate possesses up-to-date, advanced knowledge in the chosen discipline. The graduate knows the major global achievements of this discipline and is aware of the directions and tendencies governing its development. The graduate understands the dilemmas of modern civilization and has in-depth knowledge of the essential methodological assumptions, paradigms, sub-disciplines, research areas, and methods in the chosen discipline. The Doctoral School graduate is familiar with research methods necessary to solve novel research problems and knows how to disseminate the results of scientific activities. The graduate understands the principles of intellectual property protection.

The graduate can correctly and creatively identify cognitive gaps, formulate doctoral-level research problems, and make appropriate methodological assumptions. The graduate can select appropriate research procedures, as well as the methods and research tools for the adopted procedures. The graduate is capable of applying knowledge from different fields of science, especially the social sciences, and of critically analyzing research results and expert works. The graduate is also able to skillfully determine the priorities for implementing research tasks assigned by the graduate or others. The graduate can identify the dilemmas and problems related to the allocation of material, human, and financial resources at different levels of the economy, which may serve as a basis for theoretical analyses and innovative empirical research. The graduate can work in research and project teams, both national and international. The graduate has the competencies to independently draft a research proposal, conduct research, either individually or in a team, and prepare a research article or scientific paper on a problem within a selected discipline. The graduate can disseminate research results in various forms within both the national and international scientific communities and can adjust their work to current requirements.

The graduate is prepared to undertake employment in research and development institutions, at universities, and in consulting companies. The graduate is also qualified to occupy high-level managerial positions in state and private organizations, as well as to run their own enterprise. The graduate always behaves ethically and is ready to act for the public interest.

Resolution No. 21/2023/2024
of the Senate of the University of Economics in Katowice
of December 14, 2023
on establishing curricula in Polish at the Doctoral School
of the University of Economics in Katowice

Based on Art. 201 (4) and Art. 28 (1) (12) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2023, item 742, as amended) and § 24 (1) (18) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

Starting from the academic year 2024/2025, the following curricula in Polish are established at the Doctoral School in the following disciplines:

- 1) Economics and Finance, constituting Appendix No. 1 to the Resolution;
- 2) Management and Quality Sciences, constituting Appendix No. 2 to the Resolution.

§ 2

1. The learning outcome coverage matrices for the curricula referred to in § 1 are hereby approved.
2. The syllabuses for the curricula referred to in § 1, posted in the syllabus publication system, are hereby approved.
3. The Dean of the Doctoral School is obliged to ensure the validity and integrity of the syllabuses in the system referred to in (2).

§ 3

Doctoral students admitted in the academic year 2019/2020, 2020/2021, and 2021/2022 are subject to:

- 1) Resolution No. 78/2018/2019 of the Senate of the University of Economics in Katowice of May 30, 2019, on establishing curricula at the Doctoral School of the University of Economics in Katowice;
- 2) Resolution No. 131/2018/2019 of the Senate of the University of Economics in Katowice of September 19, 2019, on the approval of learning outcome coverage matrices for curricula at the Doctoral School for the scientific disciplines of Economics and Finance, and Management and Quality Sciences.

§ 4

Doctoral students pursuing training programs in Polish, admitted in the academic years 2022/2023 and 2023/2024, are subject to:

- 1) Resolution No. 78/2018/2019 of the Senate of the University of Economics in Katowice of May 30, 2019, on establishing education at the Doctoral School of the University of Economics in Katowice;
- 2) Resolution No. 131/2018/2019 of the Senate of the University of Economics in Katowice of September 19, 2019, on the approval of learning outcome coverage

matrices for curricula at the Doctoral School for the scientific disciplines of Economics and Finance, and Management and Quality Sciences.

§ 5

In connection with the provisions of § 1-4, the learning outcomes introduced by Resolution No. 66/ 2018/2019 of the Senate of the University of Economics in Katowice of March 28, 2019, on the adoption of learning outcomes for qualifications at level 8 of the Polish Qualifications Framework in the disciplines of Management and Quality Sciences, and Economics and Finance, remain unchanged.

§ 6

The resolution comes into force on the date of its signing.

President of the Senate

Rector

PROFILE OF A CANDIDATE FOR THE DOCTORAL SCHOOL IN THE DISCIPLINE OF *ECONOMICS AND FINANCE*

Candidates for the Doctoral School in the discipline of "Economics and Finance" should have an interest in current issues in their chosen scientific discipline. They should follow the latest trends in scientific research in Economics and Finance, and be interested in the latest literature on the subject and research issues addressed in Poland and worldwide.

The candidate is motivated to engage in academic work, prepare research projects, and write academic texts. They have a proven predisposition to teamwork, advanced-level study, and continuous development of their academic skills.

PROFILE OF A GRADUATE OF THE DOCTORAL SCHOOL IN THE DISCIPLINE OF *ECONOMICS AND FINANCE*

A graduate of the Doctoral School in the discipline of "Economics and Finance" holds a doctoral degree. They have up-to-date, advanced scientific knowledge in Economics and Finance, are familiar with the global achievements in this discipline, and the main trends and tendencies in its development. They understand the dilemmas of modern civilization. They know the key methodological assumptions, paradigms, sub-disciplines, research areas, and research methods in the scientific discipline of Economics and Finance. Graduates know the research tools needed to solve innovative research problems, and are familiar with the principles of disseminating scientific results, especially the protection of intellectual property.

Graduates can correctly and creatively identify knowledge gaps, formulate doctoral-level research problems, adopt appropriate methodological assumptions, and select the correct research procedures, methods, and tools for the adopted procedure. They use knowledge from various areas of science, especially social sciences, and critically analyze the results of scientific research and expert work. Graduates can skillfully set priorities for performing research tasks defined by themselves or others, and identify dilemmas and problems related to the allocation of material, human, and financial resources across the economy's various levels of functioning, which can serve as the basis for theoretical analyses and innovative empirical research. They can work on research and project teams, including international teams. They can independently prepare a research proposal, conduct research individually or in a team, prepare an academic essay and paper on a topic within their chosen discipline, and disseminate their research findings in various forms within the national and international academic community, considering current requirements. Graduates are prepared to work in research and development institutions, universities, consulting firms, organizations, and state-owned and private enterprises as high-level managers, as well as to run their own businesses. They always act ethically and are ready to work for the public good.

I. KNOWLEDGE

W01: Graduates know and understand global achievements in the discipline of *Economics and Finance*, to a degree that enables them to revise existing paradigms, as well as their main development trends. [P85_WG]

W02: Graduates know and understand the methodology and conditions (including economic, legal, and ethical) of conducting scientific research in the discipline of *Economics and Finance*. [P85_WG] [P85_WK]

W03: Graduates know and understand the fundamental socio-economic dilemmas of modern civilization. [P85_WK]

W04: Graduates know and understand the principles of disseminating scientific results (including through open access), transferring knowledge to the economic and social spheres, and commercializing these results and the associated know-how. [P85_WG] [P85_WK]

II. SKILLS

U01: Graduates can apply knowledge from various disciplines, especially the discipline of social sciences, to creatively identify, formulate, and innovatively solve complex problems or perform research tasks, and in particular to correctly: define the purpose and focus of research, formulate research hypotheses, develop research methods, research techniques and tools (applying them creatively), and draw conclusions based on research results. [P85_UW]

U02: Graduates can critically analyze and evaluate the results of scientific research, expert activities, and other creative works, as well as their contribution to the development of knowledge. [P85_UW]

U03: Graduates can communicate on specialized socio-economic topics in academic and professional environments, using a foreign language at least at B2 CEFR level, including participation in scientific discourse, initiating scientific debate, disseminating (and popularizing) the results of scientific activity, and transferring them to the economic and social spheres. [P85_UW] [P85_UK]

U04: Graduates can plan and carry out individual and team research or creative projects, including in an international environment. [P85_UO]

U05: Graduates can independently plan and implement activities to support their own development, as well as inspire and organize the development of others, including planning and conducting classes or groups of classes using modern methods and tools. [P85_UU]

III. COMPETENCIES

K01: Graduates are ready to critically evaluate the achievements of the discipline of *Economics and Finance* and their own contribution to its development. [P85_KK]

K02: Recognizing the importance of knowledge in solving cognitive and practical problems, graduates are prepared to fulfil the social responsibilities of researchers and creators, including the initiation of activities for the public good, as well as to think and act in an entrepreneurial manner. [P85_KK] [P85_KO]

K03: Graduates are prepared to uphold and develop the ethos of scientific communities, in particular by conducting independent research and respecting the principle of public ownership of their results, while complying with the rules of intellectual property protection. [P85_KR]

PROFILE OF A CANDIDATE FOR THE DOCTORAL SCHOOL IN THE DISCIPLINE OF *MANAGEMENT AND QUALITY SCIENCES*

Candidates for the Doctoral School in the discipline of "Management and Quality Sciences" should have an interest in current issues in their chosen scientific discipline. They should follow the latest trends in scientific research in Economics and Finance, and be interested in the latest literature on the subject and research issues addressed in Poland and worldwide.

The candidate is motivated to engage in academic work, prepare research projects, and write academic texts. They have a proven predisposition to teamwork, advanced-level study, and continuous development of their academic skills.

PROFILE OF A GRADUATE OF THE DOCTORAL SCHOOL IN THE DISCIPLINE OF *MANAGEMENT AND QUALITY SCIENCES*

A graduate of the Doctoral School in the discipline of "Management and Quality Sciences" holds a doctoral degree. They have advanced knowledge of Management and Quality Sciences, their role within the system of sciences, their relationships with other fields, and their relevance in the social sciences. Graduates have up-to-date knowledge of management and quality sciences. They know the most essential methodological assumptions, paradigms, sub-disciplines, research areas, and research methods in Management and Quality Sciences. Graduates know the research tools needed to solve innovative research problems, and are familiar with the principles of disseminating scientific results, especially the protection of intellectual property.

Graduates can correctly and creatively identify knowledge gaps, formulate doctoral-level research problems, adopt appropriate methodological assumptions, and select the correct research procedures, methods, and tools for the adopted procedure. They use knowledge from various areas of science, especially social sciences, and critically analyze the results of scientific research and expert work. Graduates can skillfully set priorities for performing research tasks defined by themselves or others, and identify dilemmas and problems related to the allocation of material, human, and financial resources across the economy's various levels of functioning, which can serve as the basis for theoretical analyses and innovative empirical research. They can work on research and project teams, including international teams. They can independently prepare a research proposal, conduct research individually or in a team, prepare an academic essay and paper on a topic within their chosen discipline, and disseminate their research findings in various forms within the national and international academic community, considering current requirements. Graduates are prepared to work in research and development institutions, universities, consulting firms, organizations, and state-owned and private enterprises as high-level managers, as well as to run their own businesses. They always act ethically and are ready to work for the public good.

PRINCIPLES FOR THE VERIFICATION OF LEARNING OUTCOMES FOR QUALIFICATIONS AT LEVEL
8 OF THE POLISH QUALIFICATIONS FRAMEWORK

- MATRIX OF LEARNING OUTCOMES

Resolution No. 131/2018/2019
of the Senate of the University of Economics in Katowice
of September 19, 2019,
on the approval of learning outcomes coverage matrices in the curricula
of the Doctoral School for the scientific disciplines of Economics
and Finance and Management and Quality Sciences

Pursuant to Art. 201 (4) of the Law on Higher Education and Science of July 20, 2018 (Journal of Laws of 2018, item 1668, as amended), the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

The Senate of the University of Economics in Katowice defines the coverage matrices of intended learning outcomes (ILOs) in the curricula of the Doctoral School for the following scientific disciplines:

- 1) Economics and Finance – Appendix No. 1 to the Resolution;
- 2) Management and Quality Science – Appendix No. 2 to the Resolution.

§ 2

The Resolution comes into force on October 1, 2019.

Resolution No. 22/2021/2022
of the Senate of the University of Economics in Katowice
of December 16, 2021,
on the establishment of learning outcomes and curricula
in English as part of the PhD IN ECONOMICS, FINANCE, AND MANAGEMENT
at the Doctoral School

Based on Art. 201 (4) and Art. 28 (1) (12) of the Act of July 20, 2018, Law on Higher Education and Science (i.e. Journal of Laws of 2021, item 478, as amended) and § 24 (1) (18) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

Learning outcomes are defined for qualifications at level 8 of the Polish Qualifications Framework for English-language curricula in the following disciplines:

- 1) **Economics and Finance**, constituting Appendix No. 1 to this Resolution;
- 2) **Management and Quality Sciences**, constituting Appendix No. 2 to this Resolution.

§ 2

English-language curricula are established as part of the **PhD IN ECONOMICS, FINANCE, AND MANAGEMENT** at the Doctoral School in the following disciplines:

- 1) **Economics and Finance**, constituting Appendix No. 3 to this Resolution;
- 2) **Management and Quality Sciences**, constituting Appendix No. 4 to this Resolution.

§ 3

1. The course description cards for the curricula referred to in § 2, included in the system for publishing course description cards, are hereby approved.
2. The Dean of the Doctoral School is obliged to ensure that the course description cards in the system referred to in (1) are up to date and complete.
3. The learning outcomes coverage matrices for the curricula referred to in § 2 are hereby approved.

§ 4

The resolution comes into force on the date of its signing.

President of the Senate
Rector

(-) prof. dr hab. inż. Celina M. Olszak

I. KNOWLEDGE

W01: The graduates of PhD studies know and understand the international academic achievements in the *Economics and Finance* discipline to an extent that allows revision of the existing paradigms, as well as the discipline development tendencies

W02: The graduates of PhD studies know and understand the determinants (e.g., economic, legal, ethical) and methodology of the scientific research in the *economics and finance (ekonomia i finanse)* discipline

W03: The graduates of PhD studies know and understand the fundamental socio-economic dilemmas of contemporary civilization

W04: The graduates of PhD studies know and understand the principles of research results dissemination (including the open access principles), knowledge transfer to the economy and society, commercialization of results, and related know-how

II. SKILLS

U01: The graduates of PhD studies can apply knowledge from different fields, especially from social science, for creative identifying, formulating, and solving complex problems and managing research tasks; in particular, correctly define the objectives and the scope of research, formulate hypotheses, develop research methods, techniques, and tools, applying them creatively, as well as conclude the research results.

U02: The graduates of PhD studies can critically analyze and assess the research results, expert activity, and other creative works, and assess their contribution to knowledge development.

U03: The graduates of PhD studies can discuss specialized socio-economic issues in a scientific and professional environment (also an international one using English at least at B2 level of the Common European Framework of Reference for Languages), including taking part in scientific disputes, initiating the scientific debate, disseminating and popularizing the results of scientific activity, also in an international environment.

U04: The graduates of PhD studies can plan and conduct individual and team research and creative activity, also in an international environment.

U05: The graduates of PhD studies can plan and undertake an activity for self-development as well as inspire and organize the development of others by designing and realizing activities or groups of activities using modern methods and tools.

III. COMPETENCIES

K01: The graduates of PhD studies are ready for a critical assessment of the *economics and finance (ekonomia i finanse)* discipline and their contribution to the discipline.

K02: The graduates of PhD studies, acknowledging the importance of knowledge in solving cognitive and practical problems, are ready to fulfill the social obligations of researchers and inventors, including public interest activities and entrepreneurial thinking and acting

K03: The graduates of PhD studies are ready to maintain and develop the ethos of the scientific community, in particular by conducting research in an independent manner and by respecting the postulate of public rights of their results, as well as including the principles of intellectual property protection.

Resolution No. 21/2023/2024
of the Senate of the University of Economics in Katowice
of December 14, 2023
on establishing curricula in Polish at the Doctoral School
of the University of Economics in Katowice

Based on Art. 201 (4) and Art. 28 (1) (12) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2023, item 742, as amended) and § 24 (1) (18) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

Starting from the academic year 2024/2025, the following curricula in Polish are established at the Doctoral School in the following disciplines:

- 1) Economics and Finance, constituting Appendix No. 1 to the Resolution;
- 2) Management and Quality Sciences, constituting Appendix No. 2 to the Resolution.

§ 2

1. The learning outcome coverage matrices for the curricula referred to in § 1 are hereby approved.
2. The syllabuses for the curricula referred to in § 1, posted in the syllabus publication system, are hereby approved.
3. The Dean of the Doctoral School is obliged to ensure the validity and integrity of the syllabuses in the system referred to in (2).

§ 3

Doctoral students admitted in the academic year 2019/2020, 2020/2021, and 2021/2022 are subject to:

- 1) Resolution No. 78/2018/2019 of the Senate of the University of Economics in Katowice of May 30, 2019, on establishing curricula at the Doctoral School of the University of Economics in Katowice;
- 2) Resolution No. 131/2018/2019 of the Senate of the University of Economics in Katowice of September 19, 2019, on the approval of learning outcome coverage matrices for curricula at the Doctoral School for the scientific disciplines of Economics and Finance, and Management and Quality Sciences.

§ 4

Doctoral students pursuing training programs in Polish, admitted in the academic years 2022/2023 and 2023/2024, are subject to:

- 1) Resolution No. 78/2018/2019 of the Senate of the University of Economics in Katowice of May 30, 2019, on establishing education at the Doctoral School of the University of Economics in Katowice;
- 2) Resolution No. 131/2018/2019 of the Senate of the University of Economics in Katowice of September 19, 2019, on the approval of learning outcome coverage

matrices for curricula at the Doctoral School for the scientific disciplines of Economics and Finance, and Management and Quality Sciences.

§ 5

In connection with the provisions of § 1-4, the learning outcomes introduced by Resolution No. 66/ 2018/2019 of the Senate of the University of Economics in Katowice of March 28, 2019, on the adoption of learning outcomes for qualifications at level 8 of the Polish Qualifications Framework in the disciplines of Management and Quality Sciences, and Economics and Finance, remain unchanged.

§ 6

The resolution comes into force on the date of its signing.

President of the Senate

Rector

(-) prof. dr hab. inż. Celina M. Olszak

I. KNOWLEDGE

W01: Graduates know and understand global achievements in the discipline of *Economics and Finance*, to a degree that enables them to revise existing paradigms, as well as their main development trends. [P8S_WG]

W02: Graduates know and understand the methodology and conditions (including economic, legal, and ethical) of conducting scientific research in the discipline of *Economics and Finance*. [P8S_WG] [P8S_WK]

W03: Graduates know and understand the fundamental socio-economic dilemmas of modern civilization. [P8S_WK]

W04: Graduates know and understand the principles of disseminating scientific results (including through open access), transferring knowledge to the economic and social spheres, and commercializing these results and the associated know-how. [P8S_WG] [P8S_WK]

II. SKILLS

U01: Graduates can apply knowledge from various disciplines, especially the discipline of social sciences, to creatively identify, formulate, and innovatively solve complex problems or perform research tasks, and in particular to correctly: define the purpose and focus of research, formulate research hypotheses, develop research methods, research techniques and tools (applying them creatively), and draw conclusions based on research results. [P8S_UW]

U02: Graduates can critically analyze and evaluate the results of scientific research, expert activities, and other creative works, as well as their contribution to the development of knowledge. [P8S_UW]

U03: Graduates can communicate on specialized socio-economic topics in academic and professional environments, using a foreign language at least at B2 CEFR level, including participation in scientific discourse, initiating scientific debate, disseminating (and popularizing) the results of scientific activity, and transferring them to the economic and social spheres. [P8S_UW] [P8S_UK]

U04: Graduates can plan and carry out individual and team research or creative projects, including in an international environment. [P8S_UO]

U05: Graduates can independently plan and implement activities to support their own development, as well as inspire and organize the development of others, including planning and conducting classes or groups of classes using modern methods and tools. [P8S_UU]

III. COMPETENCIES

K01: Graduates are ready to critically evaluate the achievements of the discipline of *Economics and Finance* and their own contribution to its development. [P8S_KK]

K02: Recognizing the importance of knowledge in solving cognitive and practical problems, graduates are prepared to fulfil the social responsibilities of researchers and creators, including the initiation of activities for the public good, as well as to think and act in an entrepreneurial manner. [P8S_KK] [P8S_KO]

K03: Graduates are prepared to uphold and develop the ethos of scientific communities, in particular by conducting independent research and respecting the principle of public ownership of their results, while complying with the rules of intellectual property protection. [P8S_KR]

DR HAB. JULIA WŁODARCZYK, PROF. UE

Her scientific interests concern the social aspects of economic processes, in particular those involving subjective assessments and perceptions of phenomena such as inflation, monetary integration, income inequality, relative deprivation, and individual well-being. Researcher and manager in numerous scientific studies and projects: "BIDding on climate: Behavioral and Informational Determinants of Pro-Climate Decisions" (BID) (Regional Excellence Initiative); "Changes in the openness of economies in the era of global economic crises and their meso- and macroeconomic consequences" (Intercollegiate Research Grants SGH-UEW-UEK-UEP-UEKat); "Money and prosperity in the process of monetary integration – theoretical concepts and social perception of the lack of neutrality of money" (NCN). Since 2021, Chair of the Scientific Council and Organizing Committee of the International Women's Day Conference in Economics, Finance and Management.

DR HAB. TOMASZ ŻĄDŁO, PROF. UE

His research interests include bootstrap algorithms; small area statistics; representative methods; mixed models. Contractor and manager of a number of scientific projects implemented in inter-university and international research teams, including: "Statistics of foreigners without a census – quality, data integration, and estimation" (grant from the National Science Centre, OPUS 20 competition); grant "Forecasting economic phenomena in subpopulations under conditions of limited information. Simulation assessment of prediction accuracy," as part of the "UEKAT Scientific, Research, and Educational Excellence Program" project funded by the Minister of Science (2024-2026); "Simulation Procedures of Estimators Assessment in R (SPEAR)" awarded by a consortium of 19 European institutions and universities from 14 European Union member states InGRID-2 – Integrating Research Infrastructure for European expertise on Inclusive Growth from data to policy (program funded by the European Union's Horizon 2020 research and innovation program); "Small area statistics in economic research. A model and mixed approach" (NCN grant); "Characteristics of risky and problematic use of the Internet and mobile phones by primary school children" (Ministry of Health grant); "Adaptation and validation of a tool for measuring the risk of problematic mobile phone use by young people" (Ministry of Health grant); "Characteristics of gambling and pathological Internet use among junior high and high school students" (Ministry of Health grant). Section editor of *Mathematical Population Studies* (2014–2018) (JCR); guest co-editor of *Mathematical Population Studies* (vol. 25, no. 4, 2018; together with Professor Enrico Fabrizi) (JCR) (<https://www.tandfonline.com/toc/gmps20/25/4>); guest co-editor of *Mathematical Population Studies* (vol. 21, no. 1, 2014; together with Professor Malay Ghosh) (JCR) (<https://www.tandfonline.com/toc/gmps20/21/1>); elected member of the International Statistical Institute (since 2007); national representative in the International Association of Survey Statisticians (since 2007); member of the Steering Committee of the Baltic-Nordic-Ukrainian Network on Survey Statistics (since 2024); member of the International Association of Survey Statisticians (since 1999). He is a reviewer for many JCR-listed journals, including: *Communications in Statistics – Simulation and Computations*; *Communications in Statistics – Theory and Methods*; *Computational Statistics and Data Analysis*; *International Journal of Environmental Research and Public Health*; *International Statistical Review*; *Journal of Applied Mathematics*; *Journal of Applied Statistics*; *Mathematical Population Studies*; *Mathematics*; *Statistical Methods & Applications*; *Statistical Papers*; *Test*.

**DOCTORAL SCHOOL
AT THE UNIVERSITY OF ECONOMICS IN KATOWICE
SELF-ASSESSMENT REPORT**

APPENDIX

PROFILES OF SELECTED INSTRUCTORS IN THE DOCTORAL SCHOOL IN THE DISCIPLINE OF
MANAGEMENT AND QUALITY SCIENCES

DR HAB. KATARZYNA CZERNEK-MARSZAŁEK, PROF. UE

Her research interests include interorganizational relations – cooperation, coopetition, social relations in business, tourism region management, tourism economics. Contractor and manager of a number of scientific projects, including: "Social relations as a stimulus for organizational innovation – the context of interorganizational cooperation in selected creative sectors" (NCN); "Social roots in interorganizational relations. A comparative study of entrepreneurs in the tourism sector" (NCN); "Analysis of social networks and its application to the study of the conditions for cooperation in a tourist region" (NCN); "Antecedents of dyads and networks in tourism" (NCN). International research cooperation with employees of the University of Innsbruck (Austria). Associate editor of the *Annals of Tourism Research* journal. Collaboration in the form of preparing publications with researchers from international centres, e.g., Scott McCabe (Birmingham Business School), Rodolfo Baggio (Bocconi University) and professionals (Brendan Richards, Vice President, Marketing Analytics, Delaware North, Las Vegas, NV, United States).

PROF. DR HAB. MACIEJ MITRĘGA

His research interests include dynamic capabilities and strategies in various contexts, levels, and dimensions, marketing, and research methodology. He specializes in issues related to the dynamic capabilities of entire organizations, individuals, institutions, and networks; business relationships; business networks; networking; and contemporary consumer behavior. Contractor and manager of a number of scientific projects implemented in inter-university and international research teams, including: "Power management in asymmetric buyer-seller relationships in the business-to-business market" (NCN); "Dynamic marketing capabilities of manufacturing companies" (NCN); "Developing business relationships by SMEs in a cross-cultural environment" (funded by the European Commission under the Marie Curie Actions - PEOPLE program). International collaboration with employees: University of Vaasa, Finland; University of Jyväskylä, Finland; Fundação Dom Cabral, Brazil; Indian Institute of Management-Lucknow, India. Member of the Permanent Panel of the National Science Centre's HS Panel in 2021-2022, as well as an expert in the evaluation panels of the National Science Centre's HS4 Panel in 2018-2020. Expert of the Science Evaluation Committee operating at the Department of Science, Ministry of Science and Higher Education.

ADMISSIONS COMMITTEE MEMBERS DURING THE PERIOD COVERED BY THE EVALUATION WITH
JUSTIFICATION FOR THIS SELECTION IN THE CONTEXT OF GUARANTEEING AND ENSURING
A HIGH STANDARD OF THE ADMISSIONS PROCESS

Order No. 42/19

of May 13, 2019, of the Rector of the University of Economics in Katowice on the appointment of the Admissions Committee for the Doctoral School for the academic year 2019/2020

Based on Art. 23 (1) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2018, item 1668, as amended), § 51 (4) and § 81 (3) of the Statute of the University of Economics in Katowice, § 4 (1) of Resolution No. 67/2018/2019 of the Senate of the University of Economics in Katowice of March 28, 2019, on the Rules of admission to the Doctoral School for the first year of studies in the academic year 2019/2020, ***I hereby order*** as follows:

§ 1

I hereby appoint the Admissions Committee for the Doctoral School for the academic year 2019/2020, including the following members:

1. prof. dr hab. Grzegorz Kończak	- chair;
2. dr hab. Izabela Ostoj, prof. UE	- deputy chair;
3. dr hab. Andrzej Bajdak, prof. UE	- member;
4. dr hab. Marzena Strojek-Filus, prof. UE	- member;
5. mgr Krzysztof Wąsek doktorant	- member;
6. mgr Anna Maniura	- secretary.

§ 2

The Order comes into force on the date of its signing.

Rector

dr hab. Robert Tomanek, prof. UE

Order No. 45/19

of May 22, 2019, of the Rector of the University of Economics in Katowice on the appointment of the Admissions Committee for the Doctoral School for the academic year 2019/2020

Based on Art. 23 (1) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2018, item 1668, as amended), § 51 (4) of the Statute of the University of Economics in Katowice, § 4 (1) Resolution No. 67/2018/2019 of the Senate of the University of Economics in Katowice of March 28, 2019, on the Rules of admission to the Doctoral School for the first year of studies in the academic year 2019/2020, **I hereby order** as follows::

§ 1

I hereby appoint the Admissions Committee for the Doctoral School for the academic year 2019/2020, including the following members:

- 1) prof. dr hab. Grzegorz Kończak;
- 2) dr hab. Izabela Ostoj, prof. UE;
- 3) dr hab. Andrzej Bajdak, prof. UE;
- 4) dr hab. Marzena Strojek-Filus, prof. UE;
- 5) mgr Krzysztof Wąsek;
- 6) mgr Anna Maniura.

§ 2

Order No. 42/19 of May 13, 2019, of the Rector of the University of Economics in Katowice on the appointment of the Admissions Committee for the Doctoral School for the academic year 2019/2020 is hereby repealed.

§ 3

The Order comes into force on the date of its signing.

Rector

dr hab. Robert Tomanek, prof. UE

Order No. 40/20

of April 1, 2020, of the Rector of the University of Economics in Katowice on the appointment of the Admissions Committee for the Doctoral School for the academic year 2020/2021

Based on Art. 23 (1) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2020, item 85, as amended), § 19 of the Statute of the University of Economics in Katowice, in connection with § 4 (1) of Resolution No. 60/ 2019/2020 of the Senate of the University of Economics in Katowice of February 27, 2020, on the Rules of admission to the Doctoral School for the first year of studies in the academic year 2020/2021, **I hereby order** as follows:

§ 1

I hereby appoint the Admissions Committee for the Doctoral School for the academic year 2020/2021, including the following members:

1. prof. dr hab. Maciej Nowak;
2. dr hab. Wiesław Koczur, prof. UE;
3. dr hab. Izabela Sztangret, prof. UE;
4. dr hab. Marzena Strojek-Filus, prof. UE;
5. doktorant Krzysztof Wąsek;
6. mgr Anna Maniura.

§ 2

The Order comes into force on the date of its signing.

Rector

dr hab. Robert Tomanek, prof. UE

Order No. 29/21

of March 25, 2021, of the Rector of the University of Economics in Katowice on the appointment of the Admissions Committee for the Doctoral School for the academic year 2021/2022

Based on Art. 23 (1) of the Act of July 20, 2013, Law on Higher Education and Science (Journal of Laws of 2021, item 478), § 19 of the Statute of the University of Economics in Katowice, in connection with § 4 (1) of Resolution No. 41/2020/ 2021 of the Senate of the University of Economics in Katowice of December 17, 2020, on the Rules of admission to the Doctoral School for the first year of studies in the academic year 2021/2022, ***I hereby order*** as follows:

§ 1

I hereby appoint the Admissions Committee for the Doctoral School for the academic year 2021/2022, including the following members:

- 1) dr hab. Małgorzata Dziembała, prof. UE;
- 2) dr hab. Monika Kulikowska-Pawlak, prof. UE;
- 3) dr hab. Marzena Strojek-Filus, prof. UE;
- 4) dr hab. Tomasz Wachowicz, prof. UE;
- 5) doktorantka mgr Monika Kamińska;
- 6) mgr Anna Maniura.

§ 2

The Order comes into force on the date of its signing.

Rector

prof. dr hab. inż. Celina M. Olszak

Order No. 35/22

of March 29, 2022, of the Rector of the University of Economics in Katowice on the appointment of the Admissions Committee for the Doctoral School for the academic year 2022/2023

Based on Art. 23 (1) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2022, item 574, as amended), § 15 of the Statute of the University of Economics in Katowice, in connection with § 4 (3) of Resolution No. 34/ 2021/2022 of the Senate of the University of Economics in Katowice of January 27, 2022 on the Rules of admission to the Doctoral School for the first year of studies in the academic year 2022/2023, **I hereby order** as follows:

§ 1

I hereby appoint the Admissions Committee for the Doctoral School for the academic year 2022/2023, including the following members:

- 1) dr hab. Małgorzata Dziembała, prof. UE;

- 6) mgr Anna Maniura.

§ 2

The Order comes into force on the date of its signing.

Rector

(-) prof. dr hab. inż. Celina M. Olszak

JUSTIFICATION FOR THE SELECTION OF ADMISSIONS COMMITTEE MEMBERS IN THE CONTEXT OF ENSURING HIGH RECRUITMENT STANDARDS

During the period covered by the evaluation, the members of the admissions committees are appointed by the Rector by means of an order. According to the resolutions of the Senate on the rules of admission to the Doctoral School for the first year of study, the admissions committee consists of: 1) University employees with a degree of "doktor habilitowany" or the title of professor or an equivalent degree or title representing the scientific disciplines in which the Doctoral School's curricula are implemented; 2) a representative of doctoral students appointed by the Doctoral Student Council; 3) a representative of Admissions. In current practice, the committee has so far consisted of two University employees representing each of the two scientific disciplines in which training is conducted at the Doctoral School. This ensures that the assessment is carried out with an appropriate proportion of employees from both disciplines in which the recruitment process for the Doctoral School is conducted.

**DOCTORAL SCHOOL
AT THE UNIVERSITY OF ECONOMICS IN KATOWICE
SELF-ASSESSMENT REPORT**

APPENDIX

RULES FOR ADMISSION TO THE DOCTORAL SCHOOL APPLICABLE DURING THE PERIOD
COVERED BY THE EVALUATION

Resolution No. 67/2018/2019
of the Senate of the University of Economics in Katowice
of March 28, 2019,
on the conditions and admission procedure to the Doctoral School
for the first year of study in the academic year 2019/2020

Based on Art. 200 (2) of the Act of July 20, 2018, Law on Higher Education and Science (Journal of Laws of 2018, item 1668, as amended) and Order No. 19/19 of March 7, 2019, of the Rector of the University of Economics in Katowice on the establishment of a Doctoral School at the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

A person who holds a master's degree, a master's degree in engineering or an equivalent degree, or a person referred to in Art. 186 (2) of the Act of July 20, 2018, Law on Higher Education and Science (Journal of Laws of 2018, item 1668, as amended), hereinafter referred to as the Act, may be admitted to the Doctoral School.

§ 2

1. Admission of a candidate to the Doctoral School for the first year of studies takes place through a competition, based on the results of the qualification procedure referred to in § 6 of this Resolution.
2. The electronic application form for admission to the first year of studies must be completed by the applicant, indicating the chosen academic discipline.

§ 3

1. Candidates for the Doctoral School must submit the following documents to Admissions:
 - a) application for admission to the Doctoral School in the form of a printout from the online recruitment system;
 - b) CV;
 - c) cover letter;
 - d) a copy of the master's degree diploma or a certificate of passing the master's exam (until a copy is provided), subject to (2);
 - e) preliminary outline of the research project, including topic, research objective, research hypotheses, research framework, research methods, expected benefits of the research, and a list of references;
 - f) 1 photograph – according to the requirements applicable to the issuance of identity cards;
 - g) documents certifying knowledge of a modern foreign language at least at B2 level (certificate or diploma of completion of studies);
 - h) a list of publications and other scientific and research achievements, together with documents certifying them;
 - i) documents certifying additional qualifications relevant to the planned doctoral dissertation.
2. A candidate who has obtained a master's degree abroad shall submit the following:
 - a) original diploma;
 - b) translation of the diploma into Polish, certified by authorized persons or institutions;
 - c) document confirming the recognition of the diploma or a certificate of exemption from the recognition procedure, if required.
3. A candidate must submit a complete set of documents for admission to the Doctoral

School within the deadline specified in the recruitment announcement. Documents submitted after this deadline will not be considered. The date of submission of documents is understood to be the date on which the University receives the documents.

§ 4

1. The selection process is conducted by the admissions committee, appointed by the Rector by means of an order.
2. The admissions committee shall elect a chair, vice-chair, and secretary from among its members.
3. Minutes shall be taken of the admissions committee meetings.

§ 5

The tasks of the admissions committee include, in particular:

- a) setting dates related to the qualification procedure;
- b) establishing detailed evaluation criteria and awarding points to candidates in the qualification procedure, according to the provisions of § 6;
- c) analyzing documents submitted during the qualification process;
- d) conducting interviews;
- e) preparing a ranking list based on the number of points obtained by candidates in the qualification procedure;
- f) determining the minimum number of points required for admission;
- g) notifying candidates of the outcome of the qualification procedure.

§ 6

1. Admission to the Doctoral School is based on the number of points obtained by the candidate in the qualification procedure, but not less than 50% of the points referred to in (2).
2. A candidate can obtain a maximum of 85 points in the qualification procedure.
3. The qualification procedure includes:
 - a) evaluation of submitted documents, taking into account:
 - final grade from graduate studies (excellent [A] – 10 points, very good+ [B] – 7 points, good [C] – 4 points, satisfactory+ [D] – 2 points, satisfactory [E] – 1 point);
 - compatibility of higher education with the scientific disciplines in which education is provided at the Doctoral School (10 points);
 - compatibility of supplementary education with the scientific disciplines studied at the Doctoral School (5 points);
 - knowledge of a foreign language (5 points per language, no more than two foreign languages – a total of no more than 10 points), with only documented knowledge of a foreign language based on the documents referred to in § 1 [g] being awarded points);
 - b) evaluation of scientific achievements, taking into account:
 - publications and scientific and research achievements in the scientific discipline declared by a candidate, including active participation in conferences (maximum 15 points);
 - research project outline (maximum 15 points);
 - c) an interview during which the candidate's skills and predisposition for academic work are assessed (maximum 20 points).
4. Members of the admissions committee participating in the interview with a candidate shall evaluate them according to the provisions of (3) (b) and (c).

5. The final result of the qualification procedure is calculated as the arithmetic mean of the scores obtained by a candidate in the qualification procedure according to (3) and (4).
6. If the number of applicants who meet the criteria referred to in (1) exceeds the limit set by the Senate, those applicants who have obtained the highest number of points in the qualification procedure shall be admitted until the limit is reached.
7. If two or more candidates who have obtained the same number of points in the selection procedure are ranked last due to the limited number of places available, the following additional criteria shall apply:
 - a) a higher ranking is awarded to the person who has obtained a higher number of points as a result of the evaluation of the research project outline;
 - b) if the application of the criterion referred to in (a) does not clearly determine the order, a higher ranking shall be given to the person who has obtained more points for publications and scientific and research achievements;
 - c) if the criteria specified in (a) and (b) are not conclusive, a higher ranking shall be given to the person who has obtained a higher number of points for skills and predisposition for scientific work according to the provisions of (3) (c).
8. Admission to the Doctoral School takes place through entry on the doctoral student list, based on a ranking list.
9. If, after the selection process for the Doctoral School, the limit on places set by the Senate is not reached, the Rector may decide to conduct a supplementary admission process.
10. If a person with disabilities applies for admission to the Doctoral School, the admissions committee should, at the candidate's request, apply a different procedure for conducting the admissions interview, taking into account the degree and type of disability and the specific nature of the scientific discipline in question.

§ 7

A decision to refuse admission to the Doctoral School may be appealed within 14 days of the date of delivery of the decision.

§ 8

The resolution comes into force on the date of its signing.

President of the Senate
Rector

dr hab. Robert Tomanek, prof. UE

Resolution No. 60/2019/2020
of the Senate of the University of Economics in Katowice
of February 27, 2020,
on the rules of admission to the Doctoral School for the first year of studies
in the academic year 2020/2021

Pursuant to Art. 200 (2) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2020, item 85) and § 24 (14) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice resolves as follows:

§ 1

The Doctoral School may admit a person who holds a professional degree of master of science, master of engineering, or equivalent, or a person referred to in Art. 186 (2) of the Law of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2020, item 85).

§ 2

1. Admission of a candidate to the Doctoral School for the first year of studies is performed by means of a competition, based on the results of the qualification procedure referred to in § 6 of the following Resolution.
2. A candidate applying for admission to the first year of studies completes the electronic application form, indicating the chosen scientific discipline.

§ 3

1. A candidate for the Doctoral School is required to submit the following documents in paper form to the Admissions Office:
 - 1) application for admission to the Doctoral School in the form of a printout from the online recruitment system;
 - 2) CV;
 - 3) cover letter;
 - 4) a copy of the master's degree diploma together with a supplement or other document specifying the education program, a certificate of passing the master's exam (until a copy is provided), subject to (2);
 - 5) outline of a research project including: a topic, a clearly identified research gap, a research area, a research problem and objective, research methods, and a literature list. The outline should contain a preliminary plan, expected benefits of the research, and the work timetable for the dissertation;
 - 6) 1 photograph – according to the requirements applicable to the issuance of identity cards;
 - 7) documents confirming the knowledge of a modern foreign language at a proficiency level of at least B2 (certificate or diploma of graduation);
2. Along with the documents referred to in (1), a candidate may also submit:
 - 1) a list of publications and other scientific and research achievements, together with documents certifying them and indicating the number of points awarded for a given publication, according to the List of scientific journals and peer-reviewed materials from international conferences published in a notice by the Minister of Science and Higher Education in the year in which the publication appeared;

- 2) documents certifying additional qualifications relevant to the planned doctoral dissertation.
3. A candidate who has obtained a master's degree abroad shall submit the following:
 - 1) the original diploma, together with a supplement or other document specifying the curriculum;
 - 2) translation into Polish of the documents referred to in (1), confirmed by authorized persons or institutions;
 - 3) document confirming the recognition of the diploma, if required.
4. A candidate is required to submit a set of documents for admission to the Doctoral School by the deadline contained in the admissions announcement. Documents submitted after the deadline shall be left without consideration. The date of submission of documents is understood as the date the University receives the documents.
5. If a foreigner applying for admission to the Doctoral School has documents confirming their knowledge of Polish at the level of language proficiency of at least B2, they may attach them to the documents referred to in (1)-(3).

§ 4

1. The qualification procedure is performed by an admissions committee appointed by the Rector by means of an order.
2. The admissions committee selects a chair, vice-chair, and secretary from among its members.
3. Minutes shall be taken of the admissions committee meetings.
4. The qualification procedure shall be conducted in Polish, subject to (5).
5. Members of the admissions committee may conduct part of the admissions procedure in the language referred to in § 3 (1) (7); in this case, the admissions committee shall include the scope of the interview conducted in a foreign language in the announcement of the interview date.

§ 5

The tasks of the admissions committee include, in particular:

- 1) establishment of deadlines related to the qualification procedure;
- 2) establishment of detailed evaluation criteria and awarding points to candidates in the qualification procedure, according to § 6;
- 3) analysis of documents submitted in the qualification procedure;
- 4) conducting interviews;
- 5) preparation of a ranking list based on the number of points obtained by candidates in the qualification procedure;
- 6) determination of the minimum number of points qualifying for admission;
- 7) notification of the candidates regarding the results of the admissions procedure.

§ 6

1. Admission to the Doctoral School is based on the number of points obtained by a candidate during the qualification procedure, but it must be no less than 50% of the points referred to in (2).
2. A candidate can obtain a maximum of 85 points in the qualification procedure.
3. The qualification procedure includes:
 - 1) evaluation of submitted documents, taking into account:
 - a) final grade from graduate studies (excellent [A] – 10 points, very good+ [B] – 7 points, good [C] – 4 points, satisfactory+ [D] – 2 points, satisfactory [E] – 1 point);
 - b) compatibility of higher education with the scientific disciplines in which education is provided at the Doctoral School (10 points);
 - c) compatibility of supplementary education with the scientific disciplines studied at the Doctoral School (5 points);
 - d) knowledge of a foreign language (5 points for the language listed in § 3 (1) (7) at a level higher than B2 and 5 points for each additional foreign language at a level of at least B2 up to a total of 10 points), with only documented knowledge of a foreign language being awarded points;
 - 2) evaluation of scientific achievements, taking into account scientific and research achievements in the scientific discipline declared by the candidate (maximum 30 points), including:
 - a) research project outline (maximum 15 points), referred to in § 3 (1) (5);
 - b) publications included in the List of scientific journals and peer-reviewed materials from international conferences published by the Minister of Science and Higher Education, or a chapter in a monograph published by a publisher that publishes peer-reviewed scientific monographs according to the published Announcement of the Minister of Science and Higher Education on the list of publishers publishing peer-reviewed scientific monographs – maximum 6 points;
 - c) participation in research projects – maximum 3 points;
 - d) active participation in conferences – maximum 3 points;
 - e) other scientific publications – maximum 3 points;
 - 3) an interview during which the candidate's skills and predisposition for academic work are assessed (maximum 20 points).
4. Members of the admissions committee participating in an interview with a candidate shall evaluate them according to the provisions of (3).
5. The final result of the qualification procedure is calculated as the arithmetic mean of the scores obtained by a candidate, according to (3) and (4).
6. Based on the results of the qualification procedure, the committee prepares a ranking list.
7. If the number of applicants who meet the criteria referred to in (1) exceeds the limit set by the Senate, those applicants who have obtained the highest number of points in the qualification procedure shall be admitted until the limit is reached.
8. If two or more candidates who have obtained the same number of points in the selection procedure are ranked last due to the limited number of places available, the following additional criteria shall apply:
 - 1) a higher ranking is awarded to the person who has obtained a higher number of points as a result of the evaluation of the research project outline;

- 2) if the application of the criterion referred to in (1) does not clearly determine the order, a higher ranking shall be given to the person who has obtained more points for publications and scientific and research achievements, according to (3) (2);
 - 3) if the criteria specified in (1) and (2) are not conclusive, a higher ranking shall be given to the person who has obtained a higher number of points for skills and predisposition for scientific work according to the provisions of (3) (3).
9. If, after the selection process for the Doctoral School, the limit on places set by the Senate is not reached, the Rector may decide to conduct a supplementary admission process.
 10. If a person with disabilities applies for admission to the Doctoral School, the admissions committee should, at the candidate's request, apply a different procedure for conducting the admissions interview, taking into account the degree and type of disability and the specific nature of the scientific discipline in question.

§ 7

1. Based on the ranking list referred to in § 6 (6), the Rector shall enter the candidate on the list of doctoral students or refuse admission to the Doctoral School.
2. A decision to refuse admission to the Doctoral School may be appealed within 14 days of the date of delivery of the decision.

§ 8

The resolution comes into force on the date of its signing.

President of the Senate
Rector

dr hab. Robert Tomanek, prof. UE

Resolution No. 41/2020/2021
of the Senate of the University of Economics in Katowice
of December 17, 2020,
on the rules of admission to the Doctoral School for the first year of studies
in the academic year 2021/2022

Pursuant to Art. 200 (2) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2020, item 85) and § 24 (14) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice resolves as follows:

§ 1

The Doctoral School may admit a person who holds a professional degree of master of science, master of engineering, or equivalent, or a person referred to in Art. 186 (2) of the Law of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2020, item 85).

§ 2

1. Admission of a candidate to the Doctoral School for the first year of studies is performed by means of a competition, based on the results of the qualification procedure referred to in § 6.
2. A candidate applying for admission to the first year of studies completes the electronic application form, indicating the chosen scientific discipline.

§ 3

1. A candidate for the Doctoral School is required to submit the following documents to the Admissions Office:
 - 1) application for admission to the Doctoral School in the form of a printout from the online recruitment system;
 - 2) CV;
 - 3) cover letter;
 - 4) copies of the master's degree diploma and supplement or other document specifying the curriculum, certified by the university or a notary public as true copies of the originals, or a certificate of passing the master's exam (until a copy is provided), subject to (3);
 - 5) a preliminary outline of the research project, including the topic, a clearly identified research gap, the research area, the research problem and objective, possibly research questions, and a list of references. The outline may also include research hypotheses, a preliminary plan, research methods, and the expected benefits of the research;
 - 6) documents confirming the knowledge of a modern foreign language at a proficiency level of at least B2 (certificate or diploma of graduation).
2. Along with the documents referred to in (1), a candidate may also submit:
 - 1) a list of publications and other scientific and research achievements, together with documents certifying them and indicating the number of points awarded for a given publication, according to the List of scientific journals and peer-reviewed materials from international conferences published in a notice by the Minister of Science and Higher Education in the year in which the publication appeared;

- 2) documents certifying additional qualifications relevant to the planned doctoral dissertation.
3. A candidate who has obtained a master's degree abroad shall submit the following:
 - 1) certified true copy of the diploma and supplement or other document specifying the curriculum, certified by the university or a notary public;
 - 2) translation into Polish of the documents referred to in (1), confirmed by authorized persons or institutions;
 - 3) a copy of the document confirming the recognition of the diploma, certified by the university or a notary public as a certified true copy of the original, if required.
4. A candidate is required to submit a set of documents for admission to the Doctoral School by the deadline contained in the admissions announcement. Documents submitted after the deadline shall be left without consideration. The date of submission of documents is understood as the date the University receives the documents.
5. If a foreigner applying for admission to the Doctoral School has documents confirming their knowledge of Polish at the level of language proficiency of at least B2, they may attach them to the documents referred to in (1)-(3).
6. The Rector may decide to accept documents exclusively in electronic form, via the online admissions system.

§ 4

1. The qualification procedure is performed by an admissions committee appointed by the Rector by means of an order.
2. The admissions committee selects a chair, vice-chair, and secretary from among its members.
3. Minutes shall be taken of the admissions committee meetings.
4. The qualification procedure shall be conducted in Polish, subject to (5).
5. Members of the admissions committee may conduct part of the admissions procedure in the language referred to in § 3 (1) (6); in this case, the admissions committee shall include the scope of the interview conducted in a foreign language in the announcement of the interview date.
6. The admissions committee chair may recuest the Foreign Language Center to review the documents referred to in § 3 (1) (6).

§ 5

The tasks of the admissions committee include, in particular:

- 1) establishment of deadlines related to the qualification procedure;
- 2) establishment of detailed evaluation criteria and awarding points to candidates in the qualification procedure, according to § 6;
- 3) analysis of documents submitted in the qualification procedure;
- 4) conducting interviews;
- 5) preparation of a ranking list based on the number of points obtained by candidates in the qualification procedure;
- 6) determination of the minimum number of points qualifying for admission;
- 7) notification of the candidates regarding the results of the admissions procedure.

§ 6

1. Admission to the Doctoral School is based on the number of points obtained by a candidate during the qualification procedure, but it must be no less than 50% of the points referred to in (2).
2. A candidate can obtain a maximum of 100 points in the qualification procedure.
3. The qualification procedure includes:
 - 1) evaluation of submitted documents (maximum 35 points), taking into account:
 - a) final grade from graduate studies (excellent [A] – 10 points, very good+ [B] – 7 points, good [C] – 4 points, satisfactory+ [D] – 2 points, satisfactory [E] – 1 point),
 - b) compatibility of higher education with the scientific disciplines in which education is provided at the Doctoral School (10 points),
 - c) compatibility of supplementary education with the scientific disciplines studied at the Doctoral School (5 points),
 - d) knowledge of a foreign language (5 points for the language listed in § 3 (1) (6) at a level higher than B2 and 5 points for each additional foreign language at a level of at least B2, up to a total of 10 points), with only documented knowledge of a foreign language being awarded points;
 - 2) evaluation of scientific achievements, taking into account scientific and research achievements in the scientific discipline declared by the candidate (maximum 15 points), including:
 - a) publications included in the List of scientific journals and peer-reviewed materials from international conferences published by the Minister of Science and Higher Education, or a chapter in a monograph published by a publisher that publishes peer-reviewed scientific monographs according to the published Announcement of the Minister of Science and Higher Education on the list of publishers publishing peer-reviewed scientific monographs – maximum 6 points,
 - b) participation in research projects – maximum 3 points,
 - c) active participation in conferences – maximum 3 points,
 - d) other scientific publications – maximum 3 points;
 - 3) an interview during which the candidate's skills and predisposition for academic work are assessed (maximum 30 points);
 - 4) evaluation of the research project outline (maximum 20 points) referred to in § 3 (1) (5).
4. Members of the admissions committee shall conduct their assessment according to the provisions of (3), with only members of the admissions committee who hold a postdoctoral degree or the academic title of professor participating in the selection process specified in (3) (3) and (4).
5. The final result of the qualification procedure is calculated as the sum of the arithmetic means of the scores obtained by the candidate in the qualification procedure. The arithmetic means are determined separately for each criterion specified in (3) (1)-(4).
6. Based on the results of the qualification procedure, the admissions committee prepares a ranking list.
7. If the number of applicants who meet the criteria referred to in (1) exceeds the limit set by the Senate, those applicants who have obtained the highest number of points in the qualification procedure shall be admitted until the limit is reached.

8. If two or more candidates who have obtained the same number of points in the selection procedure are ranked last due to the limited number of places available, the following additional criteria shall apply:
 - 1) a higher ranking is awarded to the person who has obtained a higher number of points as a result of the evaluation of the research project outline;
 - 2) if the application of the criterion referred to in (1) does not clearly determine the order, a higher ranking shall be given to the person who has obtained more points for publications and scientific and research achievements, according to (3) (2);
 - 3) if the criteria specified in (1) and (2) are not conclusive, a higher ranking shall be given to the person who has obtained a higher number of points for skills and predisposition for scientific work according to the provisions of (3) (3).
9. If, after the selection process for the Doctoral School, the limit on places set by the Senate is not reached, the Rector may decide to conduct a supplementary admission process.
10. If a person with disabilities applies for admission to the Doctoral School, the admissions committee should, at the candidate's request, apply a different procedure for conducting the admissions interview, taking into account the degree and type of disability and the specific nature of the scientific discipline in question.

§ 7

1. Based on the ranking list referred to in § 6 (6), the Rector shall enter the candidate on the list of doctoral students or refuse admission to the Doctoral School.
2. A decision to refuse admission to the Doctoral School may be appealed within 14 days of the date of delivery of the decision.

§ 8

The resolution comes into force on the date of its signing.

President of the Senate
Rector

prof. dr hab. inż. Celina M. Olszak

Resolution No. 34/2021/2022
of the Senate of the University of Economics in
Katowice of January 27, 2022
on the rules of admission to the Doctoral School for the first year of studies
in the academic year 2022/2023

Pursuant to Art. 200 (2) of the Act of July 20, 2018 - Law on Higher Education and Science (i.e. Journal of Laws of 2021, item 478, as amended) and § 24 (1) (16) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

A person may be admitted to the Doctoral School if they hold the professional title of master of science, master of engineering or equivalent, or if they are a person referred to in Art. 186 (2) of the Act of July 20, 2018 - Law on Higher Education and Science (i.e. Journal of Laws of 2021, item 478, as amended).

§ 2

1. Candidates are accepted for the first year of studies at a Doctoral School through a competition based on the results of the qualification procedure referred to in § 6. The results of the competition are available to the public.
2. A candidate applying for admission to the first year of studies shall complete an electronic application form available in the online candidate registration system, and indicate the study program and the chosen academic discipline as referred to in (3).
3. The following are taught at the Doctoral School :
 - 1) Study programs in Polish in the following disciplines:
 - a) Economics and Finance,
 - b) Management and Quality Sciences;
 - 2) study programs in English in the following disciplines:
 - a) Economics and Finance,
 - b) Management and Quality Sciences.

§ 3

1. A candidate for admission to the Doctoral School is required to submit the following documents in hard copy to the Admissions:
 - 1) application for admission to the Doctoral School in the form of a printout from the online candidate registration system;
 - 2) academic CV in accordance with the template published on the University's website;
 - 3) cover letter containing a description of predispositions and motivation for undertaking scientific work;
 - 4) copies of the master's degree diploma, certified by the University or a notary public to be a true copy of the original, and a supplement or other document specifying the curriculum or a certificate of completion of the second-cycle or uniform master's degree program (until a copy of the diploma is provided), subject to (6);
 - 5) outline of the research project, including topic, clearly identified research gap, research area, research problem and objective, research methods, literature list. The outline should include a preliminary plan, expected benefits of the research, and a work timetable for the dissertation;

- 6) documents confirming the command of a modern foreign language at the language proficiency level of at least B2, subject to (3).
2. The documents referred to in (1) (6) may be evidence of achieving language proficiency at a level of at least B2:
 - 1) certificate or
 - 2) higher education diploma.
3. In the case of a candidate who indicated a study program referred to in § 2 (3) (2), the documents should certify knowledge of English at a language proficiency level of at least B2. These documents are not required from a candidate who is a native speaker of English, a citizen of a country where English is the official language, or a person who has completed a degree program taught in English.
4. The documents referred to in (1) (6) are not required from a candidate for whom a foreign language is the native language or who is a citizen of a country in which a foreign language is the official language, as well as persons who have completed studies conducted in a modern foreign language.
5. Together with the documents referred to in (1), the candidate may submit:
 - 1) a list of publications and other scientific and research achievements, together with documents confirming these achievements.
 - 2) documents confirming additional qualifications relevant to the candidate's future doctoral dissertation,
 - 3) a letter of recommendation from a research or research and teaching staff member who has experience in scientific and research cooperation with the candidate, indicating the nature and form of this cooperation.
6. For candidates who have obtained a degree diploma from a higher education institution outside the Republic of Poland, Arts. 326 and 327 of the Law on Higher Education and Science shall apply accordingly, with the proviso that:
 - 1) in the case of diplomas conferring the right to apply for the award of the doctoral degree in the country in whose higher education system the institution awarding the diploma operates, a candidate shall submit the legalized or apostilled copies of their diploma, together with a supplement or other document specifying the program's curriculum, certified by the University or by a notary public to be a true copy of the original,
 - 2) in the case of diplomas or documents confirming the completion of higher education studies abroad and prepared in a language other than English or Polish, a candidate shall additionally provide their sworn translation into Polish or English,
 - 3) In the event of a lack of the documents referred to in (1), the candidate is obliged to submit a statement confirming that they will provide legalized or apostilled documents by the date indicated in the schedule of admission proceedings.
7. A candidate is obliged to submit a set of documents for admission to the Doctoral School within the deadline included in the admission announcement. Documents submitted after this deadline will not be considered. The date of submission of the documents is the date of their receipt by the University.

8. A foreigner applying for admission to the Doctoral School who has chosen the study program referred to in § 2 (3) (1) shall attach documents confirming the command of the Polish language at a language proficiency level of at least B2. During the interview, a foreign candidate who does not possess such a document may receive confirmation that their level of proficiency in Polish is sufficient for commencing education at the Doctoral School.
9. For candidates who have chosen the study program referred to in § 2 (3) (2), the documents referred to in § 3 (1) (1)-(3), (5) and § 3 (5) are to be submitted in English.
10. During the admission procedure, the Rector may decide that candidates submit their documents in electronic form via the online candidate registration system, subject to the provisions of (11).
11. Should the procedure specified in (10) not be applied, the Rector, in justified cases and upon the candidate's individual request, may allow the candidate to provide scanned documents in electronic form via the online candidate registration system. The application should be submitted by the date specified in the schedule referred to in § 5 (2).
12. In cases referred to in (10) and (11), the candidate is required to provide original documents by the day before the start of the academic year, in accordance with the academic year timetable.

§ 4

1. The qualification procedure is conducted at the University.
2. The qualification procedure may be conducted using electronic messaging.
3. The qualification procedure shall be conducted by an admissions committee appointed by the Rector by means of an order by March 31, 2022.
4. The admissions committee shall consist of:
 - 1) employees of the University, with the degree of *doktor habilitowany* or with the title of professor or with the equivalent degree or title, representing scientific disciplines within the framework of which study programs are implemented at the Doctoral School,
 - 2) a representative of doctoral students designated by the Doctoral Student Government,
 - 3) a representative of the Admissions Office.
5. The admissions committee shall elect a chair, deputy chair, and secretary from among its members.
6. The meeting of the admissions committee may be attended in an advisory capacity by an expert in the discipline in which education is provided at the Doctoral School, whose tasks include, in particular, the assessment of the submitted outline referred to in § 3 (1) (5).
7. The minutes of the admissions committee's meeting shall be taken.
8. In the case of candidates who have selected a study program, referred to in:
 - 1) § 2, (3) (1), the qualification procedure is conducted in Polish, subject to (9),
 - 2) § 2, (3) (2), the qualification procedure is conducted in English.
9. Members of the admissions committee may conduct part of the interview in the language referred to in § 3 (1) (6). In such a case, the admissions committee shall provide information about the scope of the interview in a foreign language in the announcement of the interview date.

10. The chair of the admissions committee may request the Foreign Language Center to verify the documents referred to in § 3 (1) (6) and § 3 (2).

§ 5

1. The tasks of the admissions committee shall include, in particular:
 - 1) establishing deadlines related to the qualification procedure;
 - 2) setting detailed assessment criteria and awarding points to candidates in the qualification procedure, in accordance with the provisions of § 6;
 - 3) analyzing the documents submitted in the qualification procedure;
 - 4) conducting interviews;
 - 5) preparing a ranking list based on the number of points obtained by candidates in the qualification procedure;
 - 6) determining the minimum number of points qualifying for admission;
 - 7) informing candidates of the result of the qualification procedure.
2. The admissions committee shall set a schedule for the admissions process by April 30, 2022.

§ 6

1. A candidate is admitted to the Doctoral School based on the number of points achieved in the qualification procedure, however, not less than 50% of the points referred to in (2).
2. A candidate may obtain a maximum of 100 points in the qualification procedure, including for the assessment of:
 - 1) compatibility of the education with the scientific disciplines in which the study program is implemented at the Doctoral School – max. 10 points;
 - 2) academic achievements – max. 10 points;
 - 3) outline of the research project – max. 30 points;
 - 4) interview – max. 45 points;
 - 5) recommendation letter – 5 points.
3. The assessment referred to in (2) (3) shall concern:
 - 1) formulation of the research problem, including its originality and relevance, and its theoretical grounding in the literature;
 - 2) proposed method for solving the research problem, including the methodology and work schedule for the dissertation.
4. The assessment referred to in (2) (4) shall concern:
 - 1) candidate's motivation and competencies to undertake scientific work;
 - 2) candidate's knowledge of research issues specific to the discipline indicated by the candidate.
5. In the case of the assessment referred to in (2) (1), a candidate may be granted the following for compatibility of:
 - 1) higher education – max. 8 points;
 - 2) supplementary education – max. 2 points.
6. In the case of the assessment referred to in (2) (2), a candidate may obtain the following for:
 - 1) publications – max. 5 points;
 - 2) participation in research projects – max. 2 points;

- 3) participation in scientific conferences – max. 2 points;
- 4) other scientific and research activities – max. 1 point.
7. In the case of the assessment referred to in (2) (3), the candidate may obtain for:
 - 1) formulation of the research problem – max. 18 points;
 - 2) proposed method of solving the research problem – max. 12 points.
8. In the case of the assessment referred to in (2) (4), the candidate may obtain for:
 - 1) motivation and competencies to undertake scientific work – max. 25 points;
 - 2) knowledge of research issues – max. 20 points.
9. Members of the admissions committee shall make assessments in accordance with the provisions of (3)-(8), with only members of the admissions committee holding an academic degree of *doktor habilitowany* or a title of professor taking part in the qualification procedure in the part referred to in (2) (3)-(4).
10. The final result of the qualification procedure is calculated as the sum of the arithmetic averages of the points received by the candidate in the qualification procedure. The arithmetic averages shall be determined separately for each criterion defined in (2).
11. The individual protocols of the qualification procedure shall be prepared.
12. Based on the results of the qualification procedure, the admission committee shall prepare a ranking list.
13. If the number of persons applying for admission and meeting the criterion referred to in (1) exceeds the admission limit set by the Senate, those who obtained the highest number of points in the qualification procedure will be admitted, within the established limit.
14. If the last place resulting from the admission limit is occupied by two or more persons who have obtained the same number of points in the admission procedure, the following additional criteria shall apply:
 - 1) a higher position on the ranking list shall be awarded to the person who has obtained a higher number of points as a result of the assessment referred to in (2) (4);
 - 2) if the application of the criterion referred to in (1) does not unambiguously determine the order, a higher position in the ranking list shall be awarded to a person who has received a higher number of points as a result of the assessment referred to in (2) (3);
 - 3) if the criteria determined in accordance with (1) and (2) are not conclusive, a higher position on the ranking list shall be awarded to a person who has received a higher number of points as a result of the assessment referred to in (2) (2);
 - 4) if the criteria determined in accordance with (1)-(3) are not conclusive, a higher position on the ranking list shall be awarded to a person who has received a higher number of points for skills and predisposition for academic work, in accordance with the provisions of (2) (1).
15. In the event that, after the qualification procedure to the Doctoral School, the admission limit set by the Senate is not reached, the Rector may decide to conduct supplementary admission.

16. If a person with a disability applies for admission to the Doctoral School, upon a justified request submitted to the admissions committee within the timeframe specified in the schedule referred to in § 5 (2), the chair of the admissions committee shall determine the rules and procedure for the interview, taking into account the degree and type of the disability and the specifics of the academic discipline concerned.
17. In the request referred to in (16), the applicant shall declare the need for an assistant or sign interpreter during the interview.

§ 7

1. Based on the ranking list referred to in § 6 (12), the Rector enters candidates on the register of doctoral students or decides to refuse admission to the Doctoral School. In the case of foreigners, the Rector takes an administrative decision on admission or refusal of admission to the Doctoral School.
2. A decision on the refusal of admission to the Doctoral School may be appealed for reconsideration of the case within 14 days from the date of its delivery.

§ 8

The resolution comes into force upon its adoption.

President of the Senate
Rector

(-) prof. dr hab. inż. Celina M. Olszak

Resolution No. 18/2022/2023
of the Senate of the University of Economics in Katowice
of December 15, 2022,
on the rules of admission to the Doctoral School for the first year of studies
in the academic year 2023/2024

Pursuant to Art. 200 (2) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2022, item 574, as amended) and § 24 (1) (16) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice resolves as follows:

§ 1

The Doctoral School may admit a person who holds a professional degree of master of science, master of engineering, or equivalent, or a person referred to in Art. 186 (2) of the Law of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2022, item 574, as amended).

§ 2

1. Admission of a candidate to the Doctoral School for the first year of studies is performed by means of a competition, based on the results of the qualification procedure referred to in § 6. The results of the competition procedure are public.
2. A candidate applying for admission to the first year of studies completes the electronic application form available in the online recruitment system (IRK), indicating the study program and the chosen academic discipline, referred to in (3).
3. The Doctoral School conducts:
 - 1) study programs in Polish in the disciplines of:
 - a) Economics and Finance,
 - b) Management and Quality Sciences;
 - 2) study programs in English in the disciplines of:
 - a) Economics and Finance,
 - b) Management and Quality Sciences.

§ 3

1. A candidate for the Doctoral School is required to submit the following documents in paper form to the Admissions Office:
 - 1) application for admission to the Doctoral School in the form of a printout from the online recruitment system;
 - 2) scientific CV prepared according to the template available on the University website;
 - 3) cover letter containing a description of predispositions and motivation to undertake scientific work;

- 4) University-certified or notarized copies of a master's degree diploma and a supplement or other document specifying the program of study, or a certificate of completion of graduate studies or uniform master's degree (until the copy of the diploma is provided), subject to (6) or (13);
 - 5) outline of a research project including: a topic, a clearly identified research gap, a research area, a research problem and objective, research methods, and a literature list. The outline should contain a preliminary plan, expected benefits of the research, and the work timetable for the dissertation;
 - 6) documents confirming the knowledge of a modern foreign language at a proficiency level of at least B2: diploma of graduation or a certificate, subject to (3).
2. The documents referred to in (1) (6) may be the confirmation of the language proficiency at a level of at least B2:
 - 1) certificate or
 - 2) diploma of graduation.
 3. In the case of a candidate who has indicated an educational program referred to in § 2 (3) (2), the documents should certify knowledge of English at a level of at least B2 language proficiency. These documents are not required from a candidate for whom English is the native language, who is a citizen of a country in which English is an official language, or who has completed studies conducted in English.
 4. The documents referred to in (1) (6) are not required from a candidate for whom a foreign language is a native language, who is a citizen of a country where a foreign language is an official language, or who has completed studies conducted in a modern foreign language.
 5. Along with the documents referred to in (1), a candidate may also submit:
 - 1) a list of publications and other scientific and research achievements accompanied by documents certifying these achievements,
 - 2) documents certifying additional qualifications relevant to the intended doctoral dissertation,
 - 3) a letter of recommendation from a research or research and teaching personnel with experience in scientific and research cooperation with the candidate, indicating the nature and form of such cooperation.
 6. Art. 326 and Art. 327 of the Law on Higher Education and Science apply to candidates who have obtained a degree from a higher education institution outside the Republic of Poland, with the provision that:
 - 1) for diplomas conferring the right to apply for a doctoral degree in a country in whose higher education system the university issuing the degree operates, a candidate submits copies of the legalized or apostilled diploma and a supplement or other document specifying the educational program, certified by the University or notarized as consistent with the original,

- 2) in the case of diplomas or documents certifying the completion of higher education abroad issued in a language other than English or Polish, a candidate is additionally required to present a certified translation into Polish or English,
 - 3) in the absence of the documents referred to in (1), a candidate is required to submit a statement on the delivery of legalized or apostilled documents by July 20, 2023. A statement template is attached as Appendix No. 1 to this Resolution.
7. A candidate is required to submit a set of documents for admission to the Doctoral School by the deadline contained in the admissions announcement. Documents submitted after the deadline shall be left without consideration. The date of submission of documents is understood as the date the documents are received by the University.
 8. A foreigner applying for admission to the Doctoral School, who has indicated the program of study referred to in § 2 (3) (1), attaches documents confirming the knowledge of the Polish language at the level of language proficiency of at least B2. A foreign candidate who does not have the abovementioned document may receive confirmation during the interview that the level of Polish language proficiency enables them to undertake education at the Doctoral School.
 9. For candidates who have indicated the educational program referred to in § 2 (3) (2), the documents referred to in § 3 (1) (1)-(3), (5) and § 3 (5) (3) are submitted in English.
 10. During the admissions process, the Rector may decide that candidates may provide documents in electronic form, using the online recruitment system, subject to (11).
 11. In the absence of following the procedure specified in (10), in justified cases, the Rector, at the individual request of a candidate, may agree that the candidate submits scanned documents in electronic form using the online recruitment system. The application must be submitted by the deadline specified in the schedule referred to in § 5 (2).
 12. In the cases referred to in (10) or (11), the candidate is required to provide original documents by the day before the start of the academic year, as per the adopted organization of the academic year.
 13. In place of the documents referred to in paragraph (1) (4), a candidate may submit a statement that a master's degree diploma, a certificate of completion of graduate studies, or a uniform master's degree shall be delivered by July 20, 2023. A statement template is attached as Appendix No. 2 to this Resolution.

§ 4

1. The qualification procedure is performed at the University's premises.
2. The qualification procedure may be held using online communication.
3. The qualification procedure is performed by an admissions committee appointed by the Rector by means of an order until February 28, 2023.
4. The admissions committee consists of:

- 1) staff of the University, with a postdoctoral or professorial degree or an equivalent degree or title representing scientific disciplines within which the educational programs at the Doctoral School are carried out,
 - 2) a representative of doctoral students, indicated by the Doctoral Student Government,
 - 3) a representative of the Admissions Office.
5. In the Order referred to in (3), the Rector indicates the chair, deputy chair, and secretary of the admissions committee.
 6. An expert in the discipline in which education at the Doctoral School is conducted may be invited to the meeting of the admissions committee in an advisory capacity. Their tasks include in particular the evaluation of the submitted outline referred to in § 3 (1) (5).
 7. Reports are prepared from the admissions committee meetings.
 8. In the case of candidates who have indicated the educational program referred to in:
 - 1) § 2 (3) (1), the qualification proceedings shall be conducted in Polish, subject to (9),
 - 2) § 2 (3) (2), the qualification proceedings shall be conducted in English.
 9. The members of the admissions committee may conduct part of the interview process in the language referred to in § 3 (1) (6). In such a case, in announcing the interview date, the admissions committee shall provide information on the scope of the interview to be conducted in a foreign language.
 10. The admissions committee chair may request the Foreign Language Center to verify the documents referred to in § 3 (1) (6) and § 3 (2).

§ 5

1. The tasks of the admissions committee include, in particular:
 - 1) establishment of deadlines related to the qualification procedure;
 - 2) establishment of detailed evaluation criteria and awarding points to candidates in the qualification procedure, according to § 6;
 - 3) analysis of documents submitted in the qualification procedure;
 - 4) conducting interviews;
 - 5) preparation of a ranking list based on the number of points obtained by candidates in the qualification procedure;
 - 6) determination of the minimum number of points qualifying for admission;
 - 7) notification of the candidates regarding the results of the admissions procedure.
2. The admissions committee determines the timetable for the admissions process by April 30, 2023.

§ 6

1. Admission to the Doctoral School is based on the number of points obtained by a candidate during the qualification procedure, but it must be no less than 50% of the points referred to in (2).

2. A candidate may obtain a maximum of 100 points during the qualification procedure, including from the evaluation of:
 - 1) compatibility of the education with the scientific disciplines in which the educational program at the Doctoral School is implemented – a maximum of 10 points;
 - 2) scientific achievements – a maximum of 10 points;
 - 3) outline of the research project – maximum 30 points;
 - 4) interview – maximum 45 points;
 - 5) letter of recommendation – 5 points.
3. The assessment referred to in paragraph (2) (3) applies to:
 - 1) the formulation of the research problem, including its originality and relevance, and its theoretical embedding in the literature;
 - 2) the proposed method for solving the research problem, including the methodology and the schedule of work for the dissertation.
4. The assessment referred to in paragraph (2) (4) applies to:
 - 1) a candidate's motivation and competence to undertake scientific research;
 - 2) a candidate's familiarity with research issues relevant to their designated discipline.
5. In the case of the evaluation referred to in (2)(1), a candidate may obtain for compatibility:
 - 1) higher education – a maximum of 8 points;
 - 2) supplementary education – a maximum of 2 points.
6. In the case of the evaluation referred to in (2) (2), a candidate may obtain for:
 - 1) publications – a maximum of 5 points;
 - 2) participation in scientific and research projects – a maximum of 2 points;
 - 3) participation in scientific conferences – a maximum of 2 points;
 - 4) other scientific and research activities – a maximum of 1 point.
7. In the case of the evaluation referred to in (2) (3), a candidate may obtain for:
 - 1) formulation of the research problem – a maximum of 18 points;
 - 2) the proposed method of solving the research problem – a maximum 12 points.
8. In the case of the evaluation referred to in (2) (4), a candidate may obtain for:
 - 1) motivation and competence to undertake scientific work – a maximum of 25 points;
 - 2) knowledge of research problems – a maximum of 20 points.
9. The members of the admissions committee evaluate under the provisions of (3)-(8), with only members of the admissions committee holding a postdoctoral degree or a professorial title taking part in the qualification procedure specified in (2) (3) and (4).
10. The final result of the qualification procedure is calculated as the sum of the arithmetic averages of the scores obtained by a candidate in the qualification procedure. Arithmetic averages are determined separately for each criterion specified in (2).
11. Individual protocols are prepared from the conducted qualification proceedings.
12. Based on the results of the qualification procedure, the admissions committee prepares a ranking list, subject to (18).

13. If the number of persons applying for admission and meeting the criterion referred to in (1) exceeds the limit of places established by the Senate, the persons who obtained the highest number of points in the qualification procedure will be admitted, within the established limit of places for studies.
14. If the last place resulting from the limit of places has two or more persons who obtained the same number of points in the qualification procedure, the following additional criteria shall be applied:
 - 1) a higher position on the ranking list shall be awarded to the person who obtained a higher number of points as a result of the evaluation referred to in (2) (4);
 - 2) if the application of the criterion referred to in (1) does not determine the order, the higher position on the ranking list shall be awarded to a person who obtained more points as a result of the evaluation referred to in (2) (3);
 - 3) if the criteria determined in accordance with (1) and (2) are not conclusive, the higher position on the ranking list shall be awarded to a person who has obtained a higher number of points as a result of the evaluation referred to in (2) (2);
 - 4) if the criteria determined in accordance with (1)-(3) are not conclusive, the higher position on the ranking list shall be awarded to a person who obtained a higher number of points for skills and aptitude for scientific work, in accordance with the provisions of (2) (1).
15. If the limit of places set by the Senate is not reached after the qualification procedure for the Doctoral School is concluded, the Rector may decide to conduct a supplementary recruitment.
16. In the case where a candidate with a disability applies for admission to the Doctoral School, upon a reasoned application submitted to the admissions committee within the timeframe specified in the schedule referred to in § 5 (2), the admissions committee chair shall determine the rules and procedure for the interview, taking into account the degree and type of disability and the specifics of the academic discipline in question.
17. In the application referred to in (16), a candidate shall declare the need for an assistant or a sign interpreter during the interview.
18. Candidates who have not provided documents resulting from the declarations referred to in § 3 (6) (3) or § 3 (13) shall not be included on the ranking list.

§ 7

1. Based on the ranking list referred to in § 6 (12), the Rector admits or refuses admission to the Doctoral School. In the case of foreigners, the Rector makes an administrative decision on admission or refusal of admission to the Doctoral School.
2. A decision to refuse admission to the Doctoral School may be appealed for reconsideration within 14 days from the date the decision is delivered.

§ 8

The resolution comes into force on the date of its adoption.

Resolution No. 22/2023/2024
of the Senate of the University of Economics in
Katowice of December 14, 2023
on the rules of admission to the Doctoral School for the first year of studies
in the academic year 2024/2025

Pursuant to Art. 200 (2) of the Act of July 20, 2018 – Law on Higher Education and Science (i.e. Journal of Laws of 2023, item 742, as amended) and § 24 (1) (16) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

A person may be admitted to the Doctoral School if they hold the professional title of master of science, master of engineering, or equivalent, or if they are a person referred to in Art. 186 (2) of the Act of July 20, 2018 - Law on Higher Education and Science (i.e., Journal of Laws of 2023, item 742, as amended).

§ 2

1. Candidates are accepted for the first year of studies at a Doctoral School through a competition based on the results of the qualification procedure referred to in § 6. The results of the competition are available to the public.
2. A candidate applying for admission to the first year of study shall complete an electronic application form available in the online candidate registration system, and indicate the study program and the chosen academic discipline as referred to in (3).
3. The following are taught at the Doctoral School:
 - 1) Study programs in Polish in the following disciplines:
 - a) Economics and Finance,
 - b) Management and Quality Sciences;
 - 2) study programs in English in the following disciplines:
 - a) Economics and Finance,
 - b) Management and Quality Sciences.

§ 3

1. A candidate for admission to the Doctoral School is required to submit the following documents in hard copy to the Admissions:
 - 1) application for admission to the Doctoral School in the form of a printout from the online candidate registration system;
 - 2) academic CV in accordance with the template published on the University's website;
 - 3) cover letter containing a description of predispositions and motivation for undertaking scientific work;
 - 4) copies of the master's degree diploma, certified by the University or a notary public to be a true copy of the original, and a supplement or other document specifying the curriculum or a certificate of completion of graduate studies or uniform master's degree program (until a copy of the diploma is provided), subject to (6) or (13);
 - 5) outline of the research project, including the topic, a clearly identified research gap, research area, research problem and objective, research methods, and literature list. The outline should include a preliminary plan, the expected benefits of the research, and a work timetable for the dissertation;

- 6) documents confirming the command of a modern foreign language at the language proficiency level of at least B2, subject to (3).
2. The documents referred to in sec. 1 (6) may be evidence of achieving language proficiency at a level of at least B2:
 - 1) certificate or
 - 2) higher education diploma.
3. In the case of a candidate who indicated a study program referred to in § 2, (3) (2), the documents should certify knowledge of English at a language proficiency level of at least B2. These documents are not required from a candidate who is a native speaker of English, a citizen of a country in which English is the official language, or a person who has completed a degree program taught in English.
4. The documents referred to in (1) (6) are not required from a candidate for whom a foreign language is the native language or who is a citizen of a country where a foreign language is the official language, as well as persons who have completed studies conducted in a modern foreign language.
5. Together with the documents referred to in (1) the candidate may submit:
 - 1) a list of publications and other scientific and research achievements, together with documents confirming these achievements,
 - 2) documents confirming additional qualifications relevant to the candidate's future doctoral dissertation,
 - 3) a letter of recommendation from a research or research and teaching staff member who has experience in scientific and research cooperation with the candidate, indicating the nature and form of this cooperation.
6. For candidates who have obtained a degree diploma from a higher education institution outside the Republic of Poland, Arts. 326 and 327 of the Law on Higher Education and Science shall apply accordingly, with the proviso that:
 - 1) in the case of diplomas conferring the right to apply for the award of the doctoral degree in the country in whose higher education system the institution awarding the diploma operates, a candidate shall submit the legalized or apostilled copies of their diploma, together with a supplement or other document specifying the program's curriculum, certified by the University or by a notary public to be a true copy of the original,
 - 2) in the case of diplomas or documents confirming the completion of higher education studies abroad and prepared in a language other than English or Polish, a candidate shall additionally provide their sworn translation into Polish or English,
 - 3) in the case of a lack of documents referred to in (1), the candidate must submit a statement confirming that they will provide legalized or apostilled documents by July 19, 2024. The statement's template is attached as Appendix No. 1 to the Resolution.
7. A candidate must submit a set of documents for admission to the Doctoral School within the deadline included in the admission announcement. Documents submitted after this deadline will not be considered. The date of submission of the documents is the date of their receipt by the University.

8. A foreigner applying for admission to the Doctoral School who has chosen the study program referred to in §2 (3) (1) shall attach documents confirming the command of the Polish language at a language proficiency level of at least B2. During the interview, a foreign candidate who does not possess such a document may receive confirmation that their proficiency in Polish is sufficient to commence studies at the Doctoral School.
9. For candidates who have chosen the study program referred to in §2 (3) (2), the documents referred to in §3 (1) (1)-(3), (5) and §3 (5) are to be submitted in English.
10. During the admission procedure, the Rector may decide that candidates should submit their documents electronically using the online candidate registration system, subject to the provisions of (11).
11. Should the procedure specified in (10) not be applied, the Rector, in justified cases and upon the candidate's individual request, may allow the candidate to provide scanned documents in electronic form via the online candidate registration system. The application should be submitted by the date specified in the schedule referred to in § 5 (2).
12. In cases referred to in (10) and (11), the candidate is required to provide original documents by the day before the start of the academic year, in accordance with the adopted academic year timetable.
13. The candidate may, in place of the documents referred to in (1) (4), submit a statement that a master's degree diploma, certificate of completion of graduate studies, or uniform master's degree will be delivered by July 19, 2024. The statement's template is attached as Appendix No. 2 to the Resolution.

§ 4

1. The qualification procedure is conducted at the University.
2. The qualification procedure may be conducted using electronic messaging.
3. The qualification procedure shall be conducted by an admissions committee appointed by the Rector by means of an order by February 29, 2024.
4. The admissions committee shall consist of:
 - 1) employees of the University, with the degree of *doktor habilitowany* or with the title of professor or with the equivalent degree or title, representing scientific disciplines within the framework of which study programs are implemented at the Doctoral School,
 - 2) a representative of doctoral students designated by the Doctoral Student Government,
 - 3) a representative of the Admissions Office.
5. The admissions committee shall elect a chair, deputy chair, and secretary from among its members.
6. The admissions committee meeting may be attended in an advisory capacity by an expert in the discipline in which education is provided at the Doctoral School, whose tasks include, in particular, the assessment of the submitted outline referred to in §3 (1) (5).
7. The minutes of the admissions committee's meeting shall be taken.
8. In the case of candidates who have selected a study program, referred to in:
 - 1) § 2 (3) (1), the qualification procedure is conducted in Polish, subject to (9),
 - 2) § 2 (3) (2), the qualification procedure is conducted in English.
9. Admissions committee members may conduct part of the interview in the language referred to in § 3 (1) (6). In such a case, the admissions committee shall provide information about the scope of the interview in a foreign language when the interview date is announced.

10. The chair of the admissions committee may request the Foreign Language Center to verify the documents referred to in § 3 (1) (6) and § 3 (2).

§ 5

1. The tasks of the admissions committee shall include, in particular:
 - 1) establishing deadlines related to the qualification procedure;
 - 2) setting detailed assessment criteria and awarding points to candidates in the qualification procedure, in accordance with the provisions of § 6;
 - 3) analyzing the documents submitted in the qualification procedure;
 - 4) conducting interviews;
 - 5) preparing a ranking list based on the number of points obtained by candidates in the qualification procedure;
 - 6) determining the minimum number of points qualifying for admission;
 - 7) informing candidates of the result of the qualification procedure.
2. The admissions committee shall schedule the admissions process by April 30, 2024.

§ 6

1. A candidate is admitted to the Doctoral School based on the number of points achieved in the qualification procedure; however, not less than 50% of the points referred to in (2).
2. A candidate may obtain a maximum of 100 points in the qualification procedure, including for the assessment of:
 - 1) compatibility of the education with the scientific disciplines in which the study program is implemented at the Doctoral School – max. 10 points;
 - 2) academic achievements – max. 10 points;
 - 3) outline of the research project – max. 30 points;
 - 4) interview – max. 45 points;
 - 5) recommendation letter – 5 points.
3. The assessment referred to in sec. 2 (3) shall concern:
 - 1) formulation of the research problem, including its originality and relevance, and its theoretical grounding in the literature;
 - 2) proposed method for solving the research problem, including the methodology and work schedule for the dissertation.
4. The assessment referred to in sec. 2 (4) shall concern:
 - 1) candidate's motivation and competencies to undertake scientific work;
 - 2) candidate's knowledge of research issues specific to the discipline indicated by the candidate.
5. In the case of the assessment referred to in sec. 2 (1), a candidate may be granted the following for compatibility of:
 - 1) higher education – max. 8 points;
 - 2) supplementary education – max. 2 points.
6. In the case of the assessment referred to in sec. 2 (2), a candidate may obtain the following for:
 - 1) publications – max. 5 points;
 - 2) participation in research projects – max. 2 points;

- 3) participation in scientific conferences – max. 2 points;
- 4) other scientific and research activities – max. 1 point.
7. In the case of the assessment referred to in sec. 2 (3), the candidate may obtain for:
 - 1) formulation of the research problem – max. 18 points;
 - 2) proposed method of solving the research problem – max. 12 points.
8. In the case of the assessment referred to in sec. 2 (4), the candidate may obtain for:
 - 1) motivation and competencies to undertake scientific work – max. 25 points;
 - 2) knowledge of research issues – max. 20 points.
9. Members of the admissions committee shall make assessments in accordance with the provisions of sections 3-8, with only members of the admissions committee holding an academic degree of *doktor habilitowany* or a title of a professor taking part in the qualification procedure in the part referred to in (2) (3)-(4).
10. The final result of the qualification procedure is calculated as the sum of the arithmetic averages of the points received by the candidate in the qualification procedure. The arithmetic averages shall be determined separately for each criterion defined in (2).
11. The individual protocols of the qualification procedure shall be drawn up.
12. The admissions committee shall prepare a ranking list based on the admissions process results, subject to (18).
13. If the number of applicants for admission and meeting the criterion referred to in (1) is greater than the admission limit set by the Senate, those who obtained the highest number of points in the qualification procedure will be admitted under the established limit.
14. If the last place resulting from the admission limit is occupied by two or more persons who have obtained the same number of points in the admission procedure, the following additional criteria shall apply:
 - 1) a higher position on the ranking list shall be awarded to the person who has obtained a higher number of points as a result of the assessment referred to in (2) (4);
 - 2) if the application of the criterion referred to in (1) does not unambiguously determine the order, a higher position in the ranking list shall be awarded to a person who has received a higher number of points as a result of the assessment referred to in sec. 2 (3);
 - 3) if the criteria determined in accordance with (1) and (2) are not conclusive, a higher position on the ranking list shall be awarded to a person who has received a higher number of points as a result of the assessment referred to in (2) (2);
 - 4) if the criteria determined in accordance with (1)-(3) are not conclusive, a higher position on the ranking list shall be awarded to a person who has received a higher number of points for skills and predisposition for academic work, in accordance with the provisions of (2) (1).
15. If the admission limit set by the Senate is not reached after the qualification procedure to the doctoral school, the Rector may decide to conduct supplementary admission.

16. If a person with a disability applies for admission to the Doctoral School, upon a justified request submitted to the admissions committee within the timeframe specified in the schedule referred to in § 5 (2), the chair of the admissions committee shall determine the rules and procedure for the interview, taking into account the degree and type of the disability and the specifics of the academic discipline concerned.
17. In the request referred to in (16), the applicant shall declare the need for an assistant or sign interpreter during the interview.
18. Candidates who have not provided the documents resulting from the declarations referred to in § 3 (6) (3) or § 3 (13) shall not be included in the ranking list.
19. Based on the ranking list referred to in § 6 (12), the Rector admits doctoral students or refuses admission to the Doctoral School. In the case of foreigners, the Rector makes an administrative decision on admission or refusal.
20. A decision on the refusal of admission to the Doctoral School may be appealed for reconsideration within 14 days from its delivery date.

§ 7

The resolution comes into force upon its adoption.

Resolution No. 9/2024/2025
of the Senate of the University of Economics in Katowice
of October 24, 2024,
on the rules of admission to the Doctoral School for the first year of studies
in the academic year 2025/2026

Pursuant to Art. 200 (2) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2023, item 742, as amended) and § 24 (1) (16) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

A person may be admitted to the Doctoral School if they hold the professional title of master of science, master of engineering, or equivalent, or are referred to in Art. 186 (2) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2023, item 742, as amended).

§ 2

1. Candidates are accepted for the first year of studies at a Doctoral School through a competition based on the results of the qualification procedure referred to in § 6. The results of the competition are available to the public.
2. A candidate applying for admission to the first year of studies shall complete an electronic application form available in the online candidate registration system and indicate the study program and the chosen academic discipline as referred to in (3).
3. The following are taught at the Doctoral School:
 - 1) study programs in Polish in the following disciplines:
 - a) Economics and Finance,
 - b) Management and Quality Sciences;
 - 2) study programs in English in the following disciplines:
 - a) Economics and Finance,
 - b) Management and Quality Sciences.

§ 3

1. A candidate for admission to the Doctoral School is required to submit the following documents in hard copy to the Admissions:
 - 1) application for admission to the Doctoral School in the form of a printout from the online candidate registration system;
 - 2) academic CV according to the template published on the University website;
 - 3) cover letter containing a description of predispositions and motivation for undertaking scientific work;
 - 4) copies of the master's degree diploma, certified by the University or a notary public to be a true copy of the original, and a supplement or other document specifying the curriculum or a certificate of completion of the graduate or uniform master's degree program (until a copy of the diploma is provided), subject to (6) or (13);
 - 5) outline of the research project, including the topic, a clearly identified research gap, research area, research problem and objective, research methods, and literature list. The outline should include a preliminary plan, the expected benefits of the research, and a work timetable for the dissertation. The outline shall not exceed 10 pages, Arial typeface, font size 11 pt, single spacing, margins 2 cm;

- 6) documents confirming the command of a modern foreign language at the language proficiency level of at least B2, subject to (3).
2. The documents referred to in sec. 1 (6) may be evidence of achieving language proficiency at a level of at least B2:
 - 1) certificate or
 - 2) higher education diploma.
3. In the case of a candidate who indicated a study program referred to in § 2, (3) (2), the documents should certify knowledge of English at a language proficiency level of at least B2. These documents are not required from a candidate who is a native speaker of English, a citizen of a country where English is the official language, or a person who has completed a degree program taught in English.
4. The documents referred to in (1) (6) are not required from a candidate for whom a foreign language is a native language or who is a citizen of a country where a foreign language is an official language, as well as persons who have completed studies conducted in a modern foreign language.
5. Together with the documents referred to in (1), the candidate may submit:
 - 1) a list of publications and other scientific and research achievements, together with documents confirming these achievements,
 - 2) documents confirming additional qualifications relevant to the candidate's future doctoral dissertation,
 - 3) a letter of recommendation from a research or research and teaching staff member who has experience in scientific and research cooperation with the candidate, indicating the nature and form of this cooperation.
6. For candidates who have obtained a diploma from a higher education institution outside the Republic of Poland, Arts. 326 and 327 of the Law on Higher Education and Science shall apply accordingly, provided that:
 - 1) in the case of diplomas conferring the right to apply for the award of the doctoral degree in the country in whose higher education system the institution awarding the diploma operates, a candidate shall submit the legalized or apostilled copies of their diploma, together with a supplement or other document specifying the program's curriculum, certified by the University or by a notary public to be a true copy of the original,
 - 2) in the case of diplomas or documents confirming the completion of higher education studies abroad and prepared in a language other than English or Polish, a candidate shall additionally provide their sworn translation into Polish or English,
 - 3) in the case of a lack of documents referred to in (1), the candidate must submit a statement confirming that they will provide legalized or apostilled documents by July 18, 2025. The statement's template is attached as Appendix No. 1 to the Resolution.
7. A candidate must submit a set of documents for admission to the Doctoral School within the deadline included in the admission announcement. The date of submission of the documents is the date on which the University receives them.
8. Upon expiration of the deadline referred to in (7), the right to supplement the application for admission to the Doctoral School expires. Supplementation of the application after this deadline is ineffective.
9. A correctly submitted application for admission to the Doctoral School constitutes the grounds for the qualification procedure.
10. The admissions committee shall leave unprocessed the application of a candidate who:
 - 1) applied after the deadline referred to in (7),
 - 2) does not contain at least one document referred to in (1)-(6),

- 3) failed to submit the documents referred to in (18) or failed to meet the deadline for their submission.
11. Information on scientific activity not supported by the documentation submitted in the application process is not considered by the admissions committee when evaluating a candidate.
12. A foreigner applying for admission to the Doctoral School who has chosen the study program referred to in §2 (3) (1) shall attach documents confirming the command of the Polish language at a language proficiency level of at least B2. During the interview, a foreign candidate who does not possess such a document may receive confirmation that their proficiency in Polish is sufficient to commence studies at the Doctoral School.
13. For candidates who have chosen the study program referred to in §2 (3) (2), the documents referred to in §3 (1) (1)-(3), (5) and §3 (5) are to be submitted in English.
14. During the admission procedure, the Rector may decide that candidates should submit their documents electronically using the online candidate registration system, subject to the provisions of (15).
15. Should the procedure specified in (14) not be applied, the Rector, in justified cases, and upon an individual request of the candidate, may decide to allow the candidate to provide scans of documents in electronic form using the online candidate registration system. The application should be submitted by the date specified in the schedule referred to in § 5 (2).
16. In cases referred to in (14) and (15), the candidate must provide original documents by the day before the start of the academic year, according to the adopted academic year timetable.
17. In place of the documents referred to in (1) (4), the candidate may submit a statement that a master's degree diploma, certificate of completion of graduate studies, or a uniform master's degree will be delivered by July 18, 2025. The statement's template is attached as Appendix No. 2 to the Resolution.
18. The admissions committee may require additional documents from candidates who have obtained a diploma from a university outside the Republic of Poland, indicating that they are entitled to study at the Doctoral School, within 7 days of the request.

§ 4

1. The qualification procedure is conducted at the University.
2. The qualification procedure may be conducted using electronic messaging.
3. The qualification procedure shall be conducted by an admissions committee appointed by the Rector by means of an order by January 31, 2025.
4. The admissions committee shall include:
 - 1) employees of the University, with the degree of *doktor habilitowany* or with the title of professor or with the equivalent degree or title, representing scientific disciplines within the framework of which study programs are implemented at the Doctoral School,
 - 2) a representative of doctoral students designated by the Doctoral Student Government,
 - 3) a representative of the Admissions Office.
5. In the Order referred to in (3), the Rector shall select the chair, deputy chair and secretary of the admissions committee.
6. The admissions committee meeting may be attended in an advisory capacity by an expert in the discipline in which education is provided at the Doctoral School, whose tasks include, in particular, the assessment of the submitted outline referred to in §3 (1) (5).
7. Meetings of the admissions committee are recorded.
8. In the case of candidates who have selected a study program, referred to in:

- 1) § 2 (3) (1), the qualification procedure is conducted in Polish, subject to (9),
- 2) § 2 (3) (2), the qualification procedure is conducted in English.
9. Admissions committee members may conduct part of the interview in the language referred to in § 3 (1) (6). In such a case, the admissions committee shall provide information about the scope of the interview in a foreign language when the interview date is announced.
10. The chair of the admissions committee may request the Foreign Language Center to verify the documents referred to in § 3 (1) (6) and § 3 (2).
11. In the case of justified doubts about impartiality and objectivity in evaluating a candidate for the Doctoral School, a member of the admissions committee may be excluded from evaluating a given candidate at their request or the request of the chair of the admissions committee.

§ 5

1. The tasks of the admissions committee shall include, in particular:
 - 1) establishing deadlines related to the qualification procedure;
 - 2) setting detailed assessment criteria and awarding points to candidates in the qualification procedure, according to the provisions of § 6;
 - 3) analyzing the documents submitted in the qualification procedure;
 - 4) identifying candidates for the second stage of the qualification procedure;
 - 5) conducting interviews;
 - 6) preparing a ranking list based on the number of points obtained by candidates in the qualification procedure;
 - 7) determining the minimum number of points qualifying for admission;
 - 8) informing candidates of the result of the qualification procedure.
2. The admissions committee shall schedule the admissions process by March 1, 2025.

§ 6

1. Admission to the Doctoral School is based on the number of points obtained by the candidate in the qualifying procedure, but not less than 50 points from both stages combined.
2. The qualification procedure is conducted in two stages:
 - 1) in the first stage, the documentation is evaluated according to the extent referred to in (3),
 - 2) in the second stage, an interview is evaluated.
3. A candidate may obtain a maximum of 55 points in the first stage of the qualification procedure, including for the assessment of:
 - 1) compatibility of the education with the scientific disciplines in which the study program is implemented at the Doctoral School – max. 10 points;
 - 2) academic achievements – max. 10 points;
 - 3) outline of the research project – max. 30 points;
 - 4) recommendation letter – 5 points.
4. For the assessment referred to in 3 (1), the candidate may obtain for compliance the following number of points:
 - 1) higher education – max. 8 points;
 - 2) supplementary education – max. 2 points.
5. For the assessment referred to in 3 (2), the candidate may obtain the following number of points for:
 - 1) publications – max. 5 points;
 - 2) participation in research projects – max. 2 points;

- 3) participation in scientific conferences – max. 2 points;
- 4) other scientific and research activities – max. 1 point.
6. For the assessment referred to in 3 (3), the candidate may obtain the following number of points for:
 - 1) formulation of the research problem – max. 18 points;
 - 2) proposed method of solving the research problem – max. 12 points.
7. Candidates who obtained not less than 50% of the maximum number of points possible in the first stage participate in the second stage, provided that the number of candidates admitted to the second stage may not exceed half the number of places specified in the resolution on the number of places in the first year of training at the Doctoral School, separately for training programs in Polish and English. Subject to (8).
8. When candidates have the same number of points, the score limit shall be reduced to that number.
9. Candidates who are not qualified for the second stage receive the Rector's decision denying admission to the Doctoral School.
10. A candidate may obtain a maximum of 45 points for the interview, including for the assessment of:
 - 1) motivation and competencies to undertake scientific work – max. 25 points;
 - 2) knowledge of research issues – max. 20 points.
11. The interview is recorded. The recording is stored in the Admissions Office for no more than 6 months unless circumstances require longer storage (appeal proceedings). The candidate can personally review the interview recording at the Admissions Office.
12. Only members of the admissions committee holding an academic degree of *doktor habilitowany* or the title of professor participate in the evaluation of the research project outline and the interview parts of the qualification procedure.
13. The final result of the qualification procedure is calculated as the sum of the arithmetic averages of the points received by the candidate in the qualification procedure. The arithmetic averages shall be determined separately for each criterion defined in (3) and (10).
14. The individual reports of the qualification procedure shall be recorded.
15. The admissions committee shall prepare a ranking list based on the admissions process results, subject to (21).
16. If the number of applicants for admission and meeting the criterion referred to in (1) is greater than the admission limit set by the Senate, those who obtained the highest number of points in the qualification procedure will be admitted under the established limit.
17. If the last place resulting from the admission limit is occupied by two or more persons who have obtained the same number of points in the admission procedure, the following additional criteria shall apply:
 - 1) a higher position on the ranking list shall be awarded to the person who has obtained a higher number of points as a result of the assessment referred to in (10);
 - 2) if the application of the criterion referred to in (1) does not unambiguously determine the order, a higher position in the ranking list shall be awarded to a person who has received a higher number of points as a result of the assessment referred to in 3 (3);
 - 3) if the criteria determined according to (1) and (2) are not conclusive, a higher position on the ranking list shall be awarded to a person who has received a higher number of points as a result of the assessment referred to in (3) (2);
 - 4) if the criteria determined by (1)-(3) are not conclusive, a higher position on the ranking list shall be awarded to a person who has received a higher number of points for skills and predisposition for academic work, according to the provisions of (3) (1).

18. If the admission limit set by the Senate is not reached after the qualification procedure to the doctoral school, the Rector may decide to conduct supplementary admission.
19. If a person with a disability applies for admission to the Doctoral School, upon a justified request submitted to the admissions committee within the timeframe specified in the schedule referred to in § 5 (2), the chair of the admissions committee shall determine the rules and procedure for the interview, taking into account the degree and type of the disability and the specifics of the academic discipline concerned.
20. In the request referred to in (19), the applicant shall declare the need for an assistant or sign interpreter during the interview.
21. Candidates who have not provided the documents resulting from the declarations referred to in § 3 (6) (3) or § 3 (13) shall not be included in the ranking list. These candidates receive the Rector's decision declining admission to the Doctoral School.
22. Based on the ranking list in (15), the Rector admits doctoral students or refuses admission to the Doctoral School. In the case of foreigners, the Rector makes an administrative decision on admission or refusal.
23. Administrative decisions issued during the admissions procedure are delivered electronically through the admissions system.
24. A decision on the refusal of admission to the Doctoral School may be appealed for reconsideration within 14 days from its delivery date.

§ 7

The resolution comes into force upon its adoption.

Resolution No. 113/2024/2025
of the Senate of the University of Economics in Katowice
of September 25, 2025,
on the rules of admission to the Doctoral School for the first year of studies
in the academic year 2026/2027

Pursuant to Art. 200 (2) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2024, item 1571, as amended) and § 24 (1) (16) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

A person may be admitted to the Doctoral School if they hold the professional title of master of science, master of engineering, or equivalent, or are referred to in Art. 186 (2) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2024, item 1571, as amended).

§ 2

1. Candidates are accepted for the first year of studies at a Doctoral School through a competition based on the results of the qualification procedure referred to in § 6. The results of the competition are available to the public.
2. A candidate applying for admission to the first year of studies shall complete an electronic application form available in the online candidate registration system and indicate the study program and the chosen academic discipline as referred to in (3).
3. The following are taught at the Doctoral School:
 - 1) study programs in Polish in the following disciplines:
 - a) Economics and Finance,
 - b) Management and Quality Sciences;
 - 2) study programs in English in the following disciplines:
 - a) Economics and Finance,
 - b) Management and Quality Sciences.

§ 3

1. A candidate for admission to the Doctoral School is required to submit an application in hard copy to the Admissions. The application must include the following documents:
 - 1) application for admission to the Doctoral School in the form of a printout from the online candidate registration system;
 - 2) academic CV according to the template published on the University website;
 - 3) cover letter containing a description of predispositions and motivation for undertaking scientific work;
 - 4) copies of the master's degree diploma, certified by the University or a notary public to be a true copy of the original, and a supplement or other document specifying the curriculum or a certificate of completion of the graduate or uniform master's degree program (until a copy of the diploma is provided), subject to (6) or (13);

- 5) outline of the research project, including the topic, a clearly identified research gap, research area, research problem and objective, research methods, and literature list. The outline should include a preliminary plan, the expected benefits of the research, and a work timetable for the dissertation. The outline shall not exceed 10 pages, Arial typeface, font size 11 pt, single spacing, margins 2 cm;
- 6) documents confirming the command of a modern foreign language at the language proficiency level of at least B2, subject to (3).
2. The documents referred to in sec. 1 (6) may be evidence of achieving language proficiency at a level of at least B2:
 - 1) certificate or
 - 2) higher education diploma.
3. In the case of a candidate who indicated a study program referred to in § 2, (3) (2), the documents should certify knowledge of English at a language proficiency level of at least B2. These documents are not required from a candidate who is a native speaker of English, a citizen of a country where English is the official language, or a person who has completed a degree program taught in English.
4. The documents referred to in (1) (6) are not required from a candidate for whom a foreign language is a native language or who is a citizen of a country where a foreign language is an official language, as well as persons who have completed studies conducted in a modern foreign language.
5. Together with the documents referred to in (1), the candidate may submit:
 - 1) a list of publications and other scientific and research achievements, together with documents confirming these achievements
 - 2) documents confirming additional qualifications relevant to the candidate's future doctoral dissertation,
 - 3) a letter of recommendation from a research or research and teaching staff member who has experience in scientific and research cooperation with the candidate, indicating the nature and form of this cooperation.
6. For candidates who have obtained a diploma from a higher education institution outside the Republic of Poland, Arts. 326 and 327 of the Law on Higher Education and Science shall apply accordingly, provided that:
 - 1) in the case of diplomas conferring the right to apply for the award of the doctoral degree in the country in whose higher education system the institution awarding the diploma operates, a candidate shall submit the legalized or apostilled copies of their diploma, together with a supplement or other document specifying the program's curriculum, certified by the University or by a notary public to be a true copy of the original,
 - 2) in the case of diplomas or documents confirming the completion of higher education studies abroad and prepared in a language other than English or Polish, a candidate shall additionally provide their sworn translation into Polish or English,
 - 3) in the case of a lack of documents referred to in (1), the candidate must submit a statement confirming that they will provide legalized or apostilled documents by July 17, 2026. The statement's template is attached as Appendix No. 1 to the Resolution.
7. A candidate must submit a set of documents for admission to the Doctoral School within

the deadline included in the admission announcement. The submission date is the date on which the University receives the documents.

8. Upon expiration of the deadline referred to in (7), the right to supplement the application for admission to the Doctoral School expires. Supplementation of the application after this deadline is ineffective.
9. A correctly submitted application for admission to the Doctoral School constitutes the grounds for the qualification procedure.
10. The admissions committee shall leave unprocessed the application of a candidate who:
 - 1) applied after the deadline referred to in (7).
 - 2) does not contain at least one document referred to in (1)-(6),
 - 3) failed to submit the documents referred to in (18) or failed to meet the deadline for their submission.
11. Information on scientific activity not supported by the documentation submitted in the application process is not considered by the admissions committee when evaluating a candidate.
12. A foreigner applying for admission to the Doctoral School who has chosen the study program referred to in §2 (3) (1) shall attach documents confirming the command of the Polish language at a language proficiency level of at least B2. During the interview, a foreign candidate who does not possess such a document may receive confirmation that their Polish proficiency is sufficient to commence studies at the Doctoral School.
13. For candidates who have chosen the study program referred to in §2 (3) (2), the documents referred to in §3 (1) (1)-(3), (5) and §3 (5) are to be submitted in English.
14. During the admission procedure, the Rector may decide that candidates should submit their documents electronically using the online candidate registration system, subject to the provisions of (15). Candidates who receive permission to submit documents in electronic form are bound by the deadlines specified in the timetable referred to in § 5 (2).
15. Should the procedure specified in (14) not be applied, the Rector, in justified cases, and upon an individual request of the candidate, may decide to allow the candidate to provide scans of documents in electronic form using the online candidate registration system. The application should be submitted by the date specified in the schedule referred to in § 5 (2).
16. In cases referred to in (14) and (15), the candidate must provide original documents by the day before the start of the academic year, according to the adopted academic year timetable.
17. In place of the documents referred to in (1) (4), the candidate may submit a statement that a master's degree diploma, certificate of completion of graduate studies, or a uniform master's degree will be delivered by July 17, 2026. The statement's template is attached as Appendix No. 2 to the Resolution
18. The admissions committee may require additional documents from candidates who have obtained a diploma from a university outside the Republic of Poland, indicating that they are entitled to study at the Doctoral School, within 7 days of the request.

§ 4

1. The qualification procedure is conducted at the University.
2. The qualification procedure may be conducted using electronic messaging.
3. The qualification procedure shall be conducted by an admissions committee appointed by the Rector by means of an order by December 31, 2025.
4. The admissions committee shall include:
 - 1) employees of the University, with the degree of *doktor habilitowany* or with the title of professor or with the equivalent degree or title, representing scientific disciplines within the framework of which study programs are implemented at the Doctoral School,
 - 2) a representative of doctoral students designated by the Doctoral Student Government,
 - 3) a representative of the Admissions Office.
5. In the Order referred to in (3), the Rector shall select the chair, deputy chair and secretary of the admissions committee.
6. The admissions committee meeting may be attended in an advisory capacity by an expert in the discipline in which education is provided at the Doctoral School, whose tasks include, in particular, the assessment of the submitted outline referred to in § 3 (1) (5).
7. Meetings of the admissions committee are recorded.
8. In the case of candidates who have selected a study program, referred to in:
 - 1) § 2 (3) (1), the qualification procedure is conducted in Polish, subject to (9),
 - 2) § 2 (3) (2), the qualification procedure is conducted in English.
9. Admissions committee members may conduct part of the interview in the language referred to in § 3 (1) (6). In such a case, the admissions committee shall provide information about the scope of the interview in a foreign language when the interview date is announced.
10. The admissions committee chair may request the Foreign Language Center to verify the documents referred to in § 3 (1) (6) and § 3 (2).
11. In the case of justified doubts about impartiality and objectivity in evaluating a candidate for the Doctoral School, a member of the admissions committee may be excluded from evaluating a given candidate at their request or the request of the chair of the admissions committee.

§ 5

1. The tasks of the admissions committee shall include, in particular:
 - 1) establishing deadlines related to the qualification procedure;
 - 2) setting detailed assessment criteria and awarding points to candidates in the qualification procedure, according to the provisions of § 6;
 - 3) analyzing the documents submitted in the qualification procedure;
 - 4) identifying candidates for the second stage of the qualification procedure;
 - 5) conducting interviews;
 - 6) preparing a ranking list based on the number of points obtained by candidates in the qualification procedure;
 - 7) determining the minimum number of points qualifying for admission;

- 8) informing candidates of the result of the qualification procedure.
2. The admissions committee shall schedule the admissions process by March 1, 2025.

§ 6

1. Admission to the Doctoral School is based on the number of points obtained by the candidate in the qualifying procedure, but not less than 50 points from both stages combined.
2. The qualification procedure is conducted in two stages:
 - 1) in the first stage, the documentation is evaluated according to the extent referred to in (3),
 - 2) in the second stage, an interview is evaluated.
3. A candidate may obtain a maximum of 55 points in the first stage of the qualification procedure, including for the assessment of:
 - 1) compatibility of the education with the scientific disciplines in which the study program is implemented at the Doctoral School – max. 10 points;
 - 2) academic achievements – max. 10 points;
 - 3) outline of the research project – max. 30 points;
 - 4) recommendation letter – 5 points.
4. For the assessment referred to in 3 (1), the candidate may obtain for compliance the following number of points:
 - 1) higher education – max. 8 points;
 - 2) supplementary education – max. 2 points.
5. For the assessment referred to in 3 (2), the candidate may obtain the following number of points for:
 - 1) publications – max. 5 points;
 - 2) participation in research projects – max. 2 points;
 - 3) participation in scientific conferences – max. 2 points;
 - 4) other scientific and research activities – max. 1 point.
6. For the assessment referred to in 3 (3), the candidate may obtain the following number of points for:
 - 1) formulation of the research problem, including its originality and relevance, as well as its theoretical foundation in the literature on the subject – max. 18 points;
 - 2) proposed method of solving the research problem, including the methodology and work schedule for the dissertation – max. 12 points.
7. Candidates who obtained not less than 50% of the maximum number of points possible in the first stage participate in the second stage, provided that the number of candidates admitted to the second stage may not exceed half the number of places specified in the resolution on the number of places in the first year of training at the Doctoral School, separately for training programs in Polish and English. Subject to (8).
8. When candidates have the same number of points, the score limit shall be reduced to that number.
9. Candidates who are not qualified for the second stage receive the Rector's decision denying admission to the Doctoral School.

10. A candidate may obtain a maximum of 45 points for the interview, including for the assessment of:
 - 1) motivation and competencies to undertake scientific work – max. 25 points;
 - 2) knowledge of research issues relevant to the discipline indicated by the candidate – max. 20 points.
11. The interview is recorded. The recording is stored in the Admissions Office for no more than 6 months unless circumstances require longer storage (appeal proceedings). The candidate can personally review the interview recording at the Admissions Office.
12. Only members of the admissions committee holding an academic degree of *doktor habilitowany* or the title of professor participate in the evaluation of the research project outline and the interview parts of the qualification procedure.
13. The final result of the qualification procedure is calculated as the sum of the arithmetic averages of the points received by the candidate in the qualification procedure. The arithmetic averages shall be determined separately for each criterion defined in (3) and (10).
14. The individual reports of the qualification procedure shall be recorded.
15. The admissions committee shall prepare a ranking list based on the admissions process results, subject to (21).
16. If the number of applicants for admission and meeting the criterion referred to in (1) is greater than the admission limit set by the Senate, those who obtained the highest number of points in the qualification procedure will be admitted under the established limit.
17. If the last place resulting from the admission limit is occupied by two or more persons who have obtained the same number of points in the admission procedure, the following additional criteria shall apply:
 - 1) a higher position on the ranking list shall be awarded to the person who has obtained a higher number of points as a result of the assessment referred to in (10);
 - 2) if the application of the criterion referred to in (1) does not unambiguously determine the order, a higher position in the ranking list shall be awarded to a person who has received a higher number of points as a result of the assessment referred to in 3 (3);
 - 3) if the criteria determined according to (1) and (2) are not conclusive, a higher position on the ranking list shall be awarded to a person who has received a higher number of points as a result of the assessment referred to in (3) (2);
 - 4) if the criteria determined by (1)-(3) are not conclusive, a higher position on the ranking list shall be awarded to a person who has received a higher number of points for skills and predisposition for academic work, according to the provisions of (3) (1).
18. If the admission limit set by the Senate is not reached after the qualification procedure to the doctoral school, the Rector may decide to conduct supplementary admission.
19. If a person with a disability applies for admission to the Doctoral School, upon a justified request submitted to the admissions committee within the timeframe specified in the schedule referred to in § 5 (2), the chair of the admissions committee shall determine the rules and procedure for the interview, taking into account the degree and type of the disability and the specifics of the academic discipline concerned.

20. In the request referred to in (19), the applicant shall declare the need for an assistant or sign interpreter during the interview.
21. Candidates who have not provided the documents resulting from the declarations referred to in § 3 (6) (3) or § 3 (17) shall not be included in the ranking list. These candidates receive the Rector's decision declining admission to the Doctoral School.
22. Based on the ranking list in (15), the Rector admits doctoral students or refuses admission to the Doctoral School. In the case of foreigners, the Rector makes an administrative decision on admission or refusal.
23. Administrative decisions issued during the admissions procedure are delivered electronically through the admissions system.
24. A decision on the refusal of admission to the Doctoral School may be appealed for reconsideration within 14 days from its delivery date.

§ 7

The resolution comes into force upon its adoption.

**DOCTORAL SCHOOL
AT THE UNIVERSITY OF ECONOMICS IN KATOWICE
SELF-ASSESSMENT REPORT**

APPENDIX

**RULES AND REGULATIONS OF THE DOCTORAL SCHOOL APPLICABLE DURING THE PERIOD
COVERED BY THE EVALUATION**

Resolution No. 79/2018/2019
of the Senate of the University of Economics in Katowice
of May 30, 2019,
on the adoption of the Rules and Regulations of the Doctoral School
at the University of Economics in Katowice

Based on Art. 292 of the Act of July 3, 2018, Provisions introducing the Act – Law on Higher Education and Science (Journal of Laws of 2018, item 1669, as amended), the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

The Rules and Regulations of the Doctoral School at the University of Economics in Katowice are hereby adopted, constituting Appendix No. 1 to the following Resolution.

§ 2

The resolution comes into force on October 1, 2019.

President of the Senate
Rector

dr hab. Robert Tomanek, prof. UE

RULES AND REGULATIONS OF THE DOCTORAL SCHOOL AT THE UNIVERSITY OF ECONOMICS IN

CHAPTER I. General provisions

§ 1

1. The Doctoral School of the University of Economics in Katowice, hereinafter referred to as the School, educates doctoral students and prepares them to obtain a doctoral degree.
2. A person may be admitted to the Doctoral School if they hold a master's degree, master of science degree, or an equivalent degree, or if they are a person referred to in Art. 186 (2) of the Act of July 20, 2018 – Law on Higher Education and Science, hereinafter referred to as the Act.
3. Terms used in the Rules and Regulations shall mean:
 - 1) doctoral student – a person admitted to the Doctoral School who has commenced studies and gained the rights of a doctoral student upon taking the oath,
 - 2) days – calendar days,
 - 3) Director – a person who manages the Doctoral School within the meaning of the Statute of the University of Economics in Katowice,
 - 4) scientific discipline – a part of the scientific discipline within which education is provided at the Doctoral School,
 - 5) scientific committee – the body of the University that awards academic degrees of doctor and doctor habilitatus in each of the scientific disciplines in which the University is authorized to award academic degrees,
 - 6) course type – lecture, class, laboratory, foreign language class, seminar, or other type of course specified in the curriculum.
4. Ilekroć w Regulaminie jest mowa o promotorze należy przez to rozumieć również drugiego promotora jeżeli został powołany.

§ 2

1. Education at the School is conducted in a stationary form.
2. Education at the School is conducted free of charge.

§ 3

1. The Doctoral School Office provides organizational and technical support for the School.
2. The University shall, whenever possible, provide doctoral students with disabilities with appropriate conditions for attending courses and completing them, taking into account the degree of their disability.

§ 4

The superior and mentor of the doctoral students is the Director.

§ 5

1. The Doctoral Student Government shall represent all doctoral students before the University bodies and other entities.
2. The scope of activity of the Doctoral Student Government is specified in its Rules and Regulations.

§ 6

Doctoral students are entitled to social insurance and general health insurance according to the separate regulations governing them.

CHAPTER II. Organization of the Doctoral School

§ 1

1. Education at the School lasts four years and is divided into semesters.
2. The academic year consists of two semesters: the winter semester and the summer semester. The framework organization of an academic year, including the dates of commencement and completion of courses, shall be determined by the Rector by means of an order.

CHAPTER III. Rights and obligations of the doctoral student

§ 1

1. A person admitted to the School commences education and acquires the rights of a doctoral student upon taking the oath, the content of which is specified in the Statute of the University.
2. The oath signed by a doctoral student is kept in the doctoral student's personal file.
3. Upon matriculation, a doctoral student shall receive an electronic doctoral student ID card.
4. The student ID card referred to in (3) entitles the student to all the rights of a doctoral student and must be returned upon graduation, suspension, or removal from the doctoral student register. The format of the ID card is governed by separate regulations.

§ 2

1. A doctoral student who does not possess a doctoral degree shall receive a doctoral scholarship pursuant to the rules stipulated in the Act. Detailed rules for awarding and paying doctoral scholarships are governed by separate regulations.
2. A doctoral student has the right to:
 - 1) participate, through their representatives, in the work of the University bodies, the electoral college, the School Council and committees operating at the University,
 - 2) participate in courses conducted at the University,
 - 3) scientific supervision of their research work, performed by a supervisor and an assistant supervisor, if one has been appointed,
 - 4) change the supervisor or assistant supervisor, according to the rules specified in § 16,
 - 5) use the library and information resources of the University according to the rules in force at the University.
3. A doctoral student may apply for:
 - 1) eligibility for foreign scholarships under programs offered by the University,
 - 2) national and international studies and research fellowships,
 - 3) grants from the National Science Center and the National Center for Research and Development,
 - 4) financial resources for conducting research or development work and related tasks aimed at the professional growth of young scientists and doctoral students, financed as part of an internal competition,
 - 5) participation in scientific research conducted by departments.
4. A doctoral student has the right to a leave of absence, not exceeding eight weeks per year, which should be taken during the period free from teaching activities.

§ 3

1. A doctoral student shall:
 - 1) act according to the oath, the Rules and Regulations and other regulations in force at the University,
 - 2) submit a declaration of the selection of a supervisor, referred to in § 13,
 - 3) implement an individual research plan,
 - 4) implement the applicable curriculum, including active participation in courses covered by the curriculum,
 - 5) submit to the Dean semester reports on their academic progress,
 - 6) complete the coursework on time and pass examinations in accordance with the curriculum,
 - 7) conduct research, including systematic scientific work on issues covered by the dissertation topic,
 - 8) undergo the mid-term evaluation referred to in § 22,
 - 9) inform the supervisor of any intention to resign from their studies or to extend the deadline for the submission of the dissertation.
2. A doctoral student is obliged to inform the University of any changes to their personal data and contact details. Correspondence sent to the doctoral student's last mailing address known to the University shall be deemed delivered.

§ 4

A doctoral student shall be subject to disciplinary liability pursuant to the rules outlined in the Act, the implementing regulations, and the Statute of the University.

CHAPTER IV. Appointment and change of supervisor or assistant supervisor

§ 1

1. Within two months of commencing studies, but no later than November 30, a doctoral student shall submit to the Director a declaration regarding their choice of a supervisor, confirmed by the candidate for a supervisor and accepted by the supervisor's department head.
2. Failure to submit the declaration by the deadline referred to in (1) results in the appointment of a supervisor ex officio by the deadline referred to in (3).
3. The Director shall appoint a supervisor no later than December 31 of the academic year in which the doctoral student began their studies.
4. Upon the supervisor's request, the Director may appoint an assistant supervisor for the doctoral student.

§ 2

1. The supervisor may be an academic teacher holding the degree of doctor habilitatus or the title of professor. The associate supervisor may be a person with a doctoral degree.
2. The supervisor may be a person who does not meet the conditions specified in (1), who is an employee of a foreign university or scientific institution, if the University's Scientific Committee decides that this person has significant achievements in the area of academic issues covered by the doctoral dissertation.
3. A person cannot become a supervisor if, within the last 5 years, they:
 - 1) were the supervisor of 4 doctoral students who were removed from the doctoral student register due to a negative mid-term evaluation, or

- 2) supervised the preparation of a dissertation by at least two doctoral students who did not obtain positive reviews, as referred to in Art. 191 (1) of the Act.

§ 3

1. The supervisor's duties shall include, in particular:
 - 1) providing scientific supervision over the preparation of the doctoral dissertation,
 - 2) providing the necessary substantive and methodical help in research for the doctoral student,
 - 3) assisting in the development of an individual research plan,
 - 4) providing methodical guidance and assistance in gaining teaching experience,
 - 5) assisting in building a set of research tools,
 - 6) assessing in writing the progress of the doctoral student's academic work, in particular the preparation and implementation of an individual research plan,
 - 7) assessing the scientific development of the doctoral student and the progress of the dissertation,
 - 8) giving an opinion on applications for extending the deadline for submission of the dissertation referred to in §22, before submitting them to the Director of the School,
 - 9) notifying the Director of the lack of progress in academic work and requesting removal from the doctoral student register.
2. The duties of an assistant supervisor shall include, in particular:
 - 1) exercising scientific supervision over the preparation of the doctoral dissertation in consultation with the supervisor,
 - 2) performing an assisting function in the supervision of the doctoral student, including in particular the process of planning research, its implementation and analysis of results.

§ 4

1. A doctoral student or a supervisor may submit to the Dean a request to change the supervisor, together with a justification.
2. The Director shall decide on the change of the supervisor no later than 14 days after the request is received by the Doctoral School Office.
3. In the event of a long-term absence of the supervisor, which could delay the submission of the dissertation, the Director may appoint another supervisor after consultation with the doctoral student.

§ 5

1. A doctoral student shall report to the department's head about the conducted research and organizational work performed for the department.
2. The department head may assign a doctoral student to teach.
3. If assigned to teach, the doctoral student shall report to the department head in this regard.

CHAPTER V. Course of study and its documentation

§ 1

1. The education shall be provided based on a curriculum and an individual research plan.
2. The education shall be provided within the framework of scientific disciplines. In justified cases, the Dean may, by the end of the first year of study, grant permission to change the scientific discipline a doctoral student pursues. Provisions of § 16 shall apply accordingly.
3. The curriculum of the School shall be adopted by the Senate in consultation with the Doctoral Student Government.

4. The curriculum of the School shall include:
 - 1) compulsory courses;
 - 2) free choice electives.
5. The curriculum shall be published on the University website no later than five months before the commencement of studies.
6. Provisions of (3) shall apply mutatis mutandis to changes to the curriculum.
7. Courses at the School may be conducted in the form of remote learning.
8. Selected courses referred to in (4) (1)-(2) may be organized jointly for doctoral students representing all or selected scientific disciplines.

§ 2

A doctoral student, in consultation with their supervisor and assistant supervisor, if appointed, shall develop an individual research plan that includes, in particular:

- 1) schedule for the preparation of the doctoral dissertation, divided into semesters,
 - 2) deadline for submission of the dissertation, which shall be no later than September 30 of the final year of study,
 - 3) purpose of the dissertation,
 - 4) research hypotheses or research questions,
 - 5) research methods,
 - 6) structure of the dissertation,
- and submit it to the Dean within 12 months of the commencement of studies, but no later than September 30.

§ 3

1. The semester shall constitute the grading period.
2. To complete a year, students must achieve the learning outcomes outlined in the curriculum.
3. The conditions and procedures for attending classes, including end-of-course assessments and examinations, are defined in the course description cards.
4. The following grading scale shall be adopted:

Grade	Numerical equivalent	Letter equivalent
Excellent	5,0	A
Very good	4,5	B
Good	4,0	C
Satisfactory	3,5	D
Sufficient	3,0	E
Fail	2,0	FX, F

5. The positive grades that indicate passing the course are: excellent, very good, good, satisfactory, and sufficient. A negative grade that means failing the course is fail/no credit.
6. If a student receives a "fail" grade in a given course and then passes it during the retake assessment/exam, the final grade is the arithmetic average of the grades obtained in the course, which is not lower than a "sufficient" grade.
7. The student's grade for the course shall be published by the course instructor in the Virtual University.

8. In the case of failing a course included in the curriculum, a doctoral student shall be entitled to one retake assessment/exam for each course. The course instructor shall set the dates for retake assessments/exams according to the retake session timetable.
9. The Dean shall assess the implementation of the curriculum by the doctoral student and award credit for the semester.
10. A student may not receive credit for the course based on a grade obtained for any course carried out at the undergraduate, graduate or postgraduate level of studies.
11. A doctoral student shall not be entitled to repeat courses or resume courses after removal from the doctoral student register.

§ 4

Przebieg kształcenia w Szkole jest dokumentowany w:

- 1) doctoral student's academic progress report,
- 2) report on the progress of scientific work in a semester,
- 3) report on the implementation of the individual research plan.

CHAPTER VI. Conducting the mid-term evaluation

§ 1

1. Implementation of the individual research plan is subject to mid-term evaluation after the end of the fourth semester of study.
2. The mid-term evaluation shall be conducted by a committee appointed by the Rector and consisting of:
 - 1) the Director – as a chair,
 - 2) the head of a department to which the doctoral student is assigned,
 - 3) a person who is not an employee of the University and who holds the degree of doctor habilitatus or the title of professor in the discipline in which the doctoral dissertation is being prepared.
3. In justified cases, the Director may appoint another person to participate in the committee's work, particularly when the department head is the doctoral student's supervisor.
4. A doctoral student is required to submit a report on the implementation of the individual research plan to the Director by September 30. The plan shall include:
 - 1) purpose of the dissertation,
 - 2) research hypotheses or research questions,
 - 3) research methods,
 - 4) structure of the dissertation,
 - 5) information on meeting the schedule for the preparation of the doctoral dissertation,
 - 6) report on the presentation of the doctoral dissertation concept at the faculty meeting,
 - 7) a list of scientific publications prepared during the studies, with particular emphasis on publications that are a prerequisite for initiating the doctoral program;
 - 8) a list of conducted research projects,
 - 9) information regarding participation in research conducted by the department,
 - 10) a list of grades obtained during the course of studies,
 - 11) information on active participation in conferences,
 - 12) information on scientific internships related to the doctoral dissertation,
 - 13) information on awards connected with scientific work,
 - 14) a list of workshops or training related to scientific work,
 - 15) information on scientific and organizational activity (e.g., supervising a research club, participating in the research club's activities, holding a position in the scientific

- association, assisting in the organization of conferences, working in the editorial office of a journal),
- 16) opinion of the supervisor and assistant supervisor, if appointed, on the progress of the doctoral dissertation and the doctoral student's scientific progress,
 - 17) a list of other scientific activities.
5. The results of the mid-term evaluation shall be announced by the committee together with the justification.
 6. The committee operates under the Rules and Regulations adopted by the Rector's Order, which define, among other things, detailed criteria for determining the mid-term evaluation result.

CHAPTER VII. Extension and suspension of study

§ 1

1. At the request of a doctoral student, the Director may extend the deadline for submission of the dissertation.
2. The application should be submitted no later than September 30 of the last semester of study.
3. A doctoral student applying for an extension of the deadline shall submit an application containing:
 - 1) personal data of the doctoral student: name, surname, PESEL number [Polish Personal Identification No.], and if there is no PESEL number – the number of the document confirming identity,
 - 2) year of study,
 - 3) proposed period of extension,
 - 4) justification,
 - 5) supervisor's opinion, including a detailed assessment of the degree of the dissertation's progress, together with the expected date of its completion.
4. During the period of extension, a doctoral student shall retain a valid student ID card and other doctoral student rights, unless separate regulations provide otherwise.
5. The period of extension shall be decided by the Director. The period of extension may not exceed 2 years.
6. The Director shall extend the deadline for submission of the doctoral dissertation:
 - 1) for a doctoral student who has already prepared no less than 50% of the dissertation – no longer than one year,
 - 2) for a doctoral student who has already prepared at least 75% of the dissertation – no longer than one additional year.

§ 2

1. At the request of a doctoral student, the Director may suspend the doctoral student's education at the School for the duration of a maternity leave, a leave on terms of maternity leave, a paternity leave or a parental leave as defined in separate regulations, while releasing the doctoral student from the obligation to attend classes.
2. A written application shall be submitted no later than 14 days after the circumstances referred to in (1) occur.
3. When granting permission for the suspension of study for a period other than an academic year, the Director shall specify the conditions for the continuation of study to be observed by a doctoral student after the end of the suspension period, and in particular the deadlines for the performance of specific duties arising from these Rules and Regulations. The Director shall inform the doctoral student in writing of the requirements for continuing the

course of study.

4. After the end of the period of suspension, a doctoral student is obliged to submit, within 7 days, a declaration confirming the continuation of studies. Failure to submit the declaration constitutes grounds for removal from the doctoral student register due to resignation from studies.

CHAPTER VIII. Removal from the doctoral student register

§ 1

1. The Director shall remove a doctoral student from the doctoral student register by means of an administrative decision, in the case of:
 - 1) negative mid-term evaluation result,
 - 2) failure to submit the dissertation by the deadline specified in the individual research plan,
 - 3) resignation from studies,
 - 4) disciplinary penalty resulting in expulsion from the University.
2. The Director may decide to expel a doctoral student in the event of:
 - 1) unsatisfactory progress in the preparation of the doctoral dissertation,
 - 2) failing to fulfil the obligations specified in these Rules and Regulations.
3. The Director determines if the student failed to meet the obligations specified in § 10 (1) (3)-(4) based on an analysis of the individual achievements of the doctoral student.
4. A student may appeal against the decision referred to in (1) by requesting a review of the case.
5. A person removed from the doctoral student register shall immediately return books, materials and other items that are the property of the University, in particular the student ID card, and meet all financial obligations to the University.
6. Resignation from studies should be submitted to the Doctoral School Office in writing; otherwise, it shall be null and void.

CHAPTER IX. Completing education at the School

§ 1

1. The basis for the completion of studies at the School is obtaining passing grades for all of the courses included in the curriculum, which results in the achievement of learning outcomes for qualifications at level 8 of the Polish Qualification Framework (PRK), as well as the submission of a doctoral dissertation to the chair of the appropriate Scientific Committee together with a set of documents.
2. The deadline for the submission of the doctoral dissertation may be extended, however, not longer than 2 years, pursuant to the rules laid down in § 22.

CHAPTER X. Final provisions

§ 1

1. The Director is authorized to make decisions in matters that concern the rules and mode of study at the School, and which are not regulated by these Rules and Regulations or other legal provisions.
2. Unless otherwise specified by law or these Rules and Regulations, the Director's decision may be appealed to the Rector. The appeal must be submitted in writing through the Director within 14 days of receiving the decision. The Rector's decision is final.

Resolution No. 73/2021/2022
of the Senate of the University of Economics in Katowice
of March 31, 2022,
on the adoption of the Rules and Regulations of the Doctoral School
at the University of Economics in Katowice

Based on Art. 205 of the Law on Higher Education and Science of July 20, 2018 (i.e., Journal of Laws of 2022, item 574, as amended) and § 24 (1) (6) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

The Rules and Regulations of the Doctoral School at the University of Economics in Katowice are hereby adopted, constituting Appendix No. 1 to the following Resolution.

§ 2

Resolution No. 79/2018/2019 of the Senate of the University of Economics in Katowice of May 30, 2019, on the adoption of the Rules and Regulations of the Doctoral School at the University of Economics in Katowice (as amended) shall become null and void.

§ 3

For cases initiated and not completed by the date of entry into force of the regulations referred to in § 1, the existing regulations shall apply.

§ 4

The resolution shall enter into force on October 1, 2022.

President of the Senate
Rector

(-) prof. dr hab. inż. Celina M. Olszak

CHAPTER I. General provisions

§ 1

1. The Doctoral School of the University of Economics in Katowice, hereinafter referred to as the School, educates doctoral students and prepares them to obtain a doctoral degree.
2. A person may be admitted to the Doctoral School if they hold a master's degree, master of science degree, or an equivalent degree, or if they are a person referred to in Art. 186 (2) of the Act of July 20, 2018 – Law on Higher Education and Science, hereinafter referred to as the Act.
3. Terms used in the Rules and Regulations shall mean:
 - 1) doctoral student – a person admitted to the Doctoral School who has commenced studies and gained the rights of a doctoral student upon taking the oath,
 - 2) days – calendar days,
 - 3) Dean – a person who manages the Doctoral School within the meaning of the Statute of the University of Economics in Katowice,
 - 4) scientific discipline – a part of the scientific discipline within which education is provided at the Doctoral School,
 - 5) scientific committee – the body of the University that awards academic degrees of doctor and doctor habilitatus in each of the scientific disciplines in which the University is authorized to award academic degrees,
 - 6) course type – lecture, class, laboratory, foreign language class, seminar, or other type of course specified in the curriculum,
 - 7) study program in Polish – study programs delivered in Polish and established by the appropriate resolution of the Senate of the University of Economics in Katowice,
 - 8) study program in English – study programs delivered in English and established by the appropriate resolution of the Senate of the University of Economics in Katowice,
 - 9) "Implementation Doctorate" program – programs which are referred to in the relevant announcements of the minister responsible for higher education and science, issued based on the Act.
4. Whenever the Rules and Regulations refer to a supervisor, it shall also mean a second supervisor if one has been appointed.

§ 2

1. Education at the School is conducted in a stationary form.
2. Education at the School is conducted free of charge.

§ 3

1. The Doctoral School Office provides organizational and technical support for the School.
2. The University shall, whenever possible, provide doctoral students with disabilities with appropriate conditions for attending courses and completing them, taking into account the degree of their disability.

§ 4

The superior and mentor of the doctoral students is the Dean – the Director of the Doctoral School.

§ 5

1. The Doctoral Student Government shall represent all doctoral students before the University bodies and other entities.
2. The scope of activity of the Doctoral Student Government is specified in its Rules and Regulations.

§ 6

Doctoral students are entitled to social insurance and general health insurance according to the separate regulations governing them.

§ 7

1. The University shall, wherever possible, ensure that doctoral students with disabilities can fully participate in the educational process and in scientific research, taking into account the nature and severity of their disability.
2. A doctoral student with disabilities may apply for:
 - 1) adjustment of the assessment or examination conditions:
 - a) extending the time given to complete an assessment/exam;
 - b) increased font size,
 - c) changing the form of the assessment/exam from oral to written,
 - d) changing the form of the assessment/exam from written to oral,
 - 2) access to teaching materials from specified courses;
 - 3) additional classes accommodating the specific needs of persons with disabilities.
3. A doctoral student with disabilities may use the support for the educational process by reporting their needs to the Accessibility Center.
4. Detailed rules and the organization of support for doctoral students with disabilities are defined by the Rector by means of an order.

CHAPTER II. Organization of the Doctoral School

§ 8

1. Education at the School lasts four years and is divided into semesters.
2. The academic year consists of two semesters: the winter semester and the summer semester. The framework organization of an academic year, including the dates of commencement and completion of courses, shall be determined by the Rector by means of an order.

CHAPTER III. Rights and obligations of the doctoral student

§ 9

1. A person admitted to the School commences education and acquires the rights of a doctoral student upon taking the oath, the content of which is specified in the Statute of the University.
2. The oath signed by a doctoral student is kept in the doctoral student's personal file.
3. Upon matriculation, a doctoral student shall receive an electronic doctoral student ID card.
4. The student ID card referred to in (3) entitles the student to all the rights of a doctoral student and must be returned upon graduation, suspension, or removal from the doctoral student register. The format of the ID card is governed by separate regulations.

§ 10

1. A doctoral student who does not possess a doctoral degree shall receive a doctoral scholarship pursuant to the rules stipulated in the Act. Detailed rules for awarding and paying doctoral scholarships are governed by separate regulations.
2. A doctoral student has the right to:
 - 1) participate, through their representatives, in the work of the University bodies, the electoral college, the School Council and committees operating at the University,
 - 2) participate in courses conducted at the University,
 - 3) scientific supervision of their research work, performed by a supervisor and an assistant supervisor, if one has been appointed,
 - 4) change the supervisor or assistant supervisor, according to the rules specified in § 16,
 - 5) use the library and information resources of the University according to the rules in force at the University,
 - 6) equal treatment in education and not being discriminated against in any manner, directly or indirectly, in particular based on gender, age, disability, race, religion, nationality, political beliefs, union membership, ethnic origin or sexual orientation.
3. A doctoral student may apply for:
 - 1) eligibility for foreign scholarships under programs offered by the University,
 - 2) national and international studies and research fellowships,
 - 3) grants from the National Science Center and the National Center for Research and Development,
 - 4) financial resources for conducting research or development work and related tasks aimed at the professional growth of young scientists and doctoral students, financed as part of an internal competition,
 - 5) participation in scientific research conducted by departments.

4. A doctoral student has the right to a leave of absence, not exceeding eight weeks per year, which should be taken during the period free from teaching activities.
5. In justified cases, after the doctoral student has submitted a written application together with copies of documents confirming the circumstances justifying an intermission at the School, the Dean may agree to a leave for a period not exceeding one year in total, in particular due to:
 - 1) temporary inability to pursue studies caused by an illness,
 - 2) need to provide personal care for a sick family member,
 - 3) need to provide personal care for a child up to the age of four or a child with a recognized disability,
 - 4) the possession of a disability certificate,
 - 5) occurrence of unforeseen fortuitous events.
6. When granting permission for leave, the Dean shall specify the conditions for the continuation of studies to be observed by the doctoral student after the leave ends, and, in particular, the deadlines for fulfilling the individual obligations outlined in the Rules and Regulations. The Dean shall inform the doctoral student in writing of the requirements for continued studies.
7. During the leave, a doctoral student shall retain the valid student ID card and other doctoral student rights, with the proviso that they do not receive a scholarship referred to in (1).
8. After the leave ends, a doctoral student is obliged to submit, within 7 working days from the date of the leave's end, a declaration confirming continuation of studies or resignation from studies. Failure to submit the declaration constitutes grounds for removal from the doctoral student register.

§ 11

1. A doctoral student shall:
 - 1) act according to the oath, the Rules and Regulations and other regulations in force at the University,
 - 2) submit a declaration of the selection of a supervisor, referred to in § 13,
 - 3) implement an individual research plan,
 - 4) implement the applicable curriculum, including active participation in courses covered by the curriculum,
 - 5) submit to the Dean semester reports on their academic progress,
 - 6) complete the coursework on time and pass examinations in accordance with the curriculum,
 - 7) conduct research, including systematic scientific work on issues covered by the dissertation topic,
 - 8) undergo the mid-term evaluation referred to in § 22,
 - 9) inform the supervisor of any intention to resign from their studies or to extend the deadline for the submission of the dissertation,

- 10) equal treatment of members of the academic community, regardless of sex, age, disability, race, religion, nationality, political beliefs, ethnic origin or sexual orientation.
2. A doctoral student is obliged to inform the University of any changes to their personal data and contact details. Correspondence sent to the doctoral student's last mailing address known to the University shall be deemed delivered.
3. It is the responsibility of a doctoral student preparing a dissertation under the "Implementation Doctorate" program to undertake activities in a timely manner to ensure compliance with the regulations governing the program.

§ 12

A doctoral student shall be subject to disciplinary liability pursuant to the rules outlined in the Act, the implementing regulations, and the Statute of the University.

CHAPTER IV. Appointment and change of supervisor or assistant supervisor

§ 13

1. Within two months of commencing studies, but no later than November 30, a doctoral student shall submit to the Dean a declaration regarding their choice of a supervisor, confirmed by the candidate for a supervisor and accepted by the supervisor's department head.
2. Failure to submit the declaration by the deadline referred to in (1) results in the appointment of a supervisor ex officio by the deadline referred to in (3).
3. The Dean shall appoint a supervisor no later than December 31 of the academic year in which the doctoral student began their studies.
4. Upon the supervisor's request, the Dean may appoint an assistant supervisor for the doctoral student.
5. In the case of a doctoral student preparing a dissertation under the "Implementation Doctorate" program, a person designated as a candidate for a supervisor in the application prepared according to the rules for that program shall be appointed as the supervisor. In this case, the provisions of (1)-(2) shall not apply.

§ 14

1. The supervisor may be an academic teacher holding the degree of doctor habilitatus or the title of professor. The associate supervisor may be a person with a doctoral degree.
2. The supervisor may be a person who does not meet the conditions specified in (1), who is an employee of a foreign university or scientific institution, if the University's Scientific Committee decides that this person has significant achievements in the area of academic issues covered by the doctoral dissertation.
3. A person cannot become a supervisor if, within the last 5 years, they:

- 1) were the supervisor of 4 doctoral students who were removed from the doctoral student register due to a negative mid-term evaluation, or
- 2) supervised the preparation of a dissertation by at least two doctoral students who did not obtain positive reviews, as referred to in Art. 191 (1) of the Act.

§ 15

1. The supervisor's duties shall include, in particular:
 - 1) providing scientific supervision over the preparation of the doctoral dissertation,
 - 2) providing the necessary substantive and methodical help in research for the doctoral student,
 - 3) assisting in the development of an individual research plan,
 - 4) providing methodical guidance and assistance in gaining teaching experience,
 - 5) assisting in building a set of research tools,
 - 6) assessing in writing the progress of the doctoral student's academic work, in particular the preparation and implementation of an individual research plan,
 - 7) assessing the scientific development of the doctoral student and the progress of the dissertation,
 - 8) giving an opinion on applications for extending the deadline for submission of the dissertation referred to in §24, before submitting them to the Dean of the School,
 - 9) notifying the Dean of the lack of progress in academic work and requesting removal from the doctoral student register.
2. The duties of an assistant supervisor shall include, in particular:
 - 1) exercising scientific supervision over the preparation of the doctoral dissertation in consultation with the supervisor,
 - 2) performing an assisting function in the supervision of the doctoral student, including in particular the process of planning research, its implementation and analysis of results.
3. The supervisor of a doctoral student preparing a dissertation within the framework of the "Implementation Doctorate" program shall take timely actions to ensure compliance with the regulations governing this program.

§ 16

1. A doctoral student or a supervisor may submit to the Dean a request to change the supervisor, together with a justification.
2. The Dean shall decide on the change of the supervisor no later than 14 days after the request is received by the Doctoral School Office.
3. In the event of a long-term absence of the supervisor, which could delay the submission of the dissertation, the Dean may appoint another supervisor after consultation with the doctoral student.
4. In the case of a doctoral student preparing a dissertation within a framework of the "Implementation Doctorate" program, a change of the supervisor is possible only in

accordance with the program's regulations. Provisions of (1)-(3) shall not apply in this case.

§ 17

1. A doctoral student shall report to the department's head about the conducted research and organizational work performed for the department.
2. The department head may assign a doctoral student to teach.
3. If assigned to teach, the doctoral student shall report to the department head in this regard.

CHAPTER V. Course of study and its documentation

§ 18

1. The education shall be provided based on a curriculum and an individual research plan.
2. The education shall be provided within the framework of scientific disciplines. In justified cases, the Dean may, by the end of the first year of study, grant permission to change the scientific discipline a doctoral student pursues. Provisions of § 16 shall apply accordingly.
3. The curriculum of the School shall be adopted by the Senate in consultation with the Doctoral Student Government.
4. The curriculum of the School shall include:
 - 1) compulsory courses;
 - 2) free choice electives.
5. The curriculum shall be published on the University website no later than five months before the commencement of studies.
6. Provisions of (3) shall apply mutatis mutandis to changes to the curriculum.
7. Courses at the School may be conducted in the form of remote learning.
8. Selected courses referred to in (4) (1)-(2) may be organized jointly for doctoral students representing all or selected scientific disciplines.

§ 19

1. A doctoral student, in consultation with their supervisor and assistant supervisor, if appointed, shall develop an individual research plan that includes, in particular:
 - 1) schedule for the preparation of the doctoral dissertation, divided into semesters,
 - 2) deadline for submission of the dissertation, which shall be no later than September 30 of the final year of study,
 - 3) purpose of the dissertation,
 - 4) research hypotheses or research questions,
 - 5) research methods,
 - 6) structure of the dissertation,and submit it to the Dean within 12 months of the commencement of studies, but no later than September 30.

2. In the case of a doctoral student preparing a dissertation under the "Implementation Doctorate" program, the individual research plan shall include the implementation and be developed in consultation with an assistant supervisor who represents the cooperating entity.
3. In the case of a doctoral student preparing a dissertation under the "Implementation Doctorate" program, the individual research plan shall be carried out in collaboration with a cooperating entity.

§ 20

1. In the case of a doctoral student preparing a dissertation under the "Implementation Doctorate" program, the dissertation must comply with the requirements specified in the announcements referred to in § 1 (3) (9).
2. In the case of a doctoral student preparing a dissertation within the framework of an English-language program, the doctoral dissertation is a written work, including a scientific monograph in English, a collection of thematically related scientific papers published in English or an independent and separate part of a collective work in English.

§ 21

1. The semester shall constitute the grading period.
2. To complete a year, students must achieve the learning outcomes outlined in the curriculum.
3. The rules regarding the selection and completion of free choice electives referred to in §17 (4) (2) shall be specified by the Dean.
4. At the request of a doctoral student, credits for courses taught as part of the curricula of doctoral programs at other universities, including foreign ones, may be used to obtain the credit for "free choice electives" included in the curricula of Polish-language programs, provided that the number of ECTS credits is at least equivalent to the number of credits specified in the curricula for Polish programs.
5. At the request of a doctoral student, credits for courses taught in English as part of the curricula of doctoral programs at other universities, including foreign ones, may be used to obtain the credit for "free choice electives in English" included in the curricula of Polish-language programs, provided that the number of ECTS credits is at least equivalent to the number of credits specified in the curricula for Polish programs.
6. At the request of a doctoral student, credits for courses taught in English as part of the curricula of doctoral programs at other universities, including foreign ones, may be used to obtain the credit for "free choice electives" included in the curricula of English-language programs, provided that the number of ECTS credits is at least equivalent to the number of credits specified in the curricula for English programs.
7. The Dean may recognize learning outcomes achieved during studies at another university, including a foreign one. The Dean decides on the grade and ECTS points for courses completed at another university, including a foreign one, based on documentation submitted by the doctoral student.

8. The conditions and procedures for attending classes, including end-of-course assessments and examinations, are defined in the course description cards.
9. The following grading scale shall be adopted:

<i>Grade</i>	<i>Numerical equivalent</i>	<i>Letter equivalent</i>
<i>Excellent</i>	<i>5,0</i>	<i>A</i>
<i>Very good</i>	<i>4,5</i>	<i>B</i>
<i>Good</i>	<i>4,0</i>	<i>C</i>
<i>Satisfactory</i>	<i>3,5</i>	<i>D</i>
<i>Sufficient</i>	<i>3,0</i>	<i>E</i>
<i>Fail</i>	<i>2,0</i>	<i>FX, F</i>

10. The positive grades that indicate passing the course are: excellent, very good, good, satisfactory, and sufficient. A negative grade that means failing the course is fail/no credit.
11. If a student receives a "fail" grade in a given course and then passes it during the retake assessment/exam, the final grade is the arithmetic average of the grades obtained in the course, which is not lower than a "sufficient" grade.
12. The student's grade for the course shall be published by the course instructor in the Virtual University.
13. In the case of failing a course included in the curriculum, a doctoral student shall be entitled to one retake assessment/exam for each course. The course instructor shall set the dates for retake assessments/exams according to the retake session timetable.
14. Within 7 days of the publication of the results of the exam or assessment, the doctoral student may apply to the Dean for an exam/assessment conducted before an examination board.
15. Upon review of the application referred to in (14), the Dean may decide to conduct an exam or assessment before an examination board, specifying its form and date, or reject the doctoral student's application. The exam/assessment before the examination board shall be conducted within a period of two to fourteen days following the date on which it is ordered.
16. The exam or assessment referred to in (15) shall be held before a board composed of the Dean, who acts as the board's chair, the examiner who conducted the exam or assessment, and another specialist in the subject of the exam/assessment or in a related specialization. At the request of a doctoral student, the supervisor and a representative of the Doctoral Student Government indicated by the doctoral student may participate in the exam or assessment as observers.
17. The Dean shall assess the implementation of the curriculum by the doctoral student and award credit for the semester.

18. A student may not receive credit for the course based on a grade obtained for any course carried out at the undergraduate, graduate or postgraduate level of studies.
19. A doctoral student shall not be entitled to repeat courses or resume courses after removal from the doctoral student register.

§ 22

The course of study at the School is documented in:

- 1) doctoral student's academic progress report,
- 2) report on the progress of scientific work in a semester,
- 3) report on the implementation of the individual research plan.

CHAPTER VI. Conducting the mid-term evaluation

§ 23

1. Implementation of the individual research plan is subject to mid-term evaluation after the end of the fourth semester of study.
2. The mid-term evaluation shall be conducted by a committee appointed by the Rector and consisting of:
 - 1) the Dean – as a chair,
 - 2) the head of a department to which the doctoral student is assigned,
 - 3) a person who is not an employee of the University and who holds the degree of doctor habilitatus or the title of professor in the discipline in which the doctoral dissertation is being prepared.
3. In justified cases, the Dean may appoint another person to participate in the committee's work, particularly when the department head is the doctoral student's supervisor.
4. A doctoral student is required to submit a report on the implementation of the individual research plan to the Dean by September 30. The plan shall include:
 - 1) purpose of the dissertation,
 - 2) research hypotheses or research questions,
 - 3) research methods,
 - 4) structure of the dissertation,
 - 5) information on meeting the schedule for the preparation of the doctoral dissertation,
 - 6) information on the degree of preparation of the dissertation, accompanied by an electronic version of the already prepared parts of the dissertation,
 - 7) report on the presentation of the doctoral dissertation concept at the faculty meeting,
 - 8) a list of scientific publications prepared during the studies, with particular emphasis on publications that are a prerequisite for initiating the doctoral program;
 - 9) a list of conducted research projects,
 - 10) information regarding participation in research conducted by the department,
 - 11) a list of grades obtained during the course of studies,
 - 12) information on active participation in conferences,

- 13) information on scientific internships related to the doctoral dissertation,
 - 14) information on awards connected with scientific work,
 - 15) a list of workshops or training related to scientific work,
 - 16) information on scientific and organizational activity (e.g., supervising a research club, participating in the research club's activities, holding a position in the scientific association, assisting in the organization of conferences, working in the editorial office of a journal),
 - 17) opinion of the supervisor and assistant supervisor, if appointed, on the progress of the doctoral dissertation and the doctoral student's scientific progress,
 - 18) a list of other scientific activities.
5. The results of the mid-term evaluation shall be announced by the committee together with the justification.
 6. The committee operates under the Rules and Regulations adopted by the Rector's Order, which define, among other things, detailed criteria for determining the mid-term evaluation result.

CHAPTER VII. Extension and suspension of study

§ 24

1. In justified cases, at the request of a doctoral student, the Dean may extend the deadline for submission of the dissertation, in particular due to:
 - 1) temporary inability to pursue studies caused by an illness,
 - 2) need to take personal care of an ill family member,
 - 3) need to take personal care of a child under the age of four or a child with a recognized disability,
 - 4) holding a disability degree certificate,
 - 5) occurrence of unforeseen fortuitous events,
 - 6) need to conduct long-term scientific research.
2. The application should be submitted no later than September 30 of the last semester of study.
3. A doctoral student applying for an extension of the deadline for submission of the dissertation shall submit an application containing:
 - 1) personal data of the doctoral student: name, surname, PESEL number [Polish Personal Identification No.], and if there is no PESEL number – the number of the document confirming identity,
 - 2) year of study,
 - 3) proposed period of extension,
 - 4) justification,
 - 5) supervisor's opinion, including a detailed assessment of the degree of the dissertation's progress, together with the expected date of its completion.

4. During the period of extension, a doctoral student shall retain a valid student ID card and other doctoral student rights, unless separate regulations provide otherwise.
5. The period of extension shall be decided by the Dean. The period of extension may not exceed 2 years.
6. The Dean shall extend the deadline for submission of the doctoral dissertation:
 - 1) for a doctoral student who has already prepared no less than 50% of the dissertation – no longer than one year,
 - 2) for a doctoral student who has already prepared at least 75% of the dissertation – no longer than one additional year.
7. After the end of the period of extension of the deadline for submission of the doctoral dissertation for cases referred to in (1) (1)-(5), a doctoral student shall submit, within seven working days of the end of the extension period, a declaration regarding the continuation of studies or resignation. Failure to submit the declaration constitutes grounds for removal from the doctoral student register.
8. In the case of a doctoral student preparing a dissertation under the "Implementation Doctorate" program, the provisions of (1)-(7) shall apply, provided that the rules of the program are observed.

§ 25

1. At the request of a doctoral student, the Dean may suspend the doctoral student's education at the School for the duration of a maternity leave, a leave on terms of maternity leave, a paternity leave or a parental leave as defined in separate regulations, while releasing the doctoral student from the obligation to attend classes.
2. A written application shall be submitted no later than 14 days after the circumstances referred to in (1) occur.
3. When granting permission for the suspension of study for a period other than an academic year, the Dean shall specify the conditions for the continuation of study to be observed by a doctoral student after the end of the suspension period, and in particular the deadlines for the performance of specific duties arising from these Rules and Regulations. The Dean shall inform the doctoral student in writing of the requirements for continuing the course of study.
4. After the end of the period of suspension, a doctoral student is obliged to submit, within 7 days, a declaration confirming the continuation of studies. Failure to submit the declaration constitutes grounds for removal from the doctoral student register due to resignation from studies.

Chapter VIII. Removal from the doctoral student register

§ 26

1. The Dean shall remove a doctoral student from the doctoral student register by means of an administrative decision, in the case of:

- 1) negative mid-term evaluation result,
 - 2) failure to submit the dissertation by the deadline specified in the individual research plan,
 - 3) resignation from studies,
 - 4) disciplinary penalty resulting in expulsion from the University.
2. The Dean may decide to expel a doctoral student in the event of:
 - 1) unsatisfactory progress in the preparation of the doctoral dissertation,
 - 2) failing to fulfil the obligations specified in these Rules and Regulations,
 - 3) receiving a negative evaluation issued based on the regulations of the "Implementation Doctorate" program,
 - 4) failing to meet the requirements specified in the regulations of the "Implementation Doctorate" program.
 3. The Dean determines if the student failed to meet the obligations specified in § 11 (1) (3)-(4) based on an analysis of the individual achievements of the doctoral student.
 4. A student may appeal against the decision referred to in (1) by requesting a review of the case.
 5. A person removed from the doctoral student register shall immediately return books, materials and other items that are the property of the University, in particular the student ID card, and meet all financial obligations to the University.
 6. Resignation from studies should be submitted to the Doctoral School Office in writing; otherwise, it shall be null and void.

CHAPTER IX. Completing education at the School

§ 27

1. The basis for the completion of studies at the School is obtaining passing grades for all of the courses included in the curriculum, which results in the achievement of learning outcomes for qualifications at level 8 of the Polish Qualification Framework (PRK), as well as the submission of a doctoral dissertation to the chair of the appropriate Scientific Committee together with a set of documents.
2. The deadline for the submission of the doctoral dissertation may be extended, however, not longer than 2 years, pursuant to the rules laid down in § 24, subject to (3).
3. The deadline for the submission of the dissertation may be extended in the case of a dissertation prepared by a doctoral student participating in the "Implementation Doctorate" program, only in accordance with the regulations of this program.

CHAPTER X. Final provisions

§ 28

1. The Dean is authorized to make decisions in matters that concern the rules and mode of study at the School, and which are not regulated by these Rules and Regulations or other legal provisions.

2. Administrative decisions in matters governed by the Rules and Regulations are issued by the Rector or the Dean under the authority of the Rector. Administrative decisions may be appealed against by means of a request for reconsideration of the case submitted within fourteen days of the receipt of the decision.
3. Decisions or actions other than administrative decisions shall be made by the Dean. A doctoral student may appeal against decisions of the Dean to the Rector. A decision made by the Rector shall be final.
4. In justifiable cases, including when new circumstances are crucial to resolving a case, the Dean may, at the request of a student or on their own initiative, change their decision. Provisions of (2) and (3) shall apply respectively.

Resolution No. 46/2022/2023
of the Senate of the University of Economics in Katowice
of March 30, 2023,
on amendments to the Rules and Regulations of the Doctoral School

Based on Art. 205 of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2022, item 574, as amended) and § 24 (1) (6) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

The following amendments are introduced to the Rules and Regulations of the Doctoral School, introduced by Resolution No. 73/2021/2022 of the Senate of the University of Economics in Katowice of March 31, 2022, on the adoption of the Rules and Regulations of the Doctoral School at the University of Economics in Katowice:

1) **§ 9 (1)** shall read as follows:

"1. A person admitted to the School commences education and acquires the rights of a doctoral student upon taking the oath, the content of which is specified in the Statute of the University. The oath must be taken in person at the School's headquarters within 30 days of the start of the academic year. In justified cases, at the request of a person admitted to the School, the Dean may extend the deadline for taking the oath.";

2) **§ 13 (1)** shall read as follows:

"1. Within two months of commencing studies, but no later than November 30, a doctoral student shall submit to the Dean a declaration regarding their choice of a supervisor, confirmed by the candidate for a supervisor and accepted by the supervisor's department head. In cases justified by the subject of the doctoral dissertation, the doctoral student may submit a declaration of choice of two supervisors, one of whom must be an employee of the University, confirmed by both candidates for supervisor and approved by the heads of the departments of both supervisors. In the case of a second supervisor who is not a University employee, the application is approved by the department head of the supervisor who is a University employee.";

3) in **§ 13, after (3), (3a)** is added, and shall read as follows:

"3a. In justified cases related to the subject of the doctoral dissertation, at the request of the doctoral student and with the supervisor's agreement, the Dean may appoint a second supervisor no later than the end of the first year of study. In the case of a second supervisor who is not an employee of the University, the request is approved by the department head of the supervisor who is an employee of the University.";

4) **§ 13 (4)** shall read as follows:

"4. At the supervisor's request, and no later than the end of the first year of study, the Dean shall appoint an assistant supervisor for the doctoral student. A request for the appointment of an assistant supervisor cannot be made if two supervisors have been appointed.";

5) **§ 14 (1)** shall read as follows:

"1. A supervisor may be a university teacher with at least a degree of '*doktor habilitowany*,' and the assistant supervisor may be a person with at least a doctoral degree.";

6) **§ 23 (2) (3)** shall read as follows:

"3) a person holding a degree of '*doktor habilitowany*' or the title of professor in the discipline in which the doctoral dissertation is being prepared, who is not an employee of the University, or an employee of a foreign university or scientific institution, if the relevant scientific committee considers that this person has significant achievements in the field of scientific issues concerned by the doctoral dissertation.";

7) in **§ 26 (1)**, after **(4)**, **(5)-(7)** is added, and shall read as follows:

"5) failure to undertake education;

6) violations of the prohibition referred to in Art. 200 (7) or Art. 209 (10) of the Act;

7) punishment with disciplinary expulsion from the Doctoral School.";

8) in **§ 26**, after **(2)**, **(2a)** is added, and shall read as follows:

"2a. The Dean removes a doctoral student from the doctoral student register due to failure to undertake education, if the doctoral student does not submit:

1) the oath on the terms and within the time limit specified in § 9(1);

2) declaration on continuing education referred to in § 10 (8)."

§ 2

The remaining provisions of the Rules and Regulations referred to in § 1 shall remain intact.

§ 3

The resolution comes into force on October 1, 2023.

President of the Senate
Rector

(-) prof. dr hab. inż. Celina M. Olszak

Resolution No. 51/2022/2023
of the Senate of the University of Economics in Katowice
of April 27, 2023,
on amendments to the Rules and Regulations of the Doctoral School

Based on Art. 205 of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2022, item 574, as amended) and § 24 (1) (6) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

The following amendments are introduced to the Rules and Regulations of the Doctoral School, introduced by Resolution No. 73/2021/2022 of the Senate of the University of Economics in Katowice of March 31, 2022, on the adoption of the Rules and Regulations of the Doctoral School (as amended) at the University of Economics in Katowice:

- 1) in **§ 1 (3), (10)** is added, and shall read as follows:

"10) person requiring additional assistance – a person who, due to their external or internal characteristics, or due to the circumstances in which they find themselves, must take additional actions or apply additional measures to overcome barriers to participate in various spheres of life on an equal basis with others.";

- 2) **§ 3 (2)** shall read as follows:

"2. The University, as far as possible, provides doctoral students requiring additional assistance with appropriate conditions for attending classes and completing coursework, taking into account the degree and nature of their disability.";

- 3) **§ 7** shall read as follows:

"§ 7

1. The University, as far as possible, ensures that doctoral students requiring additional assistance have full access to education and research, taking into account the degree and the nature of their disability.
2. Doctoral students requiring additional assistance can receive support during their education by reporting their needs to the Accessibility Center.
3. Detailed rules and organization of support for doctoral students requiring additional assistance are specified in separate orders."

§ 2

The remaining provisions of the Rules and Regulations, referred to in § 1, shall remain intact.

§ 3

The resolution comes into force on October 1, 2023.

President of the Senate
Rector

(-) prof. dr hab. inż. Celina M. Olszak

Resolution No. 68/2024/2025
of the Senate of the University of Economics in Katowice
of April 24, 2025,
on amendments to the Rules and Regulations of the Doctoral School

Based on Art. 205 of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2024, item 1571, as amended) and § 24 (1) (6) of the Statute of the University of Economics in Katowice, the Senate of the University of Economics in Katowice hereby resolves as follows:

§ 1

The following amendments are introduced to the Rules and Regulations of the Doctoral School, introduced by Resolution No. 73/2021/2022 of the Senate of the University of Economics in Katowice of March 31, 2022:

1) in **§ 13**:

a) **(1)** shall read as follows:

"1. Within two months of commencing studies, but no later than November 30, a doctoral student shall submit to the Dean a declaration regarding their choice of a supervisor, confirmed by the candidate for a supervisor and accepted by the supervisor's department head. In cases justified by the subject of the doctoral dissertation, the doctoral student may submit a declaration of choice of two supervisors, one of whom must be an employee of the University, confirmed by both candidates for supervisor and approved by the heads of the departments of both supervisors. In the case of a second supervisor who is not a University employee, the application is approved by the department head of the supervisor who is a University employee. If the candidate for supervisor is the Dean, the doctoral student submits the declaration of choice of supervisor to the deputy chair of the Doctoral School Council.";

b) **(3)-(4)** shall read as follows:

"3. The Dean or Vice-Chair of the Doctoral School Council appoints a supervisor no later than December 31 of the academic year in which the doctoral student began their studies.

4. At the supervisor's request, the Dean or deputy chair of the Doctoral School Council appoints an assistant supervisor for the doctoral student.";

2) in **§ 23**, after **(5)**, **(5a)** is added, and shall read as follows:

"5a. In cases where the Dean acts as the supervisor, the activities related to the mid-term evaluation that fall within the Dean's competence are performed by the deputy chair of the Doctoral School Council."

§ 2

The remaining provisions of the Rules and Regulations, referred to in § 1, shall remain intact.

§ 3

The resolution comes into force on October 1, 2025.

SELF-ASSESSMENT REPORT**

APPENDIX

INTERNAL LEGAL ACTS PREPARED FOR THE PURPOSES OF THE MID-TERM EVALUATION,
APPLICABLE DURING THE PERIOD COVERED BY THE EVALUATION (E.G. RULES AND CRITERIA OF
ASSESSMENT)

- RULES AND REGULATIONS OF THE MID-TERM EVALUATION COMMITTEE AT THE DOCTORAL
SCHOOL

R-0161-34/21

Order No. 34/21

of March 29, 2021, of the Rector of the University of Economics in Katowice on the introduction of the Rules and Regulations of the mid-term evaluation committee at the Doctoral School

Based on Art. 23 (1) of the Act of July 20, 2018, Law on Higher Education and Science (Journal of Laws of 2021, item 478), § 19 of the Statute of the University of Economics in Katowice, and § 21 (6) of the Rules and Regulations of the Doctoral School at the University of Economics in Katowice, introduced by Resolution No. 79/ 2018/2019 of the Senate of the University of Economics in Katowice of May 30, 2019, **I hereby order** as follows:

§ 1

The Rules and Regulations of the mid-term evaluation committee at the Doctoral School, constituting Appendix No. 1 to this Order, are hereby introduced.

§ 2

The Order comes into force on the date of its signing.

Rector

(-) prof. dr hab. inż. Celina M. Olszak

RULES AND REGULATIONS OF THE MID-TERM EVALUATION COMMITTEE AT THE DOCTORAL SCHOOL

GENERAL PROVISIONS

§ 1

The terms used in the Rules and Regulations of the Mid-Term Evaluation Committee at the Doctoral School shall mean the following:

- 1) doctoral student – a person who has completed the fourth semester of education;
- 2) Director – a person performing the function of the Director of the Doctoral School;
- 3) committee – the committee for conducting mid-term evaluations at the Doctoral School, referred to in § 21 (2) of the Rules and Regulations of the Doctoral School;
- 4) department head – a person in charge of a department to which a doctoral student is assigned;
- 5) scientific committee responsible for the discipline – for the discipline of "Economics and Finance," the Scientific Committee for Economics and Finance; for the discipline of "Management and Quality Sciences," the Scientific Committee for Management and Quality Sciences;
- 6) evaluation – mid-term evaluation referred to in Art. 202 of the Act of July 20, 2018, Law on Higher Education and Science (Journal of Laws of 2021, item 478);
- 7) plan – individual research plan referred to in § 18 of the Rules and Regulations of the Doctoral School;
- 8) Rules and Regulations – Rules and Regulations governing the operation of the Mid-Term Evaluation Committee at the Doctoral School;
- 9) Rules and Regulations of the Doctoral School – Rules and Regulations of the Doctoral School at the University of Economics in Katowice, constituting an appendix to Resolution No. 79/ 2018/2019 of the Senate of the University of Economics in Katowice of May 30, 2019, on the adoption of the Rules and Regulations of the Doctoral School at the University of Economics in Katowice;
- 10) report – report on the implementation of the individual research plan referred to in § 21 (4) of the Rules and Regulations of the Doctoral School;
- 11) Doctoral School – Doctoral School at the University of Economics in Katowice;
- 12) University – University of Economics in Katowice.

PROCEDURE FOR APPOINTING THE COMMITTEE

§ 2

1. The composition of the committee is determined separately for each doctoral student's mid-term evaluation by September 30 of the academic year.
2. By September 15, the Director shall submit to the Rector proposals for the composition of individual committees.
3. The Rector shall determine the composition of the committee separately for each doctoral student by means of a decision.
4. Subject to (6), the committee shall consist of:
 - 1) the Director – as a chair,
 - 2) the department head and
 - 3) a person holding a degree of "doktor habilitowany" or the title of professor in the discipline in which the doctoral dissertation is being prepared, who is not an employee of the University.
5. The person referred to in paragraph 4 (3) shall be entitled to remuneration in the amount specified according to Art. 202 (5) of the Law on Higher Education and Science of July 20, 2018, (Journal of Laws of 2021, item 478).

6. If the department head is unable to participate in the committee's work, a University employee with a degree of "doktor habilitowany" or the title of professor who is a member of the relevant scientific committee shall be appointed to the committee.

DOCUMENTATION REQUIRED FOR THE MID-TERM EVALUATION PROCESS

§ 3

1. By September 30, doctoral students are required to submit to the Doctoral School Office the report referred to in § 21 (4) of the Rules and Regulations of the Doctoral School, together with appendices.
2. The report and appendices referred to in (3)-(14) shall be submitted by a doctoral student in hard copy and electronic form (PDF). The electronic version shall be sent by the doctoral student within the time limit specified in (1) to the email address of the Doctoral School Office from their email address in the edu.uekat.pl domain.
3. A doctoral student shall attach explanations concerning deviations from the dissertation preparation timetable to the information referred to in § 21(4) (5) of the Rules and Regulations of the Doctoral School.
4. A doctoral student shall attach to the report referred to in § 21(4) (6) of the Rules and Regulations of the Doctoral School a report from the department meeting, confirmed by the department head.
5. A doctoral student shall attach publications in electronic form (PDF files) to the list referred to in § 21 (4) (7) of the Rules and Regulations of the Doctoral School. In exceptional cases, a printed version of the book may be submitted.
6. The doctoral student shall attach to the information referred to in § 21(4) (8) of the Rules and Regulations of the Doctoral School a list of tasks performed, confirmed by the project supervisor.
7. A doctoral student shall attach to the information referred to in § 21(4) (9) of the Rules and Regulations of the Doctoral School a list of completed tasks, confirmed by the department head.
8. The list referred to in § 21 (4) (10) of the Rules and Regulations of the Doctoral School shall be confirmed by the head of the Doctoral School office immediately after the report has been submitted.
9. In the information referred to in § 21 (4) (11) of the Rules and Regulations of the Doctoral School, a doctoral student shall justify in writing the connection between participation in individual conferences and the implementation of the individual research plan or the preparation of the doctoral dissertation.
10. A doctoral student shall attach to the list referred to in § 21 (4) (14) of the Rules and Regulations of the Doctoral School information about the organizer and the program of training courses or workshops, as well as an explanation of their relevance to the doctoral student's research work.
11. In the event of deviations from the implementation of the individual research plan, a doctoral student may submit written explanations, in particular regarding the need to modify the plan within the scope referred to in § 18 (1) and (3)-(6) of the Rules and Regulations of the Doctoral School.
12. The explanations referred to in (11) should be agreed upon and reviewed by the supervisor and the assistant supervisor, if one has been appointed.
13. A doctoral student submits an abstract that presents the status of implementation of the individual research plan, which constitutes the basis for the presentation referred to in § 4 (4).
14. A doctoral student may submit a request for the supervisor to participate in the committee meeting in the part referred to in § 4 (4). The request shall be accompanied by the supervisor's written consent to participate in the committee meeting.
15. Each document attached to the report by a doctoral student must be marked by them according to the part of the report to which it pertains. The marking shall be made by

indicating the point or points of § 21 (4) of the Rules and Regulations of the Doctoral School to which the document relates.

COMMITTEE MEETING

§ 4

1. The date, place, and manner of the committee meeting shall be determined by the Director. At least 7 days before the scheduled date, the Doctoral School Office shall inform a doctoral student of the date, place, and manner of the committee meeting by e-mail to the doctoral student's address in the edu.uekat.pl domain.
2. The meeting may be held using a tool for synchronous interaction between meeting participants. In the event of a loss of connection or technical problems that prevent the meeting from taking place, the committee chair shall decide whether to continue or reschedule the committee meeting.
3. In justified cases, the date, place, or manner of conducting the committee meeting may be changed by the Director, with the Doctoral School Office immediately informing the doctoral student and the committee members.
4. During the committee meeting, a doctoral student shall present the status of implementation of their individual research plan. After the presentation, the committee shall hold a discussion with the doctoral student. At the doctoral student's request, their supervisor may be present during the discussion. The provisions of (1)-(3) shall apply accordingly.
5. The committee shall determine the mid-term evaluation in a closed meeting according to the provisions of § 5.
6. The committee meeting ends with the announcement of the mid-term evaluation. In justified cases, the announcement of the evaluation result may take place later. The committee chair informs the doctoral student and committee members of the date, place, and manner of the announcement.
7. The assessment may be positive or negative and is communicated to a doctoral student and their supervisor and assistant supervisor, if one has been appointed.
8. There is no right of appeal against the mid-term evaluation.
9. After announcing the assessment result, the committee chair presents an oral justification for it.
10. A written justification for the assessment shall be prepared within 7 days of the announcement and sent by e-mail to a doctoral student, their supervisor, and their assistant supervisor, if appointed.
11. Within 3 days, the committee member referred to in § 2 (4) (3) shall prepare a draft of a written justification.
12. The result of the assessment, together with the justification, is public.
13. Minutes shall be taken of the committee meeting, containing in particular:
 - 1) name and surname of the doctoral student,
 - 2) student ID number,
 - 3) Personal Identification Number (PESEL),
 - 4) composition of the committee,
 - 5) mid-term assessment result – positive or negative,
 - 6) individual partial assessments – positive or negative for each area, referred to in § 5(1),
 - 7) comments to the report.

MID-TERM EVALUATION CRITERIA

§ 5

1. Mid-term assessment is performed in the following areas (partial assessments):
 - 1) implementation of an individual research plan according to the timetable,

- 2) implementation of an individual research plan in relation to the progress of the doctoral student's scientific work.
2. The mid-term evaluation covers the period from the beginning of education at the Doctoral School to the date of submission of the report referred to in § 21 (4) of the Rules and Regulations of the Doctoral School.
3. Each member of the committee shall present partial assessments, separately for each area referred to in (1) (individual partial assessments). An individual partial assessment shall be either positive or negative.
4. Partial grades are determined based on the individual partial assessments referred to in (3). The condition for a positive partial grade in each area referred to in (1) is to obtain at least two positive individual partial assessments in that area.
5. The condition for a positive mid-term assessment is obtaining positive partial assessments in all areas referred to in (1).
6. The assessment referred to in (1) (1) concerns, in particular, the timeliness and quality of the performance of tasks resulting from the timetable referred to in § 18 (1) of the Rules and Regulations of the Doctoral School and the status of work on the doctoral dissertation in relation to meeting the deadline referred to in § 18 (2) of the Rules and Regulations of the Doctoral School.
7. The assessment referred to in (1) (2) concerns, in particular, the compliance of the doctoral student's achievements in scientific work with the implementation of the individual research plan and the preparation of the doctoral dissertation.
8. The assessment referred to in (1) (1) shall be made in particular based on the presentation and interview with a doctoral student referred to in § 4 (4), as well as based on the parts of the report referred to in § 21 (4) (5-6) of the Rules and Regulations of the Doctoral School, documented according to § 3.
9. The assessment referred to in (1) (2) shall be based on the parts of the report referred to in § 21 (4) (7)-(17) of the Rules and Regulations of the Doctoral School, documented according to the provisions of § 3.
10. First, a partial assessment is performed within the scope referred to in (1) (1).
11. First, an individual partial assessment is made by the committee member referred to in § 2 (4) (3). Finally, the Director conducts an individual partial assessment.
12. If the committee finds deviations in the implementation of the individual research plan, the committee shall determine the following:
 - 1) whether the explanations provided by a doctoral student, in particular those referred to in § 3 (11) concerning the reasons for not implementing the plan, are sufficiently justified, and
 - 2) whether the indicated corrective measures shall ensure the implementation of the plan and enable the completion of education at the Doctoral School within the time limit referred to in § 18 (2) of the Rules and Regulations of the Doctoral School.
13. If completion of education is possible, the result of the individual partial assessment in the scope referred to in (1) (1) may be positive. In such a case, if the mid-term assessment is positive, a doctoral student is required to prepare, after consultation with a supervisor and, if an assistant supervisor has been appointed, adjustments to the individual research plan within 14 days of the date of submission of the written justification referred to in § 4 (10).

FINAL PROVISIONS

§ 6

1. In matters not covered by these Rules and Regulations, the Rules and Regulations of the Doctoral School, or the Act, the decision shall be made by the committee chair.
2. To amend these Rules and Regulations, the same procedure as for their adoption applies.

R-0161- 49/23

Order No. 49/23

of April 17, 2023, of the Rector of the University of Economics in Katowice on the introduction of the Rules and Regulations for the functioning of the mid-term evaluation committee at the Doctoral School

Pursuant to Art. 23 (1) of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2022, item 574, as amended), § 15 of the Statute of the University of Economics in Katowice, and § 23 (6) of the Rules and Regulations of the Doctoral School at the University of Economics in Katowice, introduced by Senate Resolution No. 73/2021/2022 of March 31, 2022, *I hereby order* as follows:

§ 1

Rules and Regulations for the functioning of the mid-term evaluation committee at the Doctoral School, attached as Appendix No. 1 to this Order, are introduced.

§ 2

Order No. 34/21, of March 29, 2021, on the introduction of the Rules and Regulations for the functioning of the mid-term evaluation committee at the Doctoral School, is repealed.

§ 3

The Order comes into force on the date of its signing.

Rector

(-) prof. dr hab. inż. Celina M. Olszak

**RULES AND REGULATIONS FOR THE FUNCTIONING OF
THE MID-TERM EVALUATION COMMITTEE
AT THE DOCTORAL SCHOOL**

GENERAL PROVISIONS

§ 1

The terms used in these Rules and Regulations for the functioning of the mid-term evaluation committee at the Doctoral School shall mean the following:

- 1) doctoral student – a person who has completed the fourth semester of training;
- 2) Dean – a person who serves as the Dean of the Doctoral School;
- 3) committee – the committee appointed for conducting the mid-term evaluation at the Doctoral School, referred to in § 23 (2) of the Rules and Regulations of the Doctoral School;
- 4) department head – a person in charge of a department to which a doctoral student is assigned;
- 5) scientific committee responsible for the discipline – committees referred to in § 31 of the Statute;
- 6) evaluation – the mid-term evaluation referred to in Art. 202 of the Act of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws of 2022, item 574, as amended);
- 7) plan – an individual research plan referred to in § 19 of the Rules and Regulations of the Doctoral School;
- 8) Rules and Regulations – Rules and Regulations for the functioning of the mid-term evaluation committee at the Doctoral School;
- 9) Rules and Regulations of the Doctoral School – Rules and Regulations of the Doctoral School at the University of Economics in Katowice, constituting Appendix No. 1 to Resolution No. 73/2021/2022 of the Senate of the University of Economics in Katowice of March 31, 2022, on the adoption of the Rules and Regulations of the Doctoral School at the University of Economics in Katowice;
- 10) report – a report on the implementation of the individual research plan referred to in § 23 (4) of the Rules and Regulations of the Doctoral School;
- 11) Statute – the Statute of the University of Economics in Katowice, constituting Appendix No. 1 to Resolution No. 120/2020/2021 of the Senate of the University of Economics in Katowice of June 24, 2021, on the adoption of the Statute of the University of Economics in Katowice;
- 12) Doctoral School – the Doctoral School at the University of Economics in Katowice;
- 13) University – the University of Economics in Katowice.

COMMITTEE APPOINTMENT PROCEDURE

§ 2

1. The composition of a committee is determined separately by September 30 of the academic year for the mid-term evaluation of each doctoral student.
2. The Dean submits to the Rector proposals for the composition of the individual committees by September 15.
3. The Rector determines and decides on the composition of the committee separately for each doctoral student.
4. The committee, subject to (6), includes:
 - 1) the Dean – as chair,
 - 2) the Department head to which the doctoral student is assigned, and
 - 3) a person with a post-doctoral degree or the title of professor in the discipline in which the doctoral dissertation is being prepared, who is not an employee of the University or an employee of a foreign university or scientific institution, if the relevant scientific committee recognizes that this person has significant achievements in the scientific matters to which the doctoral thesis relates.
5. The person referred to in 4 (3) is entitled to remuneration in the amount determined according to Art. 202 (5) of the Law of July 20, 2018, Law on Higher Education and Science (i.e., Journal of Laws, 2022, item 574, as amended).
6. If the head of a Department cannot participate in the work of a committee, an employee of the University holding a post-doctoral degree or the title of a professor who is a member of the scientific committee appropriate to the discipline shall be appointed as a member of the committee.

DOCUMENTATION REQUIRED FOR THE MID-TERM EVALUATION PROCESS

§ 3

1. A doctoral student is required to submit to the Doctoral School Office by September 30 a report referred to in § 23 (4) of the Rules and Regulations of the Doctoral School, along with appendices.
2. The report and appendices referred to in (3)-(15) shall be submitted by a doctoral student in paper and electronic form (pdf). The electronic version shall be sent by the deadline specified in (1) to the e-mail address of the Doctoral School Office, szkola.doktorska@uekat.pl, from the student's address in the edu.uekat.pl domain.
3. A doctoral student shall attach to the information referred to in § 23 (4) (5) of the Rules and Regulations of the Doctoral School an explanation for any deviations from the dissertation preparation schedule.
4. The information referred to in § 23 (4) (6) of the Rules and Regulations of the Doctoral School, confirmed by the supervisor, specifies the percentage progress in the preparation of the doctoral dissertation; the developed parts of the dissertation are attached only in electronic form (files in pdf format).

5. A doctoral student attaches to the report referred to in § 23 (4) (7) of the Rules and Regulations of the Doctoral School a report of the departmental meeting confirmed by the head of a Department.
6. To the list referred to in § 23 (4) (8) of the Rules and Regulations of the Doctoral School, a doctoral student shall attach publications only in electronic form (pdf files). In exceptional cases, presenting a printed version of the book is permissible.
7. In accordance with § 23 (4) (9) of the Rules and Regulations of the Doctoral School, a doctoral student attaches the range of tasks performed, confirmed by the project leader.
8. In accordance with § 23 (4) (10) of the Rules and Regulations of the Doctoral School, a doctoral student attaches the range of tasks performed, confirmed by the head of a Department.
9. The head of the Doctoral School Office confirms the list referred to in § 23 (4) (11) of the Rules and Regulations of the Doctoral School Office immediately after submission of the report.
10. In accordance with § 23 (4) (12) of the Rules and Regulations of the Doctoral School, a doctoral student justifies, in writing, the relationship between participation in individual conferences and the implementation of the individual research plan or the preparation of the doctoral dissertation.
11. To the list referred to in § 23 (4) (15) of the Rules and Regulations of the Doctoral School, a doctoral student includes information about the organizer and the program of courses or training, as well as an explanation of their relationship to their scientific work.
12. In the case of deviations from the implementation of the individual research plan, a doctoral student may submit a written clarification, regarding in particular the need to modify the plan to the extent referred to in § 19 (1) (1)-(6) of the Rules and Regulations of the Doctoral School, provided that the modification of the deadline for submission of the doctoral thesis is no later than September 30 of the final year of training.
13. The clarifications referred to in (12) should be agreed upon and reviewed by the supervisor and/or the assistant supervisor, if appointed.
14. A doctoral student submits a self-evaluation report presenting the status of their individual research plan, constituting grounds for the presentation referred to in § 4 (4).
15. A doctoral student may apply for their supervisor's participation in the commission meeting in the part referred to in § 4 (4). The application must be accompanied by the supervisor's written consent to participate in the committee meeting. The provision applies mutatis mutandis to the participation of an assistant supervisor.
16. Each document attached to the report is marked by a doctoral student regarding the part of their report. The marking is done by indicating the point or points of § 23 (4) of the Rules and Regulations of the Doctoral School to which the document refers.

COMMITTEE MEETING

§ 4

1. The date, place, and manner of holding a committee meeting are determined by the Dean. At least 7 days before the scheduled date, the Doctoral School Office informs the doctoral student of the date, place, and manner of the committee meeting via e-mail to the doctoral student's address in the edu.uekat.pl domain.
2. The meeting may be held using a tool for synchronous interaction between participants. In the event of a connection disruption/technical problems that prevent the meeting from taking place, the committee chair shall decide whether to continue or reschedule the meeting.
3. In duly justified cases, the date, place, or manner of the committee meeting may be changed by the Dean. The Doctoral School Office shall immediately inform the doctoral student and the members of the committee of the change.
4. During the committee meeting, a doctoral student presents the status of their individual research plan. After the presentation, the committee holds a discussion with the doctoral student. At the doctoral student's request, their supervisor and/or assistant supervisor may be present during the discussion. The provisions of (1)-(3) apply accordingly.
5. The committee determines the mid-term evaluation in the closed-door part of the meeting, in accordance with the provisions of § 5.
6. The committee meeting ends with an announcement of the mid-term evaluation. In duly justified cases, the evaluation results may be announced later. The committee chair informs the doctoral student and the committee members of the date, place, and manner of the evaluation announcement.
7. The evaluation may be either positive or negative and is communicated to both a doctoral student and their supervisor and/or assistant supervisor, if appointed.
8. The mid-term evaluation cannot be appealed.
9. After the evaluation result is announced, the committee chair provides an oral justification of the assessment.
10. A written justification of the evaluation is prepared within 14 days of the announcement date and sent via e-mail to the doctoral student, their supervisor, and/or the assistant supervisor, if appointed.
11. Within 3 days from the date of the committee meeting, the committee member referred to in § 2 (4) (3) drafts a written justification.
12. The results of the evaluations, with justifications, are public and announced on the Doctoral School webpage of the University of Economics in Katowice.
13. A report of the committee meeting includes, in particular:
 - 1) name and surname of a doctoral student,
 - 2) their album number,
 - 3) their PESEL number,
 - 4) composition of the committee,

- 5) the result of the mid-term evaluation – either positive or negative,
- 6) individual partial grades – positive or negative for each scope, referred to in § 5 (1),
- 7) remarks to the report.

MID-TERM EVALUATION CRITERIA

§ 5

1. Mid-term evaluation is performed in terms of (partial grades):
 - 1) implementation of an individual research plan in accordance with a schedule,
 - 2) implementation of an individual research plan in connection with the progress of a doctoral student's scientific work.
2. The mid-term evaluation covers the period from the beginning of training at the Doctoral School until the date of submission of the report referred to in § 23 (4) of the Rules and Regulations of the Doctoral School.
3. Each member of the committee presents partial grades, separately for each scope, referred to in (1) (individual partial grades). The individual partial grade is either positive or negative.
4. Partial grades are determined separately for each scope referred to in (1), based on the individual partial grades referred to in (3). A prerequisite for a positive partial grade in each scope referred to in (1) is to obtain at least two positive individual partial grades in said scope.
5. Obtaining positive partial grades referred to in (4) in each scope referred to in (1) means a positive mid-term evaluation.
6. The evaluation within the scope referred to in (1) (1) concerns in particular the timeliness and quality of performance of tasks resulting from the schedule referred to in § 19 (1) (1) of the Rules and Regulations of the Doctoral School, and the status of work on the dissertation in terms of deadline referred to in § 19 (1) (2) of the Rules and Regulations of the Doctoral School.
7. The evaluation within the scope referred to in (1) (2) concerns in particular the consistency of a doctoral student's achievements in scientific work with the implementation of an individual research plan and the preparation of a doctoral dissertation.
8. The evaluation in the scope referred to in (1) (1) is conducted in particular based on the presentation and interview with a doctoral student referred to in § 4 (4), as well as parts of the report referred to in § 23 (4) (5)-(7) of the Rules and Regulations of the Doctoral School, documented in accordance with § 3.
9. The evaluation within the scope referred to in (1) (2) is made based on the parts of the report referred to in § 23 (4) (8)-(18) of the Rules and Regulations of the Doctoral School, documented according to § 3.
10. The partial grading in the area referred to in (1) (1) is conducted first.
11. The individual partial grading is conducted first by a member of the committee, referred to in § 2 (4) (3). The last to perform an individual partial grading is the committee chair.

12. If the committee finds deviations in the implementation of an individual research plan, the committee determines:
 - 1) whether the explanations submitted by a doctoral student, in particular those referred to in § 3 (12) regarding the reasons for not implementing the plan, are duly justified, and
 - 2) whether the indicated corrective measures ensure the implementation of the plan and enable graduation from the Doctoral School within the timeframe referred to in § 19 (1) (2) of the Rules and Regulations of the Doctoral School.
13. If the completion of training is possible, the result of the individual partial assessment in the scope referred to in (1) (1) may be positive. In such a case, if the mid-term evaluation is positive, a doctoral student is obliged to prepare, in consultation with their supervisor and/or assistant supervisor (if appointed), a revision of their individual research plan within 14 days from the date of submission of the written justification referred to in § 4 (10).

MID-TERM EVALUATION OF DOCTORAL STUDENTS PURSUING AN ENGLISH STUDY PROGRAM

§ 6

1. In the case of the mid-term evaluation of a doctoral student pursuing the study program referred to in § 1 (3) (8) of the Rules and Regulations of the Doctoral School (study program in English), the documentation referred to in § 3 and the report referred to in § 4 (13) shall be prepared in Polish and English.
2. For the mid-term evaluation of a doctoral student pursuing the study program referred to in (1), the committee meeting shall be conducted in English.

FINAL PROVISIONS

§ 7

1. In cases not covered by these or the Doctoral School's Rules and Regulations or the Act, decisions are made by the committee chair.
2. To amend these Rules and Regulations, the same procedure as for their adoption applies.
