Nauk

CITY Warszawa

POSITION postdoc (adiunkt)

DISCIPLINE astronomy

POSTED 28.05.2025

EXPIRES 20.06.2025

WEBSITE <https://www.camk.edu.pl/pl/archiwum/2025/05/28/tenure-track/>

KEY WORDS astronomy, astrophysics, stellar cluster, stellar dynamics, binary
systems, black holes

DESCRIPTION (field, expectations, comments): The Nicolaus Copernicus Astronomical Center of the Polish Academy of Sciences (CAMK PAN) invites applications for a tenure-track position in astronomy/astrophysics in Warsaw. The successful candidate will be expected to conduct independent research and may obtain a permanent position upon successful evaluation.

The position is open to applicants with research interest in observational and theoretical stellar cluster astrophysics including: stellar dynamics, evolution of stellar clusters, dynamical interactions of binary systems, evolution of stars and binary systems in the field and star clusters, formation of intermediate-mass black holes, and numerical simulations of the evolution of stellar systems.
